Although the answers are gathered from Church fathers and holy books, the style of writing provides clear answers to complicated questions. The past few years the Ethiopian Orthodox Tewahedo Church has seen her youth leaving in mass numbers. Why? Mainly because the youth cannot get understandable answers to their questions. The

Church uses Amharic as its primary language and Ge'ez as the liturgical, preventing young people born in America from being able to understand the worship or teaching of the Ethiopian Orthodox Tewahdo Church.. Deacon Dawit Muluneh, who has traveled around the United States teaching and preaching during the last decade, has gathered the most frequently asked questions and provided answers in a way that can be understood by the youth. Each chapter focuses on a particular question, addressing central themes of Christianity and teaching about the uniqueness of the Ethiopian Orthodox Tewahedo Church. It also addresses issues specific to young adults like spiritual dating and depression and more controversial issues like homosexuality in the context of the church.

Ephraim Isaac sketches the history of the Ethiopian Orthodox Tawahido Church and also that of Christianity as a whole in Ethiopia. As the reader will discover, not only are there strong Biblical Hebraic elements in the theology, political theory and liturgical calendar of the Ethiopian Church but there is also a strong influence from Beta Israel and Ethiopian Jews. Besides Jews and Christians, there are also very large numbers of Muslims and various native beliefs in Ethiopia.

The number of books in the Bible depends on which Bible is being referenced. Protestant and Catholic churches recognize 27 New Testament books. Protestants recognize 39 books of the Jewish canon in the Old Testament. Roman Catholics hold 46 books of the Old Testament as canon, along with expanded versions of Esther and Daniel. In addition to the 73 books of the Catholic Bible, the Orthodox Church adds three more books to their canon. By far, the largest canon of all is found in the Ethiopic Church, whose Bible totals 81 books. This Apocryphal volume contains the books of the Catholic, Orthodox, and Ethiopic Bibles, which include: 1 Esdras, 2 Esdras, 1 Maccabees, 2 Maccabees, 3 Maccabees, 4 Maccabees, Letter (Epistle) of Jeremiah, The Prayer of Azariah, Baruch, Prayer of Manasseh (Manassas), Bel and the Dragon, Wisdom of Sirach, Wisdom of Solomon, Additions to Esther, Tobit, Judith, Susanna, Psalm 151, Enoch, Jubilees, 1 Clements, Shepherd of Hermas.

### **The Ante-Nicene Fathers**

This book provides information from Church history concerning the recognition of the canonical status of the several books of the New Testament. Canonization was a long and gradual process of sifting among scores of gospels, epistles, and other books that enjoyed local and temporary authority - some of which have only recently come to light among the discoveries of Nag Hammadi. After discussing the external pressures that led to the fixing of the limits of the canon, the author gives sustained attention to Patristic evidence that bears on the development of the canon not only in the West but also among the Eastern Churches, including the

Syrian, Armenian, Georgian, Coptic, and Ethiopian. Besides considering differences as to the sequence of the books in the New Testament, Dr Metzger takes up such questions as which form of text is to be regarded as canonical; whether the canon is open or closed; to what extent a canon should be sought within the canon; and whether the canon is a collection of authoritative books or an authoritative collection of books.

### **The Bible, Its Origin and Nature**

This book explores, at a time when several powers have become serious players on the continent, aspects of African agency, past and present, by African writers on foreign policy, representative of geography, language and state size. In the past, African foreign policy has largely been considered within the context of reactions to the international or global “external factor”. This groundbreaking book, however, looks at how foreign policy has been crafted and used in response not just to external, but also, mainly, domestic imperatives or (theoretical) signifiers. As such, it narrates individual and changing foreign policy orientations over time—and as far back as independence—with mainly African-based scholars who present their own constructs of what is a useful theoretical narrative regarding foreign policy on the continent—how theory is adapted to local circumstance or substituted for continentally based ontologies. The book therefore contends that the African experience carries valuable import for expanding general

understandings of foreign policy in general. This book will be of key interest to scholars and students of Foreign Policy Analysis, Foreign Policy Studies, African International Relations/Politics/Studies, Diplomacy and more broadly to International Relations.

Security is a key topic of our time. But how do we understand it? Do law and religion take different views of it? In this fifth volume in the Law and Religion in Africa series, radicalisation, terrorism, blasphemy, hate speech, religious freedom and just war theories rub shoulders with issues of witchcraft, female genital mutilation circumcision, child marriage, displaced communities and additional issues besides. This unique collection of topics is both challenging and inspiring, providing illumination in troubled times, and forming a sound foundation for future scholarship.

African immigration to North America has been rapidly increasing. Yet, little has been written about this significant group of immigrants and the particular religious traditions that they are transplanting on our shores, as scholars continue largely to focus instead on immigrants from Europe and Asia. African Immigrant Religions in America focuses on new understandings and insights concerning the presence and relevance of African immigrant religious communities in the United States. It

explores the profound significance of religion in the lives of immigrants and the relevance of these growing communities for U.S. social life. It describes key social and historical aspects of African immigrant religion in the U.S. and builds a conceptual framework for theory and analysis. The volume broadens our understandings of the ways in which new immigration is changing the face of Christianity in the U.S. and adds needed breadth to the study of the black church, incorporating the experiences of African immigrant religious communities in America.

archaeological record of any country in the world. Indeed, this precipitous mountain land was where the human race began. It is also home to an ancient church with a remarkable legacy. The Ethiopian Church forms the southern branch of historic Christianity. It is the only pre-colonial church in sub-Saharan Africa, originating in one of the earliest Christian kingdoms-with its king Ezana (supposedly descended from the biblical Solomon) converting around 340 CE. Since then it has maintained its long Christian witness in a region dominated by Islam; today it has a membership of around forty million and is rapidly growing. Yet despite its importance, there has been no comprehensive study available in English of its theology and history. This is a large gap which this authoritative and engagingly written book seeks to fill. The Church of Ethiopia (or formally, the Ethiopian Orthodox Tewahedo Church) has a recognized place in worldwide Christianity as one of five non-Chalcedonian Orthodox Churches. As Dr Binns shows, it has developed a distinctive approach which makes it different from all other churches. His book explains why this happened and how these special features have shaped the life of the Christian people of Ethiopia. He discusses the famous rock-hewn churches; the Ark of the Covenant (claimed by the Church and housed in Aksum); the medieval monastic tradition; relations with the Coptic Church; co-existence with Islam; missionary activity; and the Church's venerable oral traditions, especially the discipline of *gene-a* kind of theological reflection couched in a unique style of improvised allegorical poetry. There is also a sustained exploration of how the Church has been forced to re-think its identity and mission

as a result of political changes and upheaval following the overthrow of Haile Selassie (who ruled as Regent, 1916-1930, and then as Emperor, 1930-74) and beyond.

### **“An” Interpretation of the English Bible**

This book is open access under a CC BY 4.0 license. This book presents insights into the lived realities of children with disabilities in primary schools in Addis Ababa, Ethiopia. It examines specific cultural and societal characteristics of Ethiopia that influence the education of children with disabilities. The book presents findings drawn from interviews with, and participant observation of the schoolchildren, family members, teachers and other “experts”, and places these findings in a cultural-historical context. The multidimensional approach taken allows for, on the one hand, the provision of a historical grounding of the book, explaining the main historical junctures and their implications for education, and the discussion of the role of culture and society as barriers and facilitators of education. On the other hand, it gives the book a more personal angle, allowing the reader to gain insight into what it means to feel like a family, develop a sense of belonging, and trying to move toward educational equity.

What does it mean to speak of a "canon" of scripture? How, when, and where did the canon of the Hebrew Bible come into existence? Why does it have three divisions? What canon was in use among the Jews of the Hellenistic diaspora? At Qumran? In Roman Palestine? Among the rabbis? What Bible did Jesus and his disciples know and use? How was the New Testament canon formed and closed? What role was played by Marcion? By gnostics? By the church fathers? What did the early church make of the apocrypha and pseudepigrapha? By what criteria have questions of canonicity been decided? Are these past decisions still meaningful faith communities today? Are they open to revision? These and other debated questions are addressed by an international roster of outstanding experts on early Judaism and early Christianity, writing from diverse affiliations and perspectives, who present the history of discussion and offer their own assessments of the current status. The Ethiopic version provides a window into the state of the Greek Bible as it circulated in East Africa at the end of the fourth century. It is, therefore, an extremely important witness to the Bible's early transmission history, yet its testimony has typically been ignored or misunderstood by text critics. This study examines the history of the book of Acts in Ethiopia and reconstructs its earliest attainable text, which then is assessed using the latest text-critical methods. It therefore provides a solid base for interpreting the data of this key witness and

lays the groundwork for future text-critical work in Ethiopic and other early versions.

GEDLA ADAM: The Combat of Adam Against Satan; The [Ethiopic] Book of Adam and Eve, is also known as The Conflict of Adam and Eve with Satan is a Christian pseudepigraphical work found in Ge'ez. It was first translated from the Ge'ez Ethiopic version into German by August Dillmann. It was first translated into English by S. C. Malan from the German of Ernest Trumpp. The first half of Malan's translation is included as the "First Book of Adam and Eve" and the "Second Book of Adam and Eve" in The Lost Books of the Bible and the Forgotten Books of Eden. The Books mentioned below were added by Malan to his English translation; the Ethiopic is divided into sections of varying length, each dealing with a different subject. Books 1 and 2 begin immediately after the expulsion from the Garden of Eden, and end with the testament and translation of Enoch. Great emphasis is placed in Book 1 on Adam's sorrow and helplessness in the world outside the garden.

This new study of the Old Testament canon by Roger Beckwith is on a scale to match H. E. Ryle's classic work, which was first published in 1892. But Beckwith has the advantage of writing after the Qumran (and other) discoveries; and he has also made full use of all the available sources, including biblical manuscripts and rabbinical and patristic literature, taking into account the seldom studied Syriac material as well as the Greek and Latin material. The result of many years of study, this book is a major work of scholarship on a subject which has been neglected in recent times. It is both historical and theological, but Beckwith's first consideration has been to make a thorough and unprejudiced historical investigation. One of his most important concerns - and one that is crucial for all students of Judaism, and Christians in particular - is to decide when the limits of the Jewish canon were settled. In the answer to this question lies an important key to the teaching of

Jesus and his apostles, and the resultant beliefs of the New Testament church. Furthermore, any answers to questions about the state of the canon in the New Testament period would help to open a way through the present ecumenical (and interfaith) impasse on the subject. With its meticulous research and evenhanded approach, this book is sure to become the starting point for study of the Old Testament canon in the years to come.
