Hi and Lois was created in 1954 by Mort Walker and Dik Browne. This classic American comic strip has been entertaining newspaper readers for over five decades. The stars of the feature -- Hi, Lois, Chip, Dot, Trixie, and Dawg Flagston -- provide a warm, loving portrait of a wholesome family with traditional values and modern-day sensibilities. In today's often dysfunctional world, the Flagstons put the "fun" into functional family. Whether it's busy parents juggling jobs and raising a family, a teen coping with self-image, sibling rivalry among the youngsters, or a toddler learning about her place in the world, Hi and Lois has kept pace with mainstream life. The first Hi and Lois Sunday page was released on October 14, 1956. Mort and Dik always looked on these weekly instalments as an opportunity to showcase their best work. To them, a Sunday page was more than just an expanded daily strip. Mort would challenge Dik with ideas that inspired him to create a graphic masterpiece. Childhood fantasies, nostalgia trips, seasonal strolls, summer vacations, and holiday celebrations were among the many recurrent themes explored in these episodes.

This book is an in-depth examination of the much needed process of “self” study known as self observation. We live in an age where the “attention function” in the brain has been badly damaged by TV and computers-up to 90 percent of the public under age 35 suffers from attention-deficit disorder! This book offers the most direct, non-pharmaceutical means of healing attention dysfunction. The methods presented here are capable of restoring attention to a fully functional and powerful tool for success in life and relationships. This is also an age when humanity has lost its connection with conscience. When humanity has poisoned the Earth’s atmosphere, water, air and soil, when cancer is in epidemic proportions and is mainly an environmental illness, the author asks: What is the root cause? And he

boldly answers: Failure to develop conscience! Selfobservation, he asserts, is the most ancient, scientific, and proven means to develop this crucial inner guide to awakening and a moral life. This book is for the lay-reader, both the beginner and the advanced student of self observation. No other book on the market examines this practice in such detail. There are hundreds of books on self-help and meditation, but almost none on self-study via self-observation, and none with the depth of analysis, wealth of explication, and richness of experience which this book offers. Red Hawk, author of 5 collections of poetry, was the Hodder Fellow at Princeton University (1992-93) and is currently a full professor at the University of Arkansas, Monticello. He has practiced self-observation for over 30 years, under the guidance of the Gurdjieff Society of Arkansas, meditation master Osho Rajneesh, and spiritual teacher, Lee Lozowick.

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how

masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Everyone working in and with organizations will, from time to time, experience frustrations and problems when trying to accomplish tasks that are a required part of their role. This is an unusual routine - a recurrent interaction pattern in which

someone encounters a problem when trying to accomplish normal activities by following standard organizational procedures and then becomes enmeshed in wasteful and even harmful subroutines while trying to resolve the initial problem. They are unusual because they are not intended or beneficial, and because they are generally pervasive but individually infrequent. They are routines because they become systematic as well as embedded in ordinary functions. Using a wide range of case studies and interdisciplinary research, this book provides researchers and practitioners with a new vocabulary for identifying, understanding, and dealing with this pervasive organizational phenomenon, in order to improve worker and customer satisfaction as well as organizational performance.

In August of 1970, 28-year-old Lou Reed quit the Velvet Underground, moved home to Long Island, New York, and embarked on a fascinating alternate creative path: poetry. Spending months in relative isolation, the musician refashioned

himself, publicly vowing to never again play rock and roll. Reed wrote verse and contributed his work to journals and small press publications. "I'm a poet," he proclaimed from the stage of St. Mark's Church in March 1971. Though his retirement from music wouldn't last -- only six months later he began recording his debut solo album -- Reed's passionate identification with the written word was solidified, and would last the rest of his life. This book is an extraordinary snapshot of this turning point in Reed's career and gathers poems from the 1971 St. Mark's Church reading, photographs from the era -- by Mick Rock, Moe Tucker, and others -- and images from rare poetry zines.

### **I Ain't Gonna Paint No More!**

Everything about this trip to Grandma's house was different: First, because of the fire, Mrs. Treski, Evan, and Jessie had driven up to Grandma's two days after Christmas instead of the day before, missing Christmas with Grandma entirely. Second, the fire had left a hole in the back kitchen wall big enough to drive a car through! And with Grandma in the hospital and not in her house, everything felt off. Third, someone had climbed the long, slow slope of Lovell Hill to the top and had stolen the old iron bell hanging on its heavy wooden crossbeam. Who on earth would steal the New Year's Bell? And how could Grandma, Mrs. Treski, Evan, Jessie, and their neighbors ring in the New Year without it? Like a modern-day Beverly Cleary, Ms. Davies writes with heart, humor, and honesty about the inevitability of
