e-Study Guide for: Derivatives and Alternative Investments:

Books description ● Summarize most vital concepts from each reading ● Key formulas and facts ● 25th Hour Notes can be used on a 'stand-alone' basis if you are time-constrained. The 25th HOUR NOTES is based on Pareto's 80-20 rule according to which 80% of the exam questions are likely to be based on 20% of the curriculum. Hence this course focuses on the 20% material which is most testable. We call this the "25th Hour Notes" because your investment (time and money) is low but the potential return (passing the

exam) is high! Many candidates complain that they forget material covered earlier. The 25th HOUR NOTES addresses this problem by helping you to quickly revise key concepts.

CFA Level 1 Calculation Workbook

Comprehensively rewritten from the ground up The CFA Insights book you see today is an evolution of an Analysis Report we have been publishing since the start of 300 Hours. Originally meant as a short report showing the analytical results from the thousands of entries through our CFA Results Analyzer, we realised that there was so much more that readers needed and could benefit from. We didn't just want to show our readers the results, but pass on all our knowledge to them. So two years ago, we started a rewrite process not just to convey the results of five years' worth of data analysis, but also to include every bit of important advice we have learnt as a team through our experience in the CFA program. We've learnt from previous versions, incorporated reader feedback, and applied the best of what we can offer into this new book. One guide for the entire CFA program Most CFA material is designed for one specific CFA level. Not us - we like to take care of you from the start, and way after you've obtained your charter. CFA Insights is not only written for all three CFA levels, but also contains a ton of additional useful content beyond just the CFA exams. The CFA Insights guide starts becoming useful right from the point you start thinking about the CFA program, and covers advice on how to make the most of your CFA charter after you've obtained it, and your post-CFA career. Years of analytical data. Decades of personal CFA exam experience. CFA Insights includes

analytical results from literally tens of thousands of actual CFA results, submitted by our readers over the years. Through these data points, we've been able to estimate past Minimum Passing Scores (MPS), show when and how candidates prepare for their CFA exams, analyzing performance by topic area, including what makes the difference between passing and failing candidates. In addition, the guide contains the best tips from our own experience across the 300 Hours team - a unique team where all of us have completed the CFA program. From just considering whether the CFA program is for you, to receiving your CFA charter and making the most of it, we have combined our collective experience into one guide you can use throughout your CFA journey. Exclusive content, combined with the best of 300Hours.com The guide has a ton of exclusive content, including our CFA Results Analyzer analytical results (such as MPS estimates and topic area analysis), deep-dive guides for each CFA level, and study schedule recommendations for every type of candidate profile. CFA Insights also blends in from some the best content from 300Hours.com, including our ever-popular online Guides, rewritten and reedited clearly for the guide. The result is an all-in-one guide that combines the best of everything we've done, condensed into one easy-to-read book.
