Picking up where "HK LAB" left off, "HK LAB 2" brings together artist projects and a number of theoretical and critical viewpoints on Hong Kong interior spaces. Conceived as a polycentric book, where a number of themes come together--private-public use, use-exchange, space-time, local-global, prescribed-interim use and control-deviation--the highly visual "HK LAB 2" deals with the

changing nature of urban experience and inhabitation. Expressed in extreme and spectacular ways, or in a gradual and less visible fashion, the acts of building, decorating, furnishing, using, transforming and repressing interiors shown here convey meanings about the reciprocal relationships between people and their spaces.
