## A Practical Guide to Emotional Intelligence

Your Feelings determine who you are and how you live your life. Like most people, you probably spend a lot of time and money trying to create or avoid certain feelings. In order to liberate the true power of your feelings, you need to understand their real purpose. They are the keys to your emotional potential and intelligence. Learn why feelings like anger, sadness, fear and shame are really the key to your clarity, love, creativity, humility and natural authority - and how you can unlock it!

## Book of Peoples of the World

This book provides a comprehensive review of both the theoretical development and empirical study of the concept of cultural intelligence. A review of previous work on cross-cultural competence provides an historical backdrop against which the two main theories of cultural intelligence are presented. These two approaches, as well as the assessments derived from them, are compared and evaluated. Issues associated with the measurement of cultural intelligence are examined in detail. An important feature of the review of the empirical work on cultural intelligence is that results are discussed in terms of the relationship of the

four sub dimensions of the Cultural Intelligence Scale (CQS) and also that results using the Short Form Cultural Intelligence Scale (SFCQ) and other measures of the concept are included. The review of empirical work includes studies that cast cultural intelligence as an antecedent, as a dependent variable, and as a moderator and a mediator. Cultural intelligence at the group and organizational levels are also discussed. Finally, this review sets the stage for a discussion of appropriate future directions in the study of cultural intelligence. Scholars in organizational psychology interested in the concept of cultural intelligence will find this an essential guide.

ONE OF THE YEAR'S BEST BOOKS The Wall Street Journal • Slate • Kansas City Star • Flavorwire • Policy Mic • BuzzFeed “Necessary Errors is a very good novel, an enviably good one, and to read it is to relive all the anxieties and illusions and grand projects of one’s own youth.”—James Wood, The New Yorker An exquisite debut novel that brilliantly captures the lives and romances of young expatriates in newly democratic Prague It’s October 1990. Jacob Putnam is young and full of ideas. He’s arrived a year too late to witness Czechoslovakia’s revolution, but he still hopes to find its spirit, somehow. He discovers a country at a crossroads between communism and capitalism, and a picturesque city overflowing with a vibrant, searching sense of possibility. As the men and women Jacob meets begin to fall in love with one another, no one turns out to be quite the same as the idea Jacob has of them—including Jacob himself. Necessary Errors is the long-awaited first novel from literary critic and journalist Caleb Crain. Shimmering and expansive, Crain’s prose richly captures the turbulent feelings and discoveries of youth as it stretches toward adulthood—the chance encounters that grow into lasting, unforgettable experiences and the surprises of our first ventures into a foreign world—and the treasure of living in Prague during an era of historic change. ### **Cultural Intelligence**

Twenty-first-century society is diverse, and Christians must be able to understand other cultures and communicate effectively between and among them. Following up on the bestselling Hurt: Inside the World of Today's Teenagers, this new addition to the Youth, Family, and Culture series explores the much-needed skill of Cultural Intelligence (CQ), the ability to work effectively across national, ethnic, and even organizational cultures. While rooted in sound, scholarly research, Cultural Intelligence is highly practical and accessible to general readers. It will benefit students as well as guide ministry leaders interested in increasing their cultural awareness and sensitivity. Packed with assessment tools, simulations, case studies, and exercises, Cultural Intelligence will help transform individuals and

organizations into effective intercultural communicators of the gospel. EXCERPT What do you do when you encounter someone who isn't like you? How do you feel? What goes on inside you? How do you relate to him or her? These are the kinds of questions we want to explore in this book. Few things are more basic to life than expressing love and respect for people who look, think, believe, act, and see differently than we do. We want to adapt to the barrage of cultures around us while still remaining true to ourselves. We want to let the world change us so that we can be part of changing the world. And we want to move from the desire to love across the chasm of cultural difference to the ability to express our love for people of difference. Relating lovingly to our fellow human beings is central to what it means to be human. And when it comes down to it, Christian ministry at its core is interacting with all kinds of people in ways that give them glimpses of Jesus in us. The billions of us sharing planet Earth together have so much in common. We're all born. We all die. We're all created in the image of God. We eat, sleep, persevere, and care for our young. We long for meaning and purpose, and we develop societies with those around us. But the way we go about the many things we have in common is deeply rooted in our unique personalities and cultures. So although we have so much in common, we have as much or more about us that's different.

### **Cultural Agility**

Revd Osoba Otaigbe has written a comprehensive guide for helping the church more effectively relate and serve across cultural borders. Whether you're welcoming a community of refugees, travelling on a short-term mission experience, befriending an expat family, or simply interacting with an increasingly diverse society, this guide will help you love your neighbour. The book is packed full of insights about cultural intelligence and brings them to life for Christians. The case studies and discussion questions are particularly useful for making the theoretical ideas immensely practical. As both a cultural intelligence researcher and a Christian, it gives me great joy to commend Revd Osoba and his work to you. David Livermore, PhD., author of *Leading with Cultural Intelligence* and President of Cultural Intelligence Centre USA *Building Cultural Intelligence in Church and Ministry* is a timely contribution to our understanding of the way varied global and local cultures can be nurtured to offer a rich and meaningful engagement in our lives and in work. It draws on a wide range of scriptural and practical examples that makes it an easy to read and understand study guide for various audiences. The guidance on how to develop cross-cultural competence, in particular, makes the book a must-read, one that promises to equip the reader with the much required understanding, appropriate responses, and management of diverse cross-cultural engagements in both missions and ministries. Dr Maureen Ayikoru, Senior Lecturer, Anglia Ruskin University, United Kingdom In our rapidly changing society it is really important that we all develop greater cultural intelligence. If we are to become the vibrant Kingdom community of all nations that the Bible envisages we need much greater understanding and appreciation of those who are different from ourselves. This book, and the assessment and workshops that go alongside it, will be particularly helpful for leaders, churches and groups who want to grow in this area. Relating the concepts of cultural intelligence to passages of Scripture, it will certainly encourage some great discussion, learning and reflection for discipleship and mission. Revd Lynn Green, General Secretary, Baptist Union of Great Britain *Building Cultural Intelligence in Church and Ministry* is a worthwhile work with

important things to say and to give perceptive and practical guidance Prof David Dunn-Wilson, Honorary Research Fellow, Cliff College, United Kingdom Building Cultural Intelligence in Church and Ministry book has done a marvelous job of integrating scriptural basis and reference points in the exploration of the cultural intelligence factors as they relate to ministry and mission. This being interspersed with practical and real world scenarios and examples is very helpful. The reflection/study guide questions are also well written and will provide for deeper learning, discussion and application. There is a considerable amount of information and detail to work through and I would suggest that people work through the book at a steady pace so that they can fully digest that immense learning and insights that this book will give. Adrian Kistan, Principal Consultant, Intercultural Solutions, Australia More than ever, cultural intelligence is a much-needed competence to grow, develop and nurture. Current fears and conflicts on the global and in local contexts, and not the least in churches, underscore this. Through this timely volume, Osoba O. Otaigbe brings his expertise as a cultural intelligence researcher, and years of experience working in cross-cultural and diverse contexts to offer an invaluable resource for churches. Building Cultural Intelligence in Church and Ministry draws on a variety of scholarly sources, biblical texts, and practical examples to provide readers with helpful insights and questions for reflection on developing cultural awareness, intelligence and competence. A welcome resource for ministerial/missional formation and both denominational and local church leadership! Michael N. Jagessar (Revd Dr) Global and Intercultural Ministries, United Reformed Church (UK)

### **The Heart of a Leader**

Right now, vast amounts of time and money are being invested all round the world in building global brands and organisations. But where are the global leaders who will lead them? Leaders who can cross cultural boundaries: between east and west, and north and south; between faiths and beliefs; between public, private and voluntary sectors; and between the generations? Where are the leaders who can lead in what Julia calls the "magnet cities†? of the world: where the world's most talented young people will convene? Because these people will simply turn their backs on bosses who demand that their teams think and behave alike. The race is on to develop leaders with CQ. And this book is designed to give readers a decisive head start. In the process, Julia has spoken to leaders all round the world, and invited them to tell their own CQ stories: successful and disastrous, serious and funny, poignant, pragmatic and often highly personal. The result is surprising, challenging and frequently uncomfortable (there is no simplistic advice here about how to exchange business cards in the correct local manner). But the ambition is huge. As is the prize for the next generation of leaders who see the opportunity she outlines - and grasp it.

### **Understanding Us & Them**

### **Cultural Intelligence in the World of Work**

The United States is currently undergoing the most rapid demographic shift in its

history. By 2050, white Americans will no longer comprise a majority of the population. Instead, they'll be the largest minority group in a country made up entirely of minorities, followed by Hispanic Americans, African Americans, and Asian Americans. Past shifts in America's demographics always reshaped the country's religious landscape. This shift will be no different. Soong-Chan Rah's book is intended to equip evangelicals for ministry and outreach in our changing nation. Borrowing from the business concept of "cultural intelligence," he explores how God's people can become more multiculturally adept. From discussions about cultural and racial histories, to reviews of case-study churches and Christian groups that are succeeding in bridging ethnic divides, Rah provides a practical and hopeful guidebook for Christians wanting to minister more effectively in diverse settings. Without guilt trips or browbeating, the book will spur individuals, churches, and parachurch ministries toward more effectively bearing witness to the gospel of Jesus Christ, the Good News for people of every racial and cultural background. Its message is positive; its potential impact, transformative.

### **Introducing Cultural Studies**

Cultural Intelligence (CI) is a progressive approach to thinking about culture that aims to provide the reader with a better understanding of what goes on when people with different cultural backgrounds meet, including the emotional drivers and irrational reactions. Cultural Intelligence is for leaders and specialists who have a commitment to bridging and benefiting from differences, and who are looking for alternatives to the traditional cultural concepts. This book gives an introduction to CI and to the dynamic approach to culture. It provides an in-depth discussion of three cultural fields, and it offers many ideas and methods on how to develop the cultural intelligence of an organisation.

## **Cultural Intelligence for Winning the Peace**

Succeed in Any Culture, in Every Situation In today's global economy, the ability to interact effectively across cultures is a fundamental job requirement for just about everyone. You'll learn to discard your own culturally based assumptions and pay careful attention, in a mindful and creative way, to cues in cross-cultural situations. The authors show how to apply cultural intelligence in a series of specific situations: making decisions; communicating, negotiating, and resolving conflicts; leading and motivating others; and designing, managing, and contributing to multicultural groups and teams. This extensively revised third edition has been updated with new stories showing cultural intelligence in action. Thomas and Inkson have broadened the focus beyond business to include organizations of all kinds—nonprofits, governments, educational institutions, and more. And they include a reliable and valid measure of cultural intelligence based on a decade of research by an international team of scholars.

## **Leading with Cultural Intelligence**

Cultural intelligence is defined as an individual's ability to function effectively in situations characterized by cultural diversity. With contributions from eminent scholars worldwide, the "Handbook of Cultural Intelligence" is a 'state-of-the-science' summary of the body of knowledge about cultural intelligence and its relevance for managing diversity both within and across cultures. Because cultural intelligence capabilities can be enhanced through education and experience, this handbook emphasizes individual capabilities - specific characteristics that allow people to function effectively in culturally diverse settings - rather than the approach used by more traditional books of describing and comparing cultures based on national cultural norms, beliefs, habits, and practices. The Handbook covers conceptual and definitional issues, assessment approaches, and application of cultural intelligence in the domains of international and cross-cultural management as well as management of domestic activity. It is an invaluable resource that will stimulate and guide future research on this important topic and its application across a broad range of disciplines, including management, organizational behavior, industrial and organizational psychology,

intercultural communication, and more.

## **Building Cultural Intelligence (CQ)**

The purpose of this book is to outline the important ideas of cultural intelligence and the steps that must be considered and then practiced to become a culturally intelligent leader. The most important aspect covered within this book is that cultural intelligence is both a strategy and a tool towards cultural competency and proficiency. This book outlines the importance of understanding culture and its impact on organizations, the strategic value of cultural intelligence, and the significance of integrating and practicing cultural intelligence in everyday business life. When all these aspects are properly integrated and applied in the leadership and management process, organizations are more innovative and adaptable to respond to cultural changes.

## **HBR's 10 Must Reads on Managing Across Cultures (with featured article "Cultural Intelligence" by P. Christopher Earley and Elaine Mosakowski)**

Today's workforce is more diverse than ever before. But despite new perspectives and talents, the promise of increased innovation rarely materializes. Why are so few businesses seeing results? Studies show that diverse teams are more creative than homogenous ones-but only when they are managed effectively. The secret is to minimize conflict while maximizing the informational diversity found in varied values and experiences. To do this, both leaders and team members need a high level of cultural intelligence, or CQ. Drawing on success stories from Google, Alibaba, Novartis, and other groundbreaking companies, *Driven by Difference* identifies the management practices necessary to guide multicultural teams to innovation, including how to: Create an optimal environment \* Build trust \* Fuse differing perspectives \* Align goals and expectations \* Generate fresh ideas \* Consider the various audiences when selecting and selling an idea \* Design and test for different users Cultural differences can lead to gridlock, or they can catalyze innovation and growth. This research-based plan turns diversity's potential into economic reality.
