Fran Rutherford's two-volume Ancient Rome (Student Book and Teacher's Guide) provides an ideal course for parents who homeschool high school students and for teachers of secondary education who wish to introduce their students to the great books of Western civilization, "the best that has been thought and said," in Matthew Arnold's famous phrase. The choice of great books is appropriate, balanced, and coherent-each book illuminating an important facet of Roman thought and culture and embodying the moral wisdom of the Greek mind. The course covers Livy's Early History of Rome and War with Hannibal, Sallust's Conspiracy of Catiline, Cicero's Attack on an Enemy of Freedom and Attack on Misgovernment, Tacitus' The Annals of Imperial Rome, Virgil's The Aeneid, Ovid's Metamorphoses, Marcus Aurelius' Meditations, Early Christian Writings, St.

Augustine's Confessions and City of God, Plautus' The Brothers Menaechmi, Terence's The Brothers-a rich banquet for the mind that integrates history, literature, and philosophy for a beginning humanities student. Comprised of brief but substantive introductions to the authors and to the works, the book then poses simple but penetrating questions about each chapter or major part of the book. It also presents probing questions for further reflection and discussion. For example, the questions at the end of a chapter test simple reading comprehension: "What virtue did Scipio pride himself in?" "What did Scipio do the day after taking New Carthage?" The Questions for Further Thought are contemplative and thought-provoking: "What was the significance of the names Trebia, Trasimene and Cannae?" and "Do modern people have the staying power to remain at war for such protracted periods as we saw in the study of Ancient Rome? Why?" The Teacher's Guide of course offers the answers to the factual questions, but it provides special insights to address the Questions for Further Thought. "Why did Turnus lament his escape from death?" To these ancient warriors, death in battle was a guarantee that their memory would be honored. They were concerned about that legacy and preferred that to an escape from death which carried no respect." The questions and answers are always lucid, straightforward and penetrating. The other features of the book that make it a valuable resource are the maps, illustrations, vocabulary, and explanation of technical terms. The map of Hannibal's route, a diagram of the Roman theater, and the Words to Know at the end of each chapter (e.g., pillory, scruples, desultory, cognomen) all broaden the mind and

provide breadth and depth to the course. In short, these two volumes provide a bone fide traditional, classical liberal arts education that introduces students to the reality of philosophical or universal truth, to the unchanging natural moral law that explains the nature of tragedy and the events of history, and to the Romans' passionate love of knowledge and desire for glory. It transmits to students the patrimony of Roman civilization-the culture that discerned the difference between living and living well, between being "civilized" and being "barbaric." For students to know these perennial truths about human nature and the human condition is the beginning of wisdom-the goal of all true education.

A madman who murders his way into power lusts for ever-greater glory and domination. A capital city awash with corruption, sensuality, and political intrigue is at the flash point. And caught between the crushing currents of history are a new but growing religious group known as the followers of The Way. Award-winning historian and best-selling author Paul L. Maier has created a compelling style of documentary fiction, using only known historical events and persons to bring to life first-century Rome in all its excess, treachery, and insanity. This is the Rome that the apostle Paul visits, where he's placed on trial, and which is forever changed by his testimony and witness. Maier takes readers into the courtroom of imperial justice and into the homes of the people struggling with the new faith they've encountered to answers questions such as: How did Christianity first reach Rome? Why did Paul have to wait two years for trial and was he condemned or set free? Why does the New Testament account in Acts end so abruptly? Who set fire to Rome and why did Nero persecute Christians so horribly? Following the the family of Flavius Sabinus, mayor of Rome under Nero Maier captures all the drama and tension of the political conflicts that precede and follow the Great Fire of Rome, and the epic political and religious clashes of the world's capital. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. In *Mortal Republic*, prize-winning historian Edward J. Watts offers a new history of the fall of the Roman Republic that explains why Rome exchanged freedom for autocracy. For centuries, even as Rome grew into the Mediterranean's premier military and political power, its governing institutions, parliamentary rules, and political customs successfully fostered negotiation and compromise. By the 130s BC,

however, Rome's leaders increasingly used these same tools to cynically pursue individual gain and obstruct their opponents. As the center decayed and dysfunction grew, arguments between politicians gave way to political violence in the streets. The stage was set for destructive civil wars -- and ultimately the imperial reign of Augustus. The death of Rome's Republic was not inevitable. In *Mortal Republic*, Watts shows it died because it was allowed to, from thousands of small wounds inflicted by Romans who assumed that it would last forever.

Times Book Prize (History) A San Francisco Chronicle Holiday Gift Guide Selection A New York Times Book Review Editors' Choice Selection A sweeping, "magisterial" history of the Roman Empire from one of our foremost classicists shows why Rome remains "relevant to people many centuries later" (Atlantic). In SPQR, an instant classic, Mary Beard narrates the history of Rome "with passion and without technical jargon" and demonstrates how "a slightly shabby Iron Age village" rose to become the "undisputed hegemon of the Mediterranean" (Wall Street Journal). Hailed by critics as animating "the grand sweep and the intimate details that bring the distant past vividly to life" (Economist) in a way that makes "your hair stand on end" (Christian Science Monitor) and spanning nearly a thousand years of history, this "highly informative, highly readable" (Dallas Morning News) work examines not just how we think of ancient Rome but challenges the comfortable historical perspectives that have existed for centuries. With its nuanced attention to class, democratic struggles, and the lives of entire groups of people omitted from the historical narrative for centuries, SPQR will to shape our view of Roman history for decades to come.

Globalization. Homelessness. Ecological and economic crisis. Conflicts over sexuality. Violence. These crisis-level issues may seem unique to our times, but Paul's Letter to the Romans has something to say to all of them. Following their successful Colossians Remixed, Sylvia Keesmaat and Brian Walsh unpack the meaning of Romans for its original context and for today. The authors demonstrate how Romans disarms the political, economic, and cultural power of the Roman Empire and how this ancient letter offers hope in today's crisis-laden world. Romans Disarmed helps readers enter the world of ancient Rome and see how Paul's most radical letter transforms the lives of the marginalized then and now. Intentionally avoiding abstract debates about Paul's theology, Keesmaat and Walsh move back and forth between the present and the past as they explore themes of home, economic justice, creation care, the violence of the state, sexuality, and Indigenous reconciliation. They show how Romans engages with the lived reality of those who suffer from injustice, both in the first century and in the midst of our own imperial realities.

"Terrific . . . exactly the sort of collection we have long needed: one offering a wide range of texts, both literary and documentary, and that--with the inclusion of Sulpicia and Perpetua--allows students to hear the voices of actual women from the ancient world. The translations themselves are fluid; the inclusion of long extracts allows students to sink their teeth into material in ways not possible with traditional source books. The anonymous texts, inscriptions, and other non-literary material topically arranged in the 'Documentary' section will enable students to see how the documentary evidence supplements or undermines the views advanced in the literary texts. This is a book that should be of great use to anyone teaching a survey of the history of Ancient Rome or a Roman Civilization course. I look forward to teaching with this book which is, I think, the best source book I have seen for the way we teach these days." --David Potter, University of Michigan

Livy (c. 59 BC-AD 17) dedicated most of his life to writing some 142 volumes of history, the first five of which comprise The Early History of Rome. With stylistic brilliance, he chronicles nearly 400 years of history, from the founding of Rome (traditionally dated to 757 BC) to the Gallic invasion in 386 BC - an era which witnessed the reign of seven kings, the establishment of the Republic, civil strife and brutal conflict. Bringing compelling characters to life, and re-presenting familiar tales - including the tragedy of Coriolanus and the story of Romulus and Remus - The Early History is a truly epic work, and a passionate warning that Rome should learn from its history.
