The Elimination

#1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE STARRING MICHAEL B. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend **NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time** Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn’t commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of mercy and justice forever. Just Mercy is at once an unforgettable account of an idealistic, gifted young lawyer’s coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book “Every bit as moving as To Kill a Mockingbird, and in some ways more so . . . a searing indictment of American criminal justice and a stirring testament to the salvation that fighting for the vulnerable sometimes yields.”—David Cole, The New York Review of Books “Searing, moving . . . Bryan Stevenson may, indeed, be America’s Mandela.”—Nicholas Kristof, The New York Times “You don’t have to read too long to start cheering for this man. . . . The message of this book . . . is that evil can be overcome, a difference can be made. Just Mercy will make you upset and it will make you hopeful.”—Ted Conover, The New York Times Book Review “Inspiring . . . a work of style, substance and clarity .

. . Stevenson is not only a great lawyer, he's also a gifted writer and storyteller."—The Washington Post "As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty."—The Financial Times "Brilliant."—The Philadelphia Inquirer

The Interpretation of Cultures

In *Learning Targets*, Connie M. Moss and Susan M. Brookhart contend that improving student learning and achievement happens in the immediacy of an individual lesson--what they call "today's lesson"--or it doesn't happen at all. The key to making today's lesson meaningful? Learning targets. Written from students' point of view, a learning target describes a lesson-sized chunk of information and skills that students will come to know deeply. Each lesson's learning target connects to the next lesson's target, enabling students to master a coherent series of challenges that ultimately lead to important curricular standards. Drawing from the authors' extensive research and professional learning partnerships with classrooms, schools, and school districts, this practical book * Situates learning targets in a theory of action that students, teachers, principals, and central-office administrators can use to unify their efforts to raise student achievement and create a culture of evidence-based, results-oriented practice. * Provides strategies for designing learning targets that promote higher-order thinking and foster student goal setting, self-assessment, and self-regulation. * Explains how to design a strong performance of understanding, an activity that produces evidence of students' progress toward the learning target. * Shows how to use learning targets to guide summative assessment and grading. *Learning Targets* also includes reproducible planning forms, a classroom walk-through guide, a lesson-planning process guide, and guides to teacher and student self-assessment. What students are actually doing during today's lesson is both the source of and the yardstick for school improvement efforts. By applying the insights in this book to your own work, you can improve your teaching expertise and dramatically empower all students as stakeholders in their own learning.

honor, our duty as citizens to present to you Duck for President. Here is a duck who began in a humble pond. Who worked his way to farmer. To governor. And now, perhaps, to the highest office in the land. Some say, if he walks like a duck and talks like a duck, he is a duck. We say, if he walks like a duck and talks like a duck, he will be the next president of the United States of America. Thank you for your vote.

The Pirates of Somalia

From the internationally acclaimed director of *S-21: The Khmer Rouge Killing Machine*, a survivor's autobiography that confronts the evils of the Khmer Rouge dictatorship. Rithy Panh was only thirteen years old when the Khmer Rouge expelled his family from Phnom Penh in 1975. In the months and years that followed, his entire family was executed, starved, or worked to death. Thirty years later, after having become a respected filmmaker, Rithy Panh decides to question one of the men principally responsible for the genocide, Comrade Duch, who's neither an ordinary person nor a demon—he's an educated organizer, a slaughterer who talks, forgets, lies, explains, and works on his legacy. This confrontation unfolds into an exceptional narrative of human history and an examination of the nature of evil. *The Elimination* stands among the essential works that document the immense tragedies of the twentieth century, with Primo Levi's *If This Is a Man* and Elie Wiesel's *Night*.

The Use of Force in UN Peace Operations

Harold McGee's *On Food and Cooking* is a kitchen classic. Hailed by *Time* magazine as "a minor masterpiece" when it first appeared in 1984, *On Food and Cooking* is the bible to which food lovers and professional chefs worldwide turn for an understanding of where our foods come from, what exactly they're made of, and how cooking transforms them into something new and delicious. Now, for its twentieth anniversary, Harold McGee has prepared a new, fully revised and updated edition of *On Food and Cooking*. He has rewritten the text almost completely, expanded it by two-thirds, and commissioned more than 100 new illustrations. As compulsively readable and engaging as ever, the new *On Food and Cooking* provides countless eye-opening insights into food, its preparation, and its enjoyment. *On Food and Cooking* pioneered the translation of technical food science into cook-friendly kitchen science and helped give birth to the inventive culinary movement known as "molecular gastronomy." Though other books have now been written about kitchen science, *On Food and Cooking* remains unmatched in the accuracy, clarity, and thoroughness of its explanations, and the intriguing way in which it blends science with the historical evolution of foods and cooking techniques. Among the major themes addressed throughout this new edition are: Traditional and modern methods of food production and their influences on food

quality The great diversity of methods by which people in different places and times have prepared the same ingredients Tips for selecting the best ingredients and preparing them successfully The particular substances that give foods their flavors and that give us pleasure Our evolving knowledge of the health benefits and risks of foods On Food and Cooking is an invaluable and monumental compendium of basic information about ingredients, cooking methods, and the pleasures of eating. It will delight and fascinate anyone who has ever cooked, savored, or wondered about food.

Young Louisiana state trooper, Travis A. Gaspard, patrols the highways of his state looking for drug smugglers and confiscates a large haul of Columbian cocaine which was destined for the east coast of the United States. At nearly the same time, Saddam Hussein invades Kuwait and the U.S. armed forces are called to prepare for war. Tag, as the young trooper prefers to be called, is a United States Marine Corps reservist, and as such must leave the state police and his wife to fight Saddam's army overseas. While preparing for battle in the sandy lands of the foreign country, Marine Corps Captain Gaspard is notified of his wife's untimely death back home. He returns to Louisiana immediately for her funeral and to sort out the circumstances of her demise. Post war and several years later, the new Superintendent of the State Police appoints Lieutenant Tag Gaspard to head up the Special Investigations Unit of the department. He is later ordered to join a task force with the New Orleans and Houston Police Departments in hopes of solving a triple homicide. Dealing with personnel from other departments presents its own issues to the lieutenant in more ways than one. Combined with the haunting fact that he still has not closed the case of his own wife's murder, the twists and turns of the current investigation begin to take a toll on the task force leader. Follow the saga of the law enforcement veteran through South Louisiana on the current investigation, and his efforts to deal with critical "matters of heart."

Picturing America

During the Khmer Rouge's brutal reign in Cambodia during the mid-to-late 1970s, a former math teacher named Duch served as the commandant of the S-21 security center, where as many as 20,000 victims were interrogated, tortured, and executed. In 2009 Duch stood trial for these crimes against humanity. While the prosecution painted Duch as evil, his defense lawyers claimed he simply followed orders. In *Man or Monster?* Alexander Hinton uses creative ethnographic writing, extensive fieldwork, hundreds of interviews, and his experience attending Duch's trial to create a nuanced analysis of Duch, the tribunal, the Khmer Rouge, and the after-effects of Cambodia's genocide. Interested in how a person becomes a torturer and executioner as well as the law's ability to grapple with crimes against humanity, Hinton adapts Hannah Arendt's notion of the "banality of evil" to consider how the potential for violence is embedded in the everyday ways people articulate meaning and comprehend the world. *Man or Monster?* provides novel ways to consider justice, terror, genocide, memory, truth, and humanity.

The main objective of *À votre tour!* is to advance students to a level at which they can comfortably express themselves on a variety of French and francophone topics. Avoiding the excessive rigor of most intermediate texts, *À votre tour!* immerses students in authentic language and cultural contexts to achieve three key objectives: to build and reinforce oral and written communicative skills, to develop reading skills and cultural awareness, and to forge a strong linguistic base. **New!** *Tête à tête* communicative activities require one student to use communicative skills to elicit unknown details from another student in order to complete a task, with basic vocabulary and grammar structures recycled to reinforce previously learned material. **New!** Integrated video correlates to the *Français Pratique* section of each unit and to corresponding video activities provided in the *Student Activities Manual*. **New!** Updated cultural material highlights recent cultural trends, such as prices expressed in euros, French phone numbers with appropriate area codes; reflects the current political realities; and offers many entry points for further development of cultural awareness, grammar, and lexical points. A broad introduction to French and Francophone cultures provides authentic language and cultural contexts without an intense grammar curriculum—adapted for students who might take French as a minor, rather than a major. Accessible presentation enables students with basic conversational and grammar skills to achieve success through careful pacing, cyclical review and re-entry of structures and vocabulary, and engaging conversational material. Solid grammar review builds a framework by first covering basic structures and expressions, then adding more advanced concepts to expand students' linguistic abilities.

Returning to Paris, the three men are then confronted with the violent killing and dismemberment of a wealthy, elderly man. Both the dead man's son and gardener have motives for murder, but soon another candidate for the killing emerges. On Food and Cooking

The Marne 15 July - 6 August 1918

With the publication of "Riviera to the Rhine", the Center of Military History completes its series of operational histories treating the activities of the U.S. Army's combat forces during World War II. This volume examines the least known of the major units in the European theater, General Jacob L. Devers' 6th Army Group. Under General Devers' leadership, two armies, the U.S. Seventh Army under General Alexander M. Patch and the First French Army led by General Jean de Lattre de Tassigny, landing on the Mediterranean coast near Marseille in August 1944, cleared the enemy out of southern France and then turned east and joined with army groups under Field Marshal Sir Bernard L. Montgomery and General Omar N. Bradley in the final assault on Germany. In detailing the campaign of

these Riviera-based armies, the authors have concentrated on the operational level of war, paying special attention to the problems of joint, combined, and special operations and to the significant roles of logistics, intelligence, and personnel policies in these endeavors. They have also examined in detail deception efforts at the tactical and operational levels, deep battle penetrations, river-crossing efforts, combat in built-up areas, and tactical innovations at the combined arms level.

Voices from S-21

The horrific torture and execution of hundreds of thousands of Cambodians by Pol Pot's Khmer Rouge during the 1970s is one of the century's major human disasters. David Chandler, a world-renowned historian of Cambodia, examines the Khmer Rouge phenomenon by focusing on one of its key institutions, the secret prison outside Phnom Penh known by the code name "S-21." The facility was an interrogation center where more than 14,000 "enemies" were questioned, tortured, and made to confess to counterrevolutionary crimes. Fewer than a dozen prisoners left S-21 alive. During the Democratic Kampuchea (DK) era, the existence of S-21 was known only to those inside it and a few high-ranking Khmer Rouge officials. When invading Vietnamese troops discovered the prison in 1979, murdered bodies lay strewn about and instruments of torture were still in place. An extensive archive containing photographs of victims, cadre notebooks, and DK publications was also found. Chandler utilizes evidence from the S-21 archive as well as materials that have surfaced elsewhere in Phnom Penh. He also interviews survivors of S-21 and former workers from the prison. Documenting the violence and terror that took place within S-21 is only part of Chandler's story. Equally important is his attempt to understand what happened there in terms that might be useful to survivors, historians, and the rest of us. Chandler discusses the "culture of obedience" and its attendant dehumanization, citing parallels between the Khmer Rouge executions and the Moscow Show Trials of the 1930s, Nazi genocide, Indonesian massacres in 1965-66, the Argentine military's use of torture in the 1970s, and the recent mass killings in Bosnia and Rwanda. In each of these instances, Chandler shows how turning victims into "others" in a manner that was systematically devaluing and racist made it easier to mistreat and kill them. More than a chronicle of Khmer Rouge barbarism, *Voices from S-21* is also a judicious examination of the psychological dimensions of state-sponsored terrorism that conditions human beings to commit acts of unspeakable brutality.

Duck for President

One of the most vexing issues that has faced the international community since the end of the Cold War has been the use of force by the United Nations peacekeeping forces. UN intervention in civil wars, as in Somalia, Bosnia and Herzegovina, and Rwanda, has thrown into stark relief the difficulty of peacekeepers operating in situations where consent to their presence and activities is fragile or incomplete and where there is little peace to keep. Complex questions arise in these circumstances. When and how should peacekeepers use force to protect themselves, to protect their mission, or, most troublingly, to ensure compliance by recalcitrant parties with peace accords? Is a peace enforcement role for peacekeepers possible or is this simply war by another name?

Is there a grey zone between peacekeeping and peace enforcement? Trevor Findlay reveals the history of the use of force by UN peacekeepers from Sinai in the 1950s to Haiti in the 1990s. He untangles the arguments about the use of force in peace operations and sets these within the broader context of military doctrine and practice. Drawing on these insights the author examines proposals for future conduct of UN operations, including the formulation of UN peacekeeping doctrine and the establishment of a UN rapid reaction force.

Public health officials and organizations around the world remain on high alert because of increasing concerns about the prospect of an influenza pandemic, which many experts believe to be inevitable. Moreover, recent problems with the availability and strain-specificity of vaccine for annual flu epidemics in some countries and the rise of pandemic strains of avian flu in disparate geographic regions have alarmed experts about the world's ability to prevent or contain a human pandemic. The workshop summary, *The Threat of Pandemic Influenza: Are We Ready?* addresses these urgent concerns. The report describes what steps the United States and other countries have taken thus far to prepare for the next outbreak of "killer flu." It also looks at gaps in readiness, including hospitals' inability to absorb a surge of patients and many nations' incapacity to monitor and detect flu outbreaks. The report points to the need for international agreements to share flu vaccine and antiviral stockpiles to ensure that the 88 percent of nations that cannot manufacture or stockpile these products have access to them. It chronicles the toll of the H5N1 strain of avian flu currently circulating among poultry in many parts of Asia, which now accounts for the culling of millions of birds and the death of at least 50 persons. And it compares the costs of preparations with the costs of illness and death that could arise during an outbreak.

Trump's Enemies

Olympe de Gouges was the most important fighter for women's rights you've never heard of. An activist and writer in revolutionary Paris, she published 'The Declaration of the Rights of Women' in 1791, and was beheaded two years later, her articulate demands for equality proving too much for their time. Over one hundred and fifty years later, the key statements of her declaration were internationally endorsed by the United Nations in its Declaration on the Elimination of Discrimination Against Women, which in turn went on to be legally recognized by nearly every country in the world. This volume presents both of these key texts along with enlightening and inspiring commentary from a host of powerful women, from Virginia Woolf to Hillary Clinton.

Corey R. Lewandowski and David N. Bossie, the authors of the blockbuster, Let Trump Be Trump: the Inside Story of His Rise to the Presidency, are back with their next New York Times bestseller. This book will reveal the heart of the hostile bureaucratic network that has been operating in the shadows until the American people voted Trump into office. Trump's determination to transform the government, wipe out the swamp, and reduce the power of the bureaucratic machine has set him on a collision course with agencies populated by a workforce resistant to the American people's agenda. That collision, however, is one that the president is prepared to meet head-on. Why? Because it is the key to unraveling the very swamp the administration is determined to end. The reader will have a

front-row, exclusive seat for the political battles inside the White House and the war it is waging against those government bureaucrats, establishment officials, and foes within the Obama administration. This book will expose the political and bureaucratic underbelly, its struggle to survive against an unorthodox commander-and-chief, and its willingness to do almost anything to stop him.
