Over the last 40 years the Coombes School in Berkshire, UK, has developed an international reputation for its innovative approach to Nursery and Infant teaching. In this book Sue Humphries, the founder of the school, and Sue Rowe, the former headteacher, explore the principles behind the school and how others can learn from its approach. In particular, the book focuses on the innovative use of the school's environment as a unique 'outdoor classroom' and the development of a sustainable and safe environment in which pupils can play and learn. The Coombes Approach covers a comprehensive range of topics from curriculum design, pastoral care and the wider policy and community contexts in which the school has operated. Supported by an online resource bank of pictures of the school environment and pupils' activities, this is an essential read for school leaders seeking to learn from the successes of the Coombes School's unique approach to teaching.

A survival guide for writers in the real-world, *Writing and Designing Manuals*, Third Edition has become a standard reference for technical writers and editors. Readable and practical, it addresses all aspects of manual development from choosing a format to writing effective warnings. Not limited to text elements, the manual also provides guidance for designing illustrations to complement the text and underscore the safety warnings. The completely revised and updated Third Edition includes: P Current materials on desktop publishing P Alternative media such as videos, CD-ROMs, and on-line help P The impact of new technology such as CD-ROMs and digital cameras on manual design and production P New regulations for products sold overseas P Impact of the Internet on manual design Gone are the days when a manual might be a few pages of typewritten text. Thanks to the advances in computer technology, even tiny companies can produce slick, professional publications. *Writing and Designing Manuals*, Third Edition guides you through the messy, complex, frustrating, and fascinating business of producing manuals.
