Men today have locked horns with their toughest issue: reclaiming the full potential of manhood. But in the midst of the excitement -- the meetings, rallies, seminars, and high-fives -- is something vital missing? What gives manhood definition and meaning? In *The Silence of Adam*, Dr. Larry Crabb and his colleagues, biblical scholar Don Hudson and counselor Al Andrews, offer a fresh look at how God designed men. They draw from neglected biblical data and their own professional experience to help us explore - manhood's lost vision - the problems of masculine community - the power of mentoring relationships -- *The Silence of Adam* deals thoughtfully and honestly with men's ongoing struggles and exposes the difficulties they have in relationships. It presents the rich calling men have to reveal God in ways uniquely masculine. And it summons them beyond their paralyzing fear of failure to bold risk-taking, action, deep spirituality, and full-hearted living.

The Silence of Adam

This study fills a major gap in the mainstream narrative of Irish history by reconstructing political developments in the year before the restoration of Charles II. It is the first treatment of the complex Irish dimension of the king's return. The issue of the monarchy did not stand alone in Ireland. Entangled with it was the question of how the restoration of the old regime would affect a Protestant colonial community which had changed in character and fortune as a result of the Cromwellian conquest, the immigration that had accompanied it and the massive

transfer of land that followed. As the return of Charles became increasingly probable, Cromwellian and pre-Cromwellian settlers were united in their determination to ensure that the restoration of Charles did not deprive them of their gains. This account discloses how the leaders of the Protestant establishment protected its interests by managing the transition back to monarchy.

The Manhood of the Master

Loss, grief and death explained for children. A companion volume to Coming to Grief, this book is a guide to help adults talk to children about loss, grief and death. The author provides practical, helpful information and offers guidelines and strategies when dealing with sensitive situations in relation to children. Children experience grief and loss for many reasons: loss of a loved one, a separation or divorce, change of schools or the death of a pet. The author, Pam Heaney, recognizes the difficulties adults face when talking to children about death; one of our biggest hurdles is not in educating children about loss but rather in equipping ourselves to do so. In this frequently consulted and much praised book she she

concludes that we need to understand the distress children face when grieving and offer much-needed support.

By 2000, civil war had been raging in the tiny diamond-rich country of Sierra Leone for ten years. The people there had endured unimaginable violence and were at the mercy of the uncontrollable rebel force, the Revolutionary United Front (RUF). During this reign of terror, a splinter group calling themselves the West Side Boys formed. They modelled themselves on American rap stars and lived their lives through gun-law, violence and terror. They recruited teenagers and child soldiers, many of whom were forced by their elder 'officers' to rape and murder members of their own families in order to traumatise them into fighting for the rebel cause. In August 2000, the West Side Boys kidnapped and tortured eleven Royal Irish Rangers who were members of a UN Peacekeeping Force. The British Government ordered a Special Forces attack on the rebel base camp with the specific intention of giving the West Side Boys 'a bloody nose'. There could be only one outcome: the annihilation of the West Side Boys. Days later, the SAS stormed the jungle camp and after rescuing the hostages they went on to obliterate almost the entire rebel force, bringing to an end the decade-long civil war. SAS: First Man Through the Door is the only first-hand account of this daring mission.
