Bringing together nine biographies from Plutarch's Parallel Lives series, this edition examines the lives of major figures in Roman history, from Lucullus (118-57 BC), an aristocratic politician and conqueror of Eastern kingdoms, to Otho (32-69 AD), a reckless young noble who consorted with the tyrannical, debauched emperor Nero before briefly becoming a dignified and gracious emperor himself. Ian Scott-Kilvert's and Christopher Pelling's translations are accompanied by a new introduction, and also includes a separate introduction for each biography, comparative essays of the major figures, suggested further reading, notes and maps.

Civilizations come and go and they don't always go quietly. In our global civilization, the consequence of it all crashing is going to be far-reaching, and with nowhere to hide. With so many moving parts and a lack of long-term stewardship by our leaders, odds are good that you will want to make at least a few preparations but the question you often ask is: how? That's where I come in. In *Beyond Collapse*, we not only get you prepared for such an event, but we also help you and your fellow survivors come together, defend one another, preserve what may be lost and rebuild civilization together. Unlike most books of this type, we don't require a paramilitary mindset, tinfoil headgear, bunkers, or living "off-grid." Everything in here is geared towards gaining skills and resources that are just as useful and socially acceptable in peaceful times as they will be when society and civilization crashes. You will find this book useful for beginners, or those who have been preparing for a long time. The best part is, you will find it useful even if civilization holds up just fine.

The Blasphemer

Messiah Games

These ten short stories explore loss and sacrifice in American suburbia. In idyllic suburbs across the country, from Philadelphia to San Francisco, narrators struggle to find meaning or value in their lives because of (or in spite of) something that has happened in their pasts. In "Hole," a young man reconstructs the memory of his childhood friend's deadly fall. In "The Theory of Light and Matter," a woman second-guesses her choice between a soul mate and a comfortable one. Memories erode as Porter's characters struggle to determine what has happened to their loved ones and whether they are responsible. Children and teenagers carry heavy burdens in these stories: in "River Dog" the narrator cannot fully remember a drunken party where he suspects his older brother assaulted a classmate; in "Azul" a childless couple, craving the affection of an exchange student, fails to set the

boundaries that would keep him safe; and in "Departure" a suburban teenage boy fascinated with the Amish makes a futile attempt to date a girl he can never be close to. Memory often replaces absence in these stories as characters reconstruct the events of their pasts in an attempt to understand what they have chosen to keep. These struggles lead to an array of secretive and escapist behavior as the characters, united by middle-class social pressures, try to maintain a sense of order in their lives. Drawing on the tradition of John Cheever, these stories recall and revisit the landscape of American suburbia through the lens of a new generation.

The Adventures of Sweet Tooth the Sugar Troll

"When war comes, you look for certain special qualities in the people you'll be working with. General Tom Franks embodies those qualities: strength, experience, a keen mind, energy, honor, good humor, and a deep loyalty to his troops and to

his country. "Tom Franks is truly a soldier's soldier." -- Secretary of Defense Donald Rumsfeld The Commander in Chief of the United States Central Command from July 2000 through July 2003, General Tommy Franks made history by leading American and Coalition forces to victory in Afghanistan and Iraq -- the decisive battles that launched the war on terrorism. In this riveting memoir, General Franks retraces his journey from a small-town boyhood in Oklahoma and Midland, Texas, through a lifetime of military service -- including his heroic tour as an Artillery officer in Vietnam, where he was wounded three times. A reform-minded Cold War commander and a shrewd tactician during Operation Desert Storm, Franks took command of CENTCOM at the dawn of what he calls a "crease in history" -- becoming the senior American military officer in the most dangerous region on earth. Now, drawing on his own recollections and military records declassified for this book, Franks offers the first true insider's account of the war on terrorism that has changed the world since September 11, 2001. He puts you in the Operations Center for the launch of Operation Enduring Freedom just weeks after 9/11, capturing its uncertain early days and the historic victory that followed. He traces his relationship with the demanding Donald Rumsfeld, as early tensions over the pace of the campaign gave way to a strong and friendly collaboration. When President Bush focused world attention on the threat of Iraq, Franks seized the moment to implement a bold new vision of joint warfare in planning Operation Iraqi Freedom. Rejecting Desert Storm-style massive troop deployment in favor of flexibility and speed, Franks was questioned by the defense establishment --

including Secretary of State Colin Powell. Yet his vision was proven on the ground: Within three weeks, Baghdad had fallen. *American Soldier* is filled with revelation. Franks describes the covert diplomacy that helped him secure international cooperation for the war, and reveals the role of foreign leaders -- and a critical double agent code-named "April Fool" -- in the most successful military deception since D-Day in 1944. He speaks frankly of intelligence shortcomings that endangered our troops, and of the credible WMD threats -- including eleventh-hour warnings from Arab leaders -- that influenced every planning decision. He offers an unvarnished portrait of the "disruptive and divisive" Washington bureaucracy, and a candid assessment of the war's aftermath. Yet in the end, as *American Soldier* demonstrates, the battles in Afghanistan and Iraq remain heroic victories -- wars of liberation won by troops whose valor was "unequaled," Franks writes, "by anything in the annals of war." Few individuals have the chance to contribute so much of themselves to the American story as General Tommy Franks. In *American Soldier*, he captures it all.

Sweet Tooth can usually be seen with a glass jar of candies clutched between his hands as he goes about whatever business he has with other Trolls in the forested, swampy lowland along the Leaf River just before it passes Petal, Mississippi. He's a Sugar Troll, the first of several dozen Troll Tribes to settle here to escape the Civil

War's destruction. The Sugar Trolls lived along the Appomattox River in Virginia for decades. They quickly learned that the land they settled in Mississippi shares an important characteristic with the land they left in Virginia - mosquitoes. Three seasons a year the air is thick with mosquitoes. Trolls barter, they have no money. Trolls who know how to make flyswatters swap them for vegetables or fruit, or sewing patches on shirts. As Sweet Tooth's Great Grandfather, Tooth Ache, told him one day shortly after moving to Mississippi: "Our muscles know how to make flyswatters. Our minds know how many flyswatters we must make if we want to make more flyswatters. Our stomachs tell us how many flyswatters we must make and sell if we want to eat. If we can make them in Virginia, we can make them in Mississippi."

Americans and the California Dream, 1850-1915

It is an age of hurry and worry. Fortunes are quickly made and freely spent. Nearly all busy, hard-worked Americans have an intuitive sense of the need that exists for at least one period of rest and relaxation during each year, and all—or nearly all—are willing to pay liberally, too liberally in fact, for anything that conduces to rest, recreation and sport. I am sorry to say that we mostly get swindled. To the man of millions it makes little difference. I do not write for him, and can do him little good. But there are hundreds of thousands of practical, useful men, many of them far from being rich; mechanics, artists, writers, merchants, clerks, business men—workers, so to speak—who sorely need and well deserve a season of rest and relaxation at least once a year. To these, and for these, I write. (George Washington Sears, Chapter I)
