Family and Friends, Level 2

Exceptionally strong skills training with a particular focus on speaking - that's what you get with Family and Friends. How? The clear methodology, with objectives for every lesson, and carefully staged activities support your students learning. So does the controlled 'Skills Time' program, which enables your students to continually improve their listening, speaking and literacy skills. Phonics is straightforward and fun! The progression is specially written for non-native speakers, meaning each sound is taught in a way that's easy to understand. The writing activities are very well structured and help you teach students essential sub-skills, such as punctuation, so they feel ready to do their own personalized writing in the Workbook and worksheets from the Teacher's Resource CD. The picture dictionary and wordlists at the back of the book offer students additional support for reading and writing activities. The wide variety of linked print and digital resources helps you to meet the needs of students with different learning styles and makes your lessons more engaging. The teacher's resource CD is packed full of photocopiable resources such as values worksheets, extra writing pages and cut and make activities. Do you need help preparing for tests? There are print-ready and editable tests with audio on the Teacher's Resource CD along with practice papers for Cambridge Young Learners English Tests which you can print and use, or customize to practice a particular language point or to suit mixed ability classes. But Family and Friends is not only about academic success - it develops the whole child too. The values syllabus helps children develop social and emotional skills which guarantee success in the classroom and at home.

Oxford Discover: 2: Student's Book

Much of the existing literature within the "varieties of capitalism " (VOC) and "comparative business systems " fields of research is heavily focused on Europe, Japan, and the Anglo-Saxon nations. As a result, the field has yet to produce a detailed empirical picture of the institutional structures of most Asian nations and to explore to what extent existing theory applies to the Asian context. The Oxford Handbook of Asian Business Systems aims to address this imbalance by exploring the shape and consequences of institutional variations across the political

economies of different societies within Asia. Drawing on the deep knowledge of 32 leading experts, this book presents an empirical, comparative institutional analysis of 13 major Asian business systems between India and Japan. To aid comparison, each country chapter follows the same consistent outline. Complementing the country chapters are eleven contributions examining major themes across the region in comparative perspective and linking the empirical picture to existing theory on these themes. A further three chapters provide perspectives on the influence of history and institutional change. The concluding chapters spell out the implications of all these chapters for scholars in the field and for business practitioners in Asia. The Handbook is a major reference work for scholars researching the causes of success and failure in international business in Asia.

CAN I GET A "RAMEN" FROM THE CONGREGATION?! Behold the Church of the Flying Spaghetti Monster (FSM), today's fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM's devout followers, a.k.a. Pastafarians? Some say it's the assuring touch from the FSM's "noodly appendage." Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church's flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution ("only a theory"), science ("only a lot of theories"), and whether we're really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: "If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory." —Professor Douglas Shaw, Ph.D. "Do not be hypocritical. Allow equal time for other alternative 'theories' like FSMism, which is by far the tastier choice." —J. Simon, Ph.D. "In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory." —Afshin Beheshti, Ph.D. Read the book and decide for yourself! From the Trade Paperback edition.

First Friends is a fun two-level beginner's course that develops vocabulary, practises phonics, and teaches family values. First Friends makes children's first year of learning English motivating and fun. A regular unit cycle and engaging support resources help you create a positive learning environment where children can develop confidence, build vocabulary skills, and practise phonics. The carefully researched phonics programme gives you lessons that are ideal for children who don't use the Roman alphabet. Use Little Friends to extend First Friends to a three-level course.

Family & Friends 1 Classbook

One third of each unit is dedicated to skills training. The step-by-step approach focuses on writing and early literacy skills to build children's confidence in reading, writing, speaking, and understanding English. One in six lessons is a phonics lesson to train children to recognize and produce English sounds. At levels 1-3 the lessons are supported by flashcards, and by more activities on the Student MultiROM. The civic education syllabus educates children in good values and behaviour. The Photocopy Masters Books at levels 1-2 include 15 values worksheets. The Testing and Evaluation Book and the test builder element of the Teacher's Resource CD-ROM help teachers to evaluate children's progress. One lesson per page with clear lesson objectives makes the course easy to teach. Accompanying resources, including the Grammar Friends series, skills series, Teacher's Resource Pack, course readers, and Teacher Resource CD-ROM allow teachers to focus on additional skills training and means the course can fit different teaching programmes per week.
