J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science."

An engaging, highly moving young adult biography of Lucy Maud Montgomery, the beloved author of Anne of Green Gables, the Emily series, and many more treasured stories. This year, 2002, marks the 60th anniversary of Lucy Maud Montgomery's death. Maud Montgomery was not yet two years old when she saw her mother for the last time. The journey from that day to the day Maud signed "Lucy Maud Montgomery" at the end of her first published story was long and often painful. In this compelling portrait of one of Canada's best-loved writers for young people, another beloved, award-winning young-adult author, Janet Lunn, vividly brings to life the spirit that was Lucy Maud Montgomery. Lunn shows us Montgomery's strict and lonely upbringing in rural Prince Edward Island, her eventual marriage to a man she did not love but who was deemed an ideal match, and her hard-won successes after many years of self-doubt and rejection. Throughout her life, Maud never stopped writing her journals and stories. L.M.

Montgomery is undoubtedly Canada's most famous author. Today, sixty years after her death her books have been translated into nearly every language, and dozens of plays, musical plays, films and made-for-television series of her works have been produced. In 1975, a Canadian Anne of Green Gables postage stamp was issued, and in Japan, where her stories are hugely popular, there are two Anne theme parks. At the end of 1999, when lists of the last century's favourite writers were being compiled, the name Lucy Maud Montgomery led all others.

Vintage Case Tractors

"This book, a polished, winding meditation on the theory and fractiousness of motorcycles, celebrates both their eccentric history and the wary pleasures of touring."—The New Yorker In a book that is "a must for anyone who has loved a motorcycle" (Oliver Sacks), Melissa Pierson captures in vivid, writerly prose the mysterious attractions of motorcycling. She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know what kind of person rides a motorcycle, you probably don't.

Mini Down Under

Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.

The poster was the popular art form in Cuba following the Cuban Revolution, when

the government sponsored some 10,000 public posters on a fascinating range of cultural, social, and political themes. *Revolucin!*, produced with unprecedented access to Cuban national archives, assembles nearly 150 of these powerful but little—seen works of popular art. From the 1960s through the 1980s, the posters rallied the Cuban people to the huge task of building a new society, promoting massive sugar harvests and national literacy campaigns; opposing the U.S. war in Vietnam; celebrating films, music, dance, and baseball with a unique graphic wit and exuberant colorful style. With an introduction illuminating the rich social and artistic history of the posters, and rare biographical information on the artists themselves, this striking volume offers a window into the story of Cuba—and a truly revolutionary chapter in graphic design.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge

how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

In 2011, at the height of tension between the British and Iranian governments, travel writer Lois Pryce found a note left on her motorcycle outside the Iranian Embassy in London: I wish that you will visit Iran so you will see for yourself about my country. WE ARE NOT TERRORISTS!!! Please come to my city, Shiraz. It is very famous as the friendliest city in Iran, it is the city of poetry and gardens and wine!!! Your Persian friend, Habib Intrigued, Lois decides to ignore the official warnings against travel (and the warnings of her friends and family) and sets off alone on a 3,000 mile ride from Tabriz to Shiraz, to try to uncover the heart of this most complex and incongruous country. Along the way, she meets carpet sellers and drug addicts, war veterans and housewives, doctors and teachers - people living ordinary lives under the rule of an extraordinarily strict Islamic government. Revolutionary Ride is the story of a people and a country. Religious and hedonistic, practical and poetic, modern and rooted in tradition - and with a wild sense of humour and appreciation of beauty despite the comparative lack of freedom - this is real contemporary Iran.

Abby Steele hadn't seen the inside of her own apartment in over three years. Life on the road kept her busy and building the business took all of her focus. Steel Journeys was a company she had founded all on her own. She wanted other women to experience what she had seen, felt, heard, smelled, and tasted. That was the dream-to form a women's motorcycle touring company, and to take it global. Three years was a long time to be away, but home was just a concept. It couldn't be defined by the four walls of any structure. Home was her saddle. Home was the wind in her face and the vibration under her seat. Home might be a Harley, a BMW, a Triumph, a Honda—Home was whatever bike fit the terrain. Home was the road. Abby was part riding instructor, part tour guide and part life coach. She cared about the women on her tours, and they respected her for it. It took a lot of miles to work through the hurts of her past, but finally she had built a life she could be proud of - until an unexpected visitor threatens to bring all the blocks tumbling down. Reclaiming the Ivory Tower examines the situation of adjunct professors in U.S. higher education today, describes the process of organizing them to improve their conditions of work, and puts forward an agenda around which adjunct labor can mobilize and transform the universities. In the last twenty years, higher education in the United States has been eroded by massive reliance on temporary academic labor—professors without tenure or prospect of tenure, without benefits, working without offices or research assistance, often commuting between several campuses, and paid a fraction of the salaries of the tenured colleagues. Contingent faculty now constitutes the majority of faculty at U.S. colleges and universities. Analyzing the changing composition of the academic workforce, assessing the

strength of new organizing initiatives among adjuncts, and weighing up their strategic options, this is the most comprehensive and engaged account to date of an issue that will become increasingly important for the future of higher education in the United States and in the global context.
