Bull Run, Gettysburg, Appomattox. For Americans, these battlegrounds, all located in the eastern United States, will forever be associated with the Civil War. But few realize that the Civil War was also fought far to the west of these sites. The westernmost battle of the war took place in the remote deserts of the future state of Arizona. In this first book-length account of the Civil War in Arizona, Andrew E. Masich offers both a lively narrative history of the all-but-forgotten California Column in wartime Arizona and a rare compilation of letters written by the volunteer soldiers who served in the U.S. Army from 1861 to 1866. Enriched by Masich's meticulous annotation, these letters provide firsthand testimony of the grueling desert conditions the soldiers endured as they fought on many fronts. anywhere in the Valley of the Sun and look toward the horizon--in just about any direction the glories of nearly 100 years of preservation efforts are visible. All told, over 300 square miles of the most beautiful desert and mountain scenery are preserved or targeted for preservation in the Phoenix area. This book celebrates the beauty of these special places, and the foresight, determination, and efforts required to preserve this critical link to the great outdoors. Using more than a century's worth of historical photographs, it tells the stories of the acquisition and development of seven of the Phoenix area's most important parks and preserves.

desert setting, and is designed to display the natural beauty of the West. The top of the library has a great public reading room, reminiscent of older libraries, with the entire non-fiction collection. The design is a mix of futuristic aspects combined with a respect for historical detail. The studio of William Bruder has gained professional expertise in the field through the development of building programs, site and building feasibility analyses, creation of community interaction workshops, owner and design team case study tours, and full implementation of all architectural and interior design services for more than a dozen library projects. This volume explores the design of this building and reveals the expertise of the architects.

#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • LONGLISTED FOR THE NATIONAL BOOK AWARD • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, *The New York Times* The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a

masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

Thomas E. Sheridan has spent a lifetime in Arizona, "living off it and seeking refuge from it." He knows firsthand its canyons, forests, and deserts; he has seen its cities exploding with new growth; and, like many other people, he sometimes fears for its future. In this book, Sheridan sets forth new ideas about what a history should be. *Arizona: A History* explores the ways in which Native Americans, Hispanics, and Anglos have inhabited and exploited Arizona from the pursuit of the Naco mammoth 11,000 years ago to the financial adventurism of Charles Keating and others today. It also examines how perceptions of Arizona have changed, creating new constituencies of tourists, environmentalists, and outside business interests to challenge the dominance of ranchers, mining companies, and farmers who used to control the state. Sheridan emphasizes the crucial role of the federal government in Arizona's development

throughout the book. As Sheridan writes about the past, his eyes are on the inevitable change and compromise of the present and future. He balances the gains and losses as global forces interact more and more with local cultural and environmental factors.

The ALA Book of Library Grant Money

I was always a library guy. When I was a kid, I used to walk to the library with my friend Peggy McGraw. That was like 1969. I guess not many other guys were into libraries. I was athletic and normal. I wasn't a nerd. I was so interested in life that I loved to read about inventors, fairy tales, electricity and all kinds of stuff. It was a part of my nature. I believe it's normal to be curious, intellectual and creative. I love libraries and librarians. They're some of the best people on the planet when you stop and think about it. The entire profession is to help people. Why did I write this book? I believe in education. This book is my tribute to libraries. It's a library structure-framework book. The thing about most libraries is that they have some free information on their websites like local job resources but you still need a card to use their databases or borrow a book. Nowadays they're always busy because they got computers that people come into use.

The New York Public Library Book of how and where to Look it Up

The greatest true-crime story in music history, as only James Patterson can tell it. With the Beatles, John Lennon surpasses his youthful dreams, achieving a level of superstardom that defies classification. “We were the best bloody band there was,” he says. “There was nobody to touch us.” Nobody except the original nowhere man, Mark David Chapman. Chapman once worshipped his idols from afar—but now harbors grudges against those, like Lennon, whom he feels betrayed him. He’s convinced Lennon has misled fans with his message of hope and peace. And Chapman’s not staying away any longer. By the summer of 1980, Lennon is recording new music for the first time in years, energized and ready for it to be “(Just Like) Starting Over.” He can’t wait to show the world what he will do. Neither can Chapman, who quits his security job and boards a flight to New York, a handgun and bullets stowed in his luggage. The

greatest true-crime story in music history, as only James Patterson can tell it. Enriched by exclusive interviews with Lennon's friends and associates, including Paul McCartney, *The Last Days of John Lennon* is the thrilling true story of two men who changed history: One whose indelible songs enliven our world to this day—and the other who ended the beautiful music with five pulls of a trigger.
