The cats of America are under siege! Long gone are the good old days when a cat's biggest worries were mean dogs or a bath. Modern cats must confront satanists, online predators, the possibility of needing to survive in a post-apocalyptic wasteland, and countless other threats to their nine lives. For over four decades, the American Association of Patriots have stood at the vanguard of our country's defense by helping to prepare our nation's cat owners for the difficult conversations they dread having with their pets. Written in a simple Q&A format, *How to Talk to Your Cat About Gun Safety* answers crucial questions such as, "What is the right age to talk to my cat about the proper use of firearms?" and "What are the benefits of my cat living a lifestyle of abstinence?" and especially "Why does my cat need to use the internet? Can't he just play with yarn like cats used to do?" Our country—and our cats—stand at a precipice. It will take courage, and it will take hard work, but armed with the knowledge within these pages, we can make our cats—and America—great again!

### **Crafting with Cat Hair**

There may be 100 million pet cats in this country, but who says that means they're domesticated? Sure, they clean themselves, use a litter box, and hunt rodents, but cats are also territorial beasts who think furniture is meant for claw sharpening, and that running water is always better than still. In this inventive, surprisingly funny, and highly entertaining and practical book, Mac Delaney addresses the quirks of cat behavior through the mindset of an aerospace engineer (because that's what he is!)—and gives us 10 projects that solve the most common sources of friction affecting cats and their doting owners. Take that preference for running water. Because cats don't trust still water (in the wild, a stagnant pool can harbor disease), they're often dehydrated and cranky. Here's how to build not one but two different fountains that will provide fresh, moving water. Or another problem: Cats, diminutive in stature, can feel inferior around humans, causing them to act out in negative ways. The solution: Erect a cat shelf on your wall, giving your pet a prime perch and a height advantage. And that furniture scratching problem? Construct the Cat Cave—it has angled surfaces for optimal scratching, a curved top for ergonomic lounging, a carpeted interior for perfect napping, and an escape route out back for emergency exits. For any cat lover with a modicum of DIY skills, here's a whole new approach to living happily ever after with your pet(s).

Never Was. Even if you're unfamiliar with the term "steampunk," chances are you've already discovered it through the works of Jules Verne, H.G. Wells, Tim Burton, Mary Shelley, or Lemony Snicket. Steampunk is an artistic movement that includes stories involving steam-powered versions of modern technology in a fictionalized Victorian setting. Staying true to steampunk style, Skeate and Tedman's inventive Steampunk Softies feature prominent science fiction and fantasy elements, as well as anachronistic inventions and props. In addition, many have dual roles that add practicality to their punk existence--the Lady makes an excellent paperweight, while the Illusionist's cloak doubles as a screen cleaner. Despite their meticulous detailing, Steampunk Softies are simple enough for even a sewing novice to construct. A short biography accompanies each softie, providing a background story for each character. Also included are a complete list of supplies, illustrated step-by-step blueprints, and a handy, back-of-the-book reference section that provides tips on aging and distressing project materials. Venture full steam ahead into your next crafting project with Steampunk Softies.

A humorous collection of dozens of photos of funny and adorable cats as they play with, roll in, and chow down their favorite snack of choice -- catnip. Cats love catnip. Whether it's eating it, playing with it, or rolling around in it, catnip turns our domestic feline friends into hilarious balls of activity. Carefree and unconstrained, they are free to be silly, exceptionally playful, and downright gnarly. Professional pet photographer and self-confessed crazy cat man Andrew Marttila (the photographer behind Shop Cats of New York) captures a range of the cats' silly and expressive personalities as they react to their catnip trip. Delightful, elegant Fluffy transforms into a hell-bent renegade. Shy, reserved Mittens becomes a free-loving acrobat. In the blink of an eye, a cat's expression transforms from bored to inquisitive to playful to curious to bizarre . . . to utterly unhinged. A fun and delightful look at our furry companions, this gift book is perfect for every cat lover.

Anyone can make cute and cuddly creatures from a handful of fluff and a barbed needle! There are only a few books written on the subject and most of those focus on 'flat' needle felting on a surface. This book is about sculptural needle felting—creating 3-D animals and figures using the felting needle to sculpt wool. The book shows the techniques and describes how the felting needle works with wool fiber to create felt, while explaining the differences between this art form and other forms of felting. The reader learns how to hold the needle, what sort of materials to use, and why. There are about 20 complete projects including various birds, bugs, four-legged animals, and people—each one unique and irresistible! Laurie also shows the reader ways to display their felted creations as mobiles, ornaments, or arranged in shadow boxes.

Paul Kunkel's foolproof, tried-and-true 21 day program teaches any litter-trained cat to use a toilet instead of a litter box. It doesn't require anything fancy—a toilet, a stack of magazines or newspapers, masking tape, plastic wrap, a supply of cat litter, and a litter box—and it's the perfect program for anyone who wants a happier, healthier cat. The program begins with you placing the litter box next to the toilet, and ends with your beloved cat using the toilet—just like any other member of the family. For life. Along the way, owners learn why toilet-training is beneficial to cats. In well-researched, totally updated, fact-filled text, Kunkel traces the history of this mysterious animal, and explains why many cats equate the smell of a litter box with danger; why the fragrances, deodorants, dyes, and disinfectants found in most litters are detrimental to your cat's well-being; and why the decision to transition to the toilet is one that will benefit both you and your cat. No more litter box, no more litter, no more cleaning—and no more smell!
