"Kostelanetz excels, for instance, at astutely cynical debunkings of many of the 'radical chic' culture heroes of the 60s. . . . He can be scathingly funny as well deflating both the over-rated trendy avant-gardists and the 'New York Intellectual' elders who tyrannized the time. . . . As a meticulously reconstructed record of literary coming of age in a particularly propitious cultural moment, 'One Million Words' has carved out a unique place in the annals of literary autobiography."Library

"Thomas Nast (1840-1902), the founding father of American political cartooning, is perhaps best known for his cartoons portraying political parties as the Democratic donkey and the Republican elephant. Nast's legacy also includes a trove of other political cartoons, his successful attack on the machine politics of Tammany Hall in 1871, and his wildly popular illustrations of Santa Claus for Harper's Weekly magazine. In this thoroughgoing and lively biography, Fiona Deans Halloran interprets his work, explores his motivations and ideals, and illuminates the lasting legacy of Nast's work on American political culture"--

Written between August and December 1938, Autumn Journal is still considered one of the most valuable and moving testaments of living through the thirties by a young writer. It is a record of the author's emotional and intellectual experience during those months, the trivia of everyday living set against the events of the world outside, the settlement in Munich and slow defeat in Spain.

## **The Irish Monthly**

"Best known for the *Woman in White* and *The Moonstone*, and largely credited with developing the first detective and sensation novels in English literature, Wilkie Collins (1824-1889) has in recent years been the subject of renewed popular and

critical interest. In five decades the prolific Collins produced more than twenty-five novels and novellas and five collections of short stories and essays; adapted, wrote, or produced more than twelve plays; and published a travel book, a biography, and dozens of journal articles. Also an outspoken social critic, Collins generated considerable controversy in both his works and his life - in writing about class and gender inequities, marriage law reform, and the crimes of British imperialism, for example, and in choosing to live with rather than marry the two women he partnered over the course of his life, and in fathering three children with one of them." "In Wilkie Collins, Lillian Nayder presents the first book-length study of Collins's life and the full range of his works - the novels, plays, short fiction, and nonfiction - in historical context. Whereas critics usually label Collins as either radical or reactionary, Nayder argues for a multifaceted view that takes into account Collins's simultaneous and complex stance as radical reformer and upholder of the patriarchal, imperial order."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. This volume contains the known published poems of Canadian poet John McCrae. McCrae was a medical officer in both the Boer War and World War I and his poem "In Flanders Fields" is one of the most popular war poems ever written. An award-winning play about the relationship between brothers. Nothing but the Truth is the story of two brothers, of sibling rivalry, of exile, of memory and reconciliation, and the ambiguities of freedom. The play was John Kani's debut as sole playwright and was first performed in the Market Theatre in Johannesburg. It won the 2003 Fleur du Cap Award for best actor and best new South African play. In the same year Kani was also awarded a special Obie award for his extraordinary contribution to theatre in the USA.

#### **Poetry: Past and Present**

Here is the eagerly awaited new edition of The Oxford Book of American Poetry brought completely up to date and dramatically expanded by poet David Lehman. It is a rich, capacious volume, featuring the work of more than 200 poets-almost three times as

many as the 1976 edition. With a succinct and often witty head note introducing each author, it is certain to become the definitive anthology of American poetry for our time. Lehman has gathered together all the works one would expect to find in a landmark collection of American poetry, from Whitman's Crossing Brooklyn Ferry to Stevens's The Idea of Order at Key West, and from Eliot's The Waste Land to Ashbery's Self-Portrait in a Convex Mirror. But equally important, the editor has significantly expanded the range of the anthology. The book includes not only writers born since the previous edition, but also many fine poets overlooked in earlier editions or little known in the past but highly deserving of attention. The anthology confers legitimacy on the Objectivist poets; the so-called Proletariat poets of the 1930s; famous poets who fell into neglect or were the victims of critical backlash (Edna St. Vincent Millay); poets whose true worth has only become clear with the passing of time (Weldon Kees). Among poets missing from Richard Ellmann's 1976 volume but published here are W. H. Auden, Charles Bukowski, Donald Justice, Carolyn Kizer, Kenneth Koch, Stanley Kunitz, Emma Lazarus, Mina Loy, Howard Moss, Lorine Niedecker, George Oppen, James Schuyler, Elinor Wylie, and Louis Zukosky. Many more women are represented: outstanding poets such as Josephine Jacobsen, Josephine Miles, May Swenson. Numerous African-American poets receive their due, and unexpected figures such as the musicians Bob Dylan, Patti Smith and Robert Johnson have a place in this important work. This stunning collection redefines the great canon of American poetry from its origins in the 17th century right up to the present. It is a must-have

anthology for anyone interested in American literature and a book that is sure to be consulted, debated, and treasured for years to come.
