First French at Home

Madame Bovary is the French writer Gustave Flaubert's debut novel. The story focuses on a doctor's wife, Emma Bovary, who has adulterous affairs and lives beyond her means in order to escape the banalities and emptiness of provincial life. Though the basic plot is rather simple, even archetypal, the novel's true art lies in its details and hidden patterns. Flaubert was a notorious perfectionist and claimed always to be searching for le mot juste ("the precise word"). Madame Bovary takes place in provincial northern France, near the town of Rouen in Normandy. The story begins and ends with Charles Bovary, a stolid, kindhearted man without much ability or ambition. Gustave Flaubert (1821-1880) was an influential French writer who was perhaps the leading exponent of literary realism of his country. The celebrated short story writer Maupassant was a protégé of Flaubert."

The French Review

From debut author Emily Steele Jackson, Home, James is an entertaining and heartwarming story about finding yourself in a place you never thought you'd call home. Everyone else in thirteen-year-old James' family is thrilled to be moving back to the USA, but James doesn't see why their wonderful life in China needs to end. Even though his passport says he's American, James feels like he's arrived in

a foreign country. He's sure eighth grade in this new place will be a disaster. With mysteries like cheese knives, drama llamas, and the Pledge of Allegiance, will Missoula, Montana ever feel like home?

Bear for Breakfast

Language Strategies for Bilingual Families

Written by a survivor of childhood abuse, this moving memoir traces the influence of the author's mother tongue in the formation of her identity, and the role her second language played in providing a psychological sanctuary. Kathleen Saint-Onge reflects on the ambiguities of growing up in a primarily French household while attending English schools as she richly recounts the emotional gains and losses of a life lived in two languages. A testament to the power of language in determining feelings of belonging or alienation, *Bilingual Being* also presents a portrait of the 1960s in Quebec and the changing role of the Catholic Church. Depicting with warmth and humour her own developing independence gained at school, Saint-Onge reveals the tensions between the social world of her evolving English and her deep roots in French-speaking Quebec City. It is an exploration of hope where language provides an escape from traumatic memories and a chance to reconstruct a secure sense of self. *Bilingual Being* is a superbly crafted autobiography that seamlessly moves from the remembrance of abuse to observations of living bilingualism and the gradual unfolding of recovery in adulthood. It is a compelling, beautiful, and brave narrative that tells a wider story about human resilience and the impact of language in creating new possibilities for life.

Lots of new parents these days have the opportunity to bring up their child with two or more languages because of increasing job mobility and the global community. The benefits of bilingualism and biculturalism such as higher cognitive skills, an awareness of language and sensitivity to other cultures, are being increasingly recognised. However many parents don't know how to start, what methods to use or where to seek help when facing problems. Now Suzanne Barron-Hauwaert, a mother of three trilingual children, teacher and linguist who has lived and worked all over the world, has written a book which provides an inspiring approach to passing on two or more languages to your children. In *Language Strategies for Bilingual Families* she considers several methods of bilingualism and focuses on the one-person one-language approach, in which each parent speaks his or her native language and is responsible for passing on his or her culture. Suzanne questioned over a hundred bilingual families about their experiences and she interviewed thirty families in depth. The results of her study are linked to current academic research, but the book is both readable and relevant to non-academics and provides fascinating insights into being a multilingual family. It will prove an exciting and stimulating read for potential and current mixed-language families.

One of the most distinctive features of the "American persona" is "a preoccupation and underlying concern in the United States with what is or is not `American.'" How far can an ethnic group in the United States go to maintain its identity before it trespasses into what is perceived as un-American terrain? This is the underlying theme of Lambert and Taylor's community based investigation which studies the attitudes of Americans toward ethnic diversity and intergroup relations. This study deals with the peculiar U.S. dichotomy of cultural diversity and assimilation.

The New Era in Home and School

The Animal Boogie

A hardworking duck is rescued from life with a lazy old farmer in this classic tale of justice. Farmer Duck isn't your average duck. This duck cooks and cleans, tends the fields, and cares for the other animals on the farm—all because the owner of the farm is too lazy to do these things himself. But when Farmer Duck finally collapses from exhaustion, the farmyard animals come to the rescue with a simple but heroic plan.

Taking three different perspectives, this book looks at primary school children's language learning motivation and language attitudes. In adopting a longitudinal perspective, the book fills a research gap and provides a macro-level analysis of motivational development over time. It reveals a surprising amount of stability in primary school children's motivational and attitudinal development. The comparative perspective looks at the learners' affective dispositions with regard to English (theorized as a 'global language') and French (theorized as a 'national language'). The comparisons between global language and national language are relevant across the world, especially in situations where instruction in languages other than English struggles to get attention. The results reveal sizeable differences between the two languages, with children being substantially more motivated to learn English than to learn French. Finally, the explanatory section identifies key antecedents of the learners' motivational and attitudinal dispositions - and thereby opens up paths for intervention relevant for those working in the field of language instruction.
