Nutrition & Diet Therapy

Dawn on Sunday 22 June 1941 saw the opening onslaughts of Operation Barbarossa as German forces stormed forward into the Soviet Union. Few of them were to survive the five long years of bitter struggle. A posting to the Eastern Front during the

Second World War was rightly regarded with dread by the German soldiers. They were faced by the unremitting hostility of the climate, the people and even, at times, their own leadership. They saw epic battles such as Stalingrad and Kursk, and yet it was a daily war of attrition which ultimately proved fatal for Hitler's ambition and the German military machine. In this classic account leading military historian James Lucas examines different aspects of the fighting, from war in the trenches to a bicycle-mounted antitank unit fighting against the oncoming Russian hordes. Told through the experiences of the German soldiers who endured these nightmarish years of warfare, *War on the Eastern Front* is a unique record of this cataclysmic campaign.

Bollywood film is the national cinema of India, describing movies made in Mumbai, distributed nationally across India and with their own production, distribution and exhibition networks worldwide. This informative screen guide reflects the work of key directors, major stars and important music directors and screenplay writers. Historically important films have been included along with certain cult movies and top box office successes. No guide to Hindi film would be complete without discussing: Mother India, the national epic of a peasant woman's struggle against nature and society to bring up her family; Sholay, a 'curry western' where the all-star cast sing and dance, romance and kill; Dilwale Dulhaniya le jayenge, the greatest of the diaspora films, in which two British Asians fall in love on a holiday in Europe before going to India where they show their elders how to incorporate love into family traditions; Junglee, showing how love transforms a 'savage' (junglee) who yells 'Yahoo!' before singing and dancing like Elvis, creating a new youth culture; Pyaasa, dramatically shot in black and white film with haunting songs as the romantic poet suffers for his art in the material world; Fans of Bollywood film can debate Rachel Dwyer's personal selection of these 101 titles while those new to the area will find this an invaluable introduction to the best of the genre.

Hit Them Where it Hurts

The inspiration for a major motion picture by Mark Wahlberg: A Navy SEAL's firsthand account of American heroism during a secret military operation in Afghanistan. On a clear night in late June 2005, four U.S. Navy SEALs left their base in northern Afghanistan for the mountainous Pakistani border. Their mission was to capture or kill a notorious al Qaeda leader known to be ensconced in a Taliban stronghold surrounded by a small but heavily armed force. Less than twenty-four hours later, only one of those Navy SEALs remained alive. This is the story of fire team leader Marcus Luttrell, the sole survivor of Operation Redwing, and the desperate battle in the mountains that led, ultimately, to the largest loss of life in Navy SEAL history. But it is also, more than anything, the story of his teammates, who fought ferociously beside him until he was the last one left--blasted unconscious by a rocket grenade, blown over a cliff, but still armed and still breathing. Over the next four days, badly injured and presumed dead, Luttrell fought off six al Qaeda assassins who were sent to finish him, then crawled for seven miles through the mountains before he was taken in by a Pashtun tribe, who risked everything to protect him from the encircling Taliban killers. A six-foot-five-inch Texan, Leading Petty Officer Luttrell takes us, blow by blow, through the brutal training of America's warrior elite and the relentless rites of passage required by the Navy SEALs. He transports us to a monstrous battle fought in the desolate peaks of Afghanistan, where the beleaguered American team plummeted headlong a thousand feet down a mountain as they fought back through flying shale and rocks. In this rich, moving chronicle of courage, honor, and patriotism, Marcus Luttrell delivers one of the most powerful narratives ever written about modern warfare -- and a tribute to his teammates, who made the ultimate sacrifice for their country.

In the Shadow of Islam

“This fine version, with David Cronenberg’s inspired introduction and the new translator’s beguiling afterword, is, I suspect, the most disturbing though the most comforting of all so far; others will follow, but don’t hesitate: this is the transforming text for you.”—Richard Howard Franz Kafka’s 1915 novella of unexplained horror and nightmarish transformation became a worldwide classic and remains a century later one of the most widely read works of fiction in the world. It is the story of traveling salesman Gregor Samsa, who wakes one morning to find himself transformed into a monstrous insect. This hugely influential work inspired George Orwell, Albert Camus, Jorge Louis Borges, and Ray Bradbury, while continuing to unsettle millions of readers. In her new translation of Kafka’s masterpiece, Susan Bernofsky strives to capture both the humor and the humanity in this macabre tale, underscoring the ways in which Gregor Samsa’s grotesque metamorphosis is just the physical manifestation of his longstanding spiritual impoverishment.

This instant New York Times bestseller—"a jaw-dropping, fast-paced account" (New York Post) recounts SEAL Team Operator Robert O'Neill's incredible four-hundred-mission career, including the attempts to rescue "Lone Survivor" Marcus Luttrell and abducted-by-Somali-pirates Captain Richard Phillips, and which culminated in the death of the world's most wanted terrorist—Osama bin Laden. In *The Operator*, Robert O'Neill describes his idyllic childhood in Butte, Montana; his impulsive decision to join the SEALs; the arduous evaluation and training process; and the even tougher gauntlet he had to run to join the SEALs' most elite unit. After officially becoming a SEAL, O'Neill would spend more than a decade in the most intense counterterror effort in US history. For extended periods, not a night passed without him and his small team recording multiple enemy kills—and though he was lucky enough to survive, several of the SEALs he'd trained with and fought beside never made it home. "Impossible to put down...*The Operator* is unique, surprising, a kind of counternarrative, and certainly the other half of the story of one of the world's most famous military operations...In the larger sense, this book is about...how to be human while in the very same moment dealing with death, destruction, combat" (Doug Stanton, New York Times bestselling author). O'Neill describes the nonstop action of his deployments in Iraq and Afghanistan, evokes the black humor of years-long combat, brings to vivid life the lethal efficiency of the military's most selective units, and reveals details of the most celebrated terrorist takedown in history. This is "a riveting, unvarnished, and wholly unforgettable portrait of America's most storied commandos at war" (Joby Warrick).

An extraordinary evocation of the desert and its people by a woman who dressed as a man in order to travel alone and unimpeded throughout North Africa In 1897 Isabelle Eberhardt, at the age of 20, left an already unconventional life in Geneva for the Moroccan frontier. Grippled by spiritual restlessness and the desire to break free from the confinements of her society she traveled into the desert, and into the heart of Islam. Her experiences inspired a profound self-examination, and a book that today is regarded as one of the true classics of travel writing. In the current political climate, it is also a book uncannily current in its treatment of the culture of Islam in North Africa. One of the most astonishing travel documents of all time, this book is also a feminist classic in its own right.

America's first year in World War II, chronicled in this "page-turner" by the Pulitzer Prize-nominated author of Forrest Gump and The Generals (Publishers Weekly). On December 7, 1941, an unexpected attack on American territory pulled an unprepared country into a terrifying new brand of warfare. To the generation of Americans who lived through it, the Second World War was the defining event of the twentieth century, and the defining moments of that war were played out in the year 1942. This account covers the Allies' relentless defeats as the Axis overran most of Europe, North Africa, and the Far East. But by midyear the tide began to turn. The United States finally went on the offensive in the Pacific. In the West, the British defeated Rommel's panzer divisions at El Alamein while the US Army began to push the Germans out of North Africa. By the year's end, the smell of victory was in the air. 1942, told with Winston Groom's accomplished storyteller's eye, allows us into the admirals' strategy rooms, onto the battlefronts, and into the heart of a nation at war. "When not drawing in readers with the narrative, Groom is impressing them with his masterful analyses." —The Atlanta Journal-Constitution "Groom has done an artful job of blending the many stories of 1942." —The Anniston Star
