Kaua'i Kids in Peace and War

Nellie and her little brother Gus discuss all kinds of families during a day at the zoo and dinner at home with their relatives afterwards.

Power to the People

Adolescence is a distinct, yet transient, period of development between childhood and adulthood characterized by increased experimentation and risk-taking, a tendency to discount long-term consequences, and heightened sensitivity to peers and other social influences. A key function of adolescence is developing an integrated sense of self, including individualization, separation from parents, and personal identity. Experimentation and novelty-seeking behavior, such as alcohol and drug use, unsafe sex, and reckless driving, are thought to serve a number of adaptive functions despite their risks. Research indicates that for most youth, the period of risky experimentation does not extend beyond adolescence, ceasing as identity becomes settled with maturity. Much adolescent involvement in criminal activity is part of the normal developmental process of identity formation and most adolescents will mature out of these tendencies. Evidence of significant changes in brain structure and function during adolescence strongly suggests that these cognitive tendencies characteristic of adolescents are associated with biological immaturity of the brain and with an imbalance among developing brain systems. This imbalance model implies dual systems: one involved in cognitive and behavioral control and one involved in socio-emotional processes. Accordingly

adolescents lack mature capacity for self-regulations because the brain system that influences pleasure-seeking and emotional reactivity develops more rapidly than the brain system that supports self-control. This knowledge of adolescent development has underscored important differences between adults and adolescents with direct bearing on the design and operation of the justice system, raising doubts about the core assumptions driving the criminalization of juvenile justice policy in the late decades of the 20th century. It was in this context that the Office of Juvenile Justice and Delinquency Prevention (OJJDP) asked the National Research Council to convene a committee to conduct a study of juvenile justice reform. The goal of *Reforming Juvenile Justice: A Developmental Approach* was to review recent advances in behavioral and neuroscience research and draw out the implications of this knowledge for juvenile justice reform, to assess the new generation of reform activities occurring in the United States, and to assess the performance of OJJDP in carrying out its statutory mission as well as its potential role in supporting scientifically based reform efforts.

Most People

A biography of the blind composer, pianist, and singer who was a child prodigy and went on to win nine Grammy awards.

Granddaddy's Gift

You could call Kaua'i Kids in Peace and War the Hawai'i version of The Dangerous Books for Boys and Girls because it describes a kid's barefoot adventures on the Hawaiian island of Kaua'i during the 1930s-1940s. He and his friends were very creative in their play. Author Bill Fernandez grew up in the tiny town of Kapa'a, one of the few places where sugar and pineapple plantations did not dominate life. There were few stores and no money to buy toys so kids created their own using tree branches, pine cones, palm fronds, newspapers glued with poi for kites, tin roofs, ironing boards, and firecrackers. As sugar cane trains rolled near their homes they pulled cane from moving trains to enjoy the sweet juice. In Part I, readers will chuckle when he describes his first ten years as he explored the ocean, made tin canoes, picked seaweed and opihi from the rocks and surf, tried to find Santa Claus in the mountains, slid down waterfalls, and played Cowboys and Indians for endless days with no concern for tomorrow. His hukilau description brings the excitement to life when the community captures a large school of fish with a net surround and then enjoys a party on the beach. When he developed asthma, his half-Hawaiian mother brought him to a kahuna (shaman) and Chinese herbalist. In this town settled by immigrants who came to work on the plantations, Bill's family, friends, and neighbors were Chinese, Okinawan, Philippino, Japanese, German, Portugese, French, Irish, Russian, Native Hawaiians, and others who created a sharing society, all struggling, all helping each other. Buddhist temples sit next to Christian

churches. Bill's parents built the largest movie theater in the islands, Roxy, in 1939. He told its story in *Rainbows Over Kapa'a*. *Kaua'i Kids* is a perfect companion to that book and is also filled with photos. Part II begins when Japan bombed Pearl Harbor a hundred miles away on a beautiful December morning. Radios went silent. A Japanese plane landed on a nearby island. Fear of invasion by Japan gripped defenseless Kaua'i and life was no longer carefree. Blackouts, shelling by Japanese, gas masks, a sense of being very much alone and unprotected dominated life. One morning he awoke to find hundreds of GIs camped on a church lawn. The Fighting 69th had arrived and with it, antagonism toward the Asian-Americans who were friends and family. Bill discovered the profits to be made buying cigarettes, cokes, and candy for the GIs, even delivering them after dark to the machine gun nest near his oceanside home. Soon he started shining shoes. He learned a lot about life from the men and watching the action in town. The hard work of pineapple picking replaced his lazy days with friends. But the ocean, source of food for islanders to supplement meager rationed food, was off-limits and barb-wired. Boats and fishing were banned. The easy-living island became a big prison under military control. These experiences with military occupation were unique in America and Bill tells it through the eyes of a child. Bill's education took a major turn in 1944 when he was sent to Honolulu to Kamehameha School for children of Native Hawaiian blood. The book ends as Bill flies there, realizing his life would not be the same.

Predictive Policing

Indian Law Stories, penetrates the often complex and unfamiliar doctrine of federal Indian law, exposing the raw conflicts over sovereignty and property that shaped legal rulings. Fifteen distinguished authors describe gripping cases involving Indian nations over more than two centuries, each story emphasizing initiative in tribal communities and lawyering strategies that have determined the fate of nations.

I Have a Dream

Presents the life, words, and principles of the noted civil rights worker through extensive quotations from his speeches and writings.

Who's in My Family?

His white teacher tells her all-black class, You'll all wind up porters and waiters. What did she know? Gordon Parks is most famous for being the first black director in Hollywood. But before he made movies and wrote books, he was a poor African American looking for work. When he bought a camera, his life changed forever. He taught himself how to take pictures and before long, people noticed. His success as a fashion photographer landed him a job working for the government. In

Washington DC, Gordon went looking for a subject, but what he found was segregation. He and others were treated differently because of the color of their skin. Gordon wanted to take a stand against the racism he observed. With his camera in hand, he found a way. Told through lyrical verse and atmospheric art, this is the story of how, with a single photograph, a self-taught artist got America to take notice.

Gordon Parks

In the second edition of this popular book, the author has thoroughly updated his analysis of the history of American criminal justice, exploring the tension between popular passions and the rule of law. Surveying the topic from the colonial era to the present day, Walker examines changing patterns in criminal activity, the institutional development of the system of criminal justice, and the major issues concerning the administration of justice. Comprehensive and concise, this book is the best single volume treatment of American criminal justice.

The Civil Rights Movement in America

Rights of robots, a closer collaboration between law and the health sector, the relation between justice and development - these are some of the topics covered

in *The Law of the Future and the Future of Law: Volume II*. The central question is: how will law evolve in the coming years? This book gives you a rich array of visions on current legal trends. The readable think pieces offer indications of law's cutting edge. The book brings new material that is not available in the first volume of *The Law of the Future and the Future of Law*, published in June 2011. Among the authors in this volume are William Twining (Emeritus Quain Professor of Jurisprudence, University College London), David Eagleman (Director, Initiative on Neuroscience and Law), Hassane Cisse (Deputy General Counsel, The World Bank), Gabrielle Marceau (Counsellor, World Trade Organisation), Benjamin Odoki (Chief Justice, Republic of Uganda), Martijn W. Scheltema (Attorney at law, Pels Rijcken and Droogleevers Fortuijn), Austin Onuoha (Founder, The Africa Centre for Corporate Responsibility), Lokke Moerel (Partner, De Brauw Blackstone Westbroek), S.I. Strong (Senior Fellow, Center for the Study of Dispute Resolution), Jan M. Smits (Chair of European Private Law, Maastricht University).

She Stood for Freedom

Predictive policing is the use of analytical techniques to identify targets for police intervention with the goal of preventing crime, solving past crimes, or identifying potential offenders and victims. These tools are not a substitute for integrated approaches to policing, nor are they a crystal ball. This guide assesses some of the most promising technical tools and tactical approaches for acting on predictions in

an effective way.

One More River to Cross

"Our music, our culture, our science and our economic welfare all depend on a delicate balance between those ideas that are controlled and those that are free, between intellectual property and the public domain

Indian Law Stories

Plunder examines the dark side of the Rule of Law and explores how it has been used as a powerful political weapon by Western countries in order to legitimize plunder – the practice of violent extraction by stronger political actors victimizing weaker ones. Challenges traditionally held beliefs in the sanctity of the Rule of Law by exposing its dark side Examines the Rule of Law's relationship with 'plunder' – the practice of violent extraction by stronger political actors victimizing weaker ones – in the service of Western cultural and economic domination Provides global examples of plunder: of oil in Iraq; of ideas in the form of Western patents and intellectual property rights imposed on weaker peoples; and of liberty in the United States Dares to ask the paradoxical question – is the Rule of Law itself illegal?

The Civil Rights Movement

An esteemed philosopher discusses his theory of universal freedom, describing how even those who are members of free societies may find their liberties curtailed and includes tests of freedom including the eyeball test and the tough-luck test.

Belle, the Last Mule at Gee's Bend

The notion that the rule of law embodies or guarantees all the essential requirements for a perfectly just society is extravagant and naive. That said, it is certainly the case that the rule of law remains an essential human virtue whose usefulness the world has yet to outgrow. Using the rule of law as a mobilizing theme, this book recasts Western theories of law, good governance, and development in a Pacific perspective. While the author works primarily within a legal analytical framework, he employs a multifaceted approach to address the challenge of making Western theories relevant to the concrete and normative contexts of the Pacific peoples, and to accommodate Pacific values, ideologies, structures, and practices within the modern discourse on law.

The Army Lawyer

This text traces the history of the civil rights movement in the years following World War II, to the present day. Issues discussed the Civil Rights Act of 1964, the Voting Rights of 1965, and the Northern Ireland ghetto's.

Delivering Justice

The Liberty Fund edition of James McClellan's classic work on the quest for liberty, order, and justice in England and America includes the author's revisions to the original edition published in 1989 by the Center for Judicial Studies. Unlike most textbooks in American Government, Liberty, Order, and Justice seeks to familiarize the student with the basic principles of the Constitution, and to explain their origin, meaning, and purpose. Particular emphasis is placed on federalism and the separation of powers. These features of the book, together with its extensive and unique historical illustrations, make this new edition of Liberty, Order, and Justice especially suitable for introductory classes in American Government and for high school students in advanced placement courses. James McClellan (1937-2005) was the James Bryce Visiting Fellow in American Studies at the Institute of United States Studies, University of London.

The Public Domain

A young boy witnesses his proud, hardworking grandfather dress in his best suit and go to town so that he can vote for the first time.

The Story of Stevie Wonder

"A biography of John Lewis, Georgia Congressman and one of the 'Big Six' civil rights leaders of the 1960s, focusing on his youth and culminating in the voter registration drives that sparked 'Bloody Sunday,' as hundreds of people walked across the Edmund Pettus Bridge in Selma, Alabama. Includes a note by Congressman Lewis and a timeline"--Provided by publisher.

Champion

Bayonets in Paradise

Presents brief biographies of twelve African Americans who courageously fought against racism to become leaders in their fields, including Marian Anderson, Ralph Bunche, Fannie Lou Hamer, and Malcolm X.

Rule of Law, Legitimate Governance & Development in the

Pacific

Presents the life of W.W. Law, an NAACP activist, whose efforts to register black voters, and lead a successful business boycott resulted in Savannah, Georgia being the first city in the south to end racial discrimination.

A Wild Justice: The Death and Resurrection of Capital Punishment in America

When her grandfather registers to vote while living in segregated Mississippi, an Afro-American girl begins to understand why he insists that she attend school.

Separate But Not Equal

Christine Evans assesses the right to reparation for victims of armed conflict in international law and in national practice.

The Second Reconstruction

Chronicles the history of the Black Panther Party, a radical political organization founded in 1966 by Huey Newton and Bobby Seale, which promoted armed

revolution against racist law enforcement authorities.

Draw What You See

"I am the greatest! I am the king!" Muhammad Ali was one of the most electrifying, inspiring, and confrontational athletes of his generation. At the height of his boxing career, Ali was as despised as he was adored. Loud and aggressive as well as confident and dedicated, he was the quintessential showman, the undeniable champion of his sport, and one of the most recognizable faces in the world. He was challenged at every turn: faced with racial discrimination in his everyday life, mocked by the sports media as his career began, ridiculed for adopting a new religion, and stripped by the U.S. government of his very livelihood for refusing to go to war. Muhammad Ali faced the obstacles in his life the way he faced his opponents in the ring, brashly and with all the force at his command. In his private life, he was also deeply spiritual, committed to standing up against social injustice, and steadfast in his beliefs. Featuring stunning illustrations and covering his entire life from childhood through his professional career to his end of life battle with Parkinson's Syndrome, this is a moving tribute to the legacy of this impressive figure.

The Right to Reparation in International Law for Victims of

Armed Conflict

Reveals the stories and secrets of hoodoo doctors, voodoo women, and conjurers who serve the adherents of voodoo and hoodoo through North America

Establishing Law and Order After Conflict

2017 Gold Moonbeam Children's Book Award: For dedication to children's books and literacy and for inspired writing, illustrating and publishing. The world can be a scary place. Anxious adults want children to be aware of dangers, but shouldn't kids be aware of kindness too? Michael Leannah wrote *Most People* as an antidote to the scary words and images kids hear and see every day. Jennifer Morris's emotive, diverting characters provide the perfect complement to Leannah's words, leading us through the crowded streets of an urban day in the company of two pairs of siblings (one of color). We see what they see: the hulking dude with tattoos and chains assisting an elderly lady onto the bus; the Goth teenager with piercings and purple Mohawk returning a lost wallet to its owner; and the myriad interactions of daily existence, most of them well intended. *Most People* is a courageous, constructive response to the dystopian world of the news media. Fountas & Pinnell Level M

Voodoo & Hoodoo

In a nation-building operation, outside states invest much of their resources in establishing and maintaining the host country's police, internal security forces, and justice system. This book examines post-Cold War reconstruction efforts, such as those in Iraq and Afghanistan, and assesses the success of U.S. and allied efforts in reconstructing internal security institutions.

Visiting Langston

Looks at the life of the artist Benny Andrews illustrated with his original paintings, from his childhood and youth in rural Georgia, through his studies in Chicago and his activism and artistic success in New York City.

Reforming Juvenile Justice

In this engaging and illuminating narrative of the Supreme Court, David M. O'Brien shows students how the Court is a "storm center" of political controversy, where personality, politics, law, and justice come together to help determine the course of public policy and shape the society in which we live. NEW coverage highlights events that have dominated news headlines, like Donald Trump's appointments to

the Court and the landmark decision for marriage equality in Obergefell v. Hodges, making this the most exciting edition of Storm Center yet.

Liberty, Order, and Justice

Selected as a 2017 CHOICE Outstanding Academic Title Bayonets in Paradise recounts the extraordinary story of how the army imposed rigid and absolute control on the total population of Hawaii during World War II. Declared immediately after the Pearl Harbor attack, martial law was all-inclusive, bringing under army rule every aspect of the Territory of Hawaii's laws and governmental institutions. Even the judiciary was placed under direct subservience to the military authorities. The result was a protracted crisis in civil liberties, as the army subjected more than 400,000 civilians—citizens and alien residents alike—to sweeping, intrusive social and economic regulations and to enforcement of army orders in provost courts with no semblance of due process. In addition, the army enforced special regulations against Hawaii's large population of Japanese ancestry; thousands of Japanese Americans were investigated, hundreds were arrested, and some 2,000 were incarcerated. In marked contrast to the well-known policy of the mass removals on the West Coast, however, Hawaii's policy was one of "selective," albeit preventive, detention. Army rule in Hawaii lasted until late 1944—making it the longest period in which an American civilian population has ever been governed under martial law. The army brass invoked the imperatives of security and

"military necessity" to perpetuate its regime of censorship, curfews, forced work assignments, and arbitrary "justice" in the military courts. Broadly accepted at first, these policies led in time to dramatic clashes over the wisdom and constitutionality of martial law, involving the president, his top Cabinet officials, and the military. The authors also provide a rich analysis of the legal challenges to martial law that culminated in *Duncan v. Kahanamoku*, a remarkable case in which the U.S. Supreme Court finally heard argument on the martial law regime—and ruled in 1946 that provost court justice and the military's usurpation of the civilian government had been illegal. Based largely on archival sources, this comprehensive, authoritative study places the long-neglected and largely unknown history of martial law in Hawaii in the larger context of America's ongoing struggle between the defense of constitutional liberties and the exercise of emergency powers.

Plunder

For use in schools and libraries only. Relates the history of African American education, from colonial times, to *Brown v. the Board of Education*, to the present.

Granddaddy's Turn

A poem to celebrate the African American poet, Langston Hughes, born on February 1, 1902.

John Lewis in the Lead

This informative book gives a brief history of racial relations in the United States. It focuses on the Civil Rights Movement, which began with the Supreme Court ruling against segregation in public schools in 1954.

The Law of the Future and the Future of Law

In pre-publication, the author was listed as Lucia Raatma.

Storm Center

Discusses the history of the two Supreme Court cases that were responsible for changing the laws regarding the death penalty in America and polarizing the nation.

Delivering Justice

Social Policy and Social Justice provides today's students and tomorrow's practitioners with a comprehensive overview of U.S. social policy and the policymaking process. Author and editor Michael Reisch brings together experts in the field to help students understand these policies and prepare them for the emerging realities that will shape practice in the 21st century. This text explores the critical contextual components of social policy—including history, ideology, political-economy, and culture—and demonstrates major substantive areas of policy such as income maintenance and health/mental health.

Just Freedom: A Moral Compass for a Complex World

A biography of Joan Trumpauer Mulholland follows her from her childhood in 1950s Virginia through her high school and college years, when she joined the civil rights movement, attending demonstrations and sit-ins. She also participated in the Freedom Rides of 1961 and was arrested and imprisoned.

Social Policy and Social Justice

“This small snapshot of the protest movement pays homage to both the determination of ordinary folk and the power of Dr. King’s words. . . . An intergenerational story filled with heart and soul.” — Kirkus Reviews When Alex

spies a mule chomping on greens in a nearby garden, he can't help but ask about it. "Ol' Belle?" says Miz Pettway. "She can have all the collards she wants. She's earned it." And so begins the tale of an ordinary mule in Gee's Bend, Alabama, that played a singular part in the civil rights movement of the 1960s. When African-Americans in a poor community — inspired by a visit from Dr. Martin Luther King Jr. — defied local authorities who were trying to stop them from registering to vote, many got around a long, imposed detour on mule-drawn wagons. As Alex looks into the eyes of gentle Belle, he begins to understand a significant time in history in a very personal way.

Popular Justice

Presents the life of W.W. Law, an NAACP activist, whose efforts to register black voters, and lead a successful business boycott resulted in Savannah, Georgia being the first city in the south to end racial discrimination.
