law. A principal member of the historical school of jurisprudence, he had a keen interest in its role in the subsequent development of European law. Private International Law is a volume drawn from his System of Modern Roman Law (1840-1849), an eight-volume study of contemporary legal systems based on Roman law. As the translator observes, this volume is valuable because it "deals with a subject of great practical importance, as to which the opinions of foreign jurists have always been respected in the British courts. And not only has the eighth volume itself been cited as an authority in our tribunals, but English writers have borrowed and enforced its doctrines with more or less exactness of reproduction" (Introduction, 9). Beyond its lucid exposition of a complex subject, this book offers a wonderful introduction to Savigny's monumental study. With an appendix containing a biography of Savigny and an index of English and Scottish cases.

This volume in the Osgoode Society's distinguished series on the history of Canadian law is a collection of the principal essays of Professor Emeritus R.C.B. Risk, one of the pioneers of Canadian legal history and for many years regarded as its foremost authority on the history of Canadian legal thought. Frank Scott, Bora Laskin, W.P.M. Kennedy, John Willis and Edward Blake are among the better known figures whose thinking and writing about law are featured in this collection. But this compilation of the most important essays by a pioneer in Canadian legal history brings to light many other lesser known figures as well, whose writings covered a wide range of topics, from estoppel to the British North America Act to the purpose of legal education. Written over more than two decades, and covering the immediate post-Confederation period to the 1960s, these essays reveal a distinctive Canadian tradition of thinking about the nature and functions of law, one which Risk clearly takes pride in and urges us to celebrate.

A Treatise on the Law of Contracts

This brilliantly innovative synthesis of narrative and analysis illuminates how British colonialism shaped the formation and political cultures of what became Northern Ireland and the Irish Free State. *A Treatise on Northern Ireland, Volume I* provides a somber and compelling comparative audit of the scale of recent conflict in Northern Ireland and explains its historical origins. Contrasting colonial and sectarianized accounts of modern Irish history, Brendan O'Leary shows that a judicious meld of these perspectives provides a properly political account of direct and indirect rule, and of administrative and settler colonialism. The British state incorporated Ulster and Ireland into a deeply unequal Union after four re-conquests over two centuries had successively defeated the Ulster Gaels, the Catholic Confederates, the Jacobites, and the United Irishmen—and their respective European allies. Founded as a union of Protestants in Great Britain and Ireland, rather than of the British and the Irish nations, the colonial and sectarian Union was infamously punctured in the catastrophe of the Great Famine. The subsequent mobilization of Irish nationalists and Ulster unionists, and two republican insurrections amid the cataclysm and aftermath of World War I, brought the now partly democratized Union to an unexpected end, aside from a shrunken rump of British authority, baptized as Northern Ireland. Home rule would be granted to those who had claimed not to want it, after having been refused to those who had ardently sought it. The failure of possible federal reconstructions of the Union and the fateful partition of the island are explained, and systematically compared with other British colonial partitions. Northern Ireland was invented, in accordance with British interests, to resolve the 'hereditary animosities' between the descendants of Irish natives and British settlers in Ireland. In the long run, the invention proved unfit for purpose. Indispensable for explaining contemporary institutions and mentalities, this volume clears the path for the intelligent reader determined to understand contemporary Northern Ireland.
