The American Spirit: United States History as Seen by Contemporaries

This comprehensive, in-depth review and analysis of planning, policy, and law in the National Forest System is the standard reference source on the National Forest Management Act (NFMA) of 1976. It is a clearly written, nontechnical book that offers an insightful analysis of the Fifty Year Plans and how to participate in and influence them.

Concrete Pavement Design, Construction, and Performance

□□□□□□□□

Encyclopaedia Britannica

Addressing the interactions between the different design and construction variables and techniques this book illustrates best practices for constructing economical, long life concrete pavements. The book proceeds in much the same way as a pavement construction project. First, different alternatives for concrete pavement solutions are outlined. The desired performance and behaviour parameters are identified. Next, appropriate materials are outlined and the most suitable concrete proportions determined. The design can be completed, and then the necessary construction steps for translating the design into a durable facility are carried out. Although the focus reflects highways as the most common application, special features of airport, industrial, and light duty pavements are also addressed. Use is made of modeling and performance tools such as HIPERPAV and LTPP to illustrate behavior and performance, along with some case studies. As concrete pavements are more complex than they seem, and the costs of mistakes or of over-design can be high, this is a valuable book for engineers in both the public and private sectors.

Beginning with the landing of the Spirit and Opportunity rovers in 2004 and concluding with the end of the Curiosity mission in 2014, this second volume of The International Atlas of Mars Exploration continues the story of Mars exploration in spectacular detail. It is an essential reference source on Mars and its moons, combining scientific and historical data with detailed and unique illustrations to provide a thorough analysis of twenty-first-century Mars mission proposals, spacecraft operations, landing site selection and surface locations. Combining a wealth of data, facts and illustrations, most created for this volume, the atlas charts the history of modern Mars exploration in more detail than ever before. Like the first volume,

It has often been claimed, and frequently denied, that music derives some or all of its artistic value from the relation in which it stands to the emotions. This book presents and subjects to critical examination the chief theories about the relationship between the art of music and the emotions.

Sugarcane has garnered much interest for its potential as a viable renewable energy crop. While the use of sugar juice for ethanol production has been in practice for years, a new focus on using the fibrous co-product known as bagasse for producing renewable fuels and bio-based chemicals is growing in interest. The success of these efforts, and the development of new varieties of energy canes, could greatly increase the use of sugarcane and sugarcane biomass for fuels while enhancing industry sustainability and competitiveness. Sugarcane-Based Biofuels and Bioproducts examines the development of a suite of established and developing biofuels and other renewable products derived from sugarcane and sugarcane-based co-products, such as bagasse. Chapters provide broad-ranging coverage of sugarcane biology, biotechnological advances, and breakthroughs in production and processing techniques. This text brings together essential information regarding the development and utilization of new fuels and bioproducts derived from sugarcane. Authored by experts in the field, Sugarcane-Based Biofuels and Bioproducts is an invaluable resource for researchers studying biofuels, sugarcane, and plant biotechnology as well as sugar and biofuels industry personnel.

The nature of ethics has been the subject of much controversy and argument in recent decades. Theological Ethics and Global Dynamics tackles these various debates, offering a wide-ranging, comprehensive, and provocative statement of the nature of theological ethics in global times. Offers an accessible, lively, and provocative statement of the nature of moral philosophy and theological ethics in contemporary times. Tackles various perspectives on debates about distinctly Christian ethics. Argues that we need to reframe the arena in which moral questions are asked. Engages a range of positions, exploring distinctively modern issues such as moral and cultural relativism, globalization, problems of consumption and violence, and religious pluralism. Addresses the complexity of certain ethical decisions, which are difficult and far from clear-cut, and yet presents an ethical understanding which is both humane and deeply religious.

The Cats Who Crossed Over from Paris

Superior Reference Atlas, Michigan and the World

Inca a Siberian female cat is the main character in the story and she writes about her furry family â her brother, Fromage addicted to cheese who considers himself a cheese monger and her sister Cara, a gorgeous but timid Siamese. Inca an avid fan of Dr. House considers herself the leader of the troupe responsible for the well-being of the family. They own, according to Inca, Missy a young humanoid who has a well-established cheese shop in Paris. The story revolves around how Missy decides to move to London with her co-partners Jacques and Genevieve to run their new cheese shop cum cafÃ©. Can Fromage leave his pal Charlotte behind? The three cats accompany Missy where they meet Monk, a blue Russian cat and Terrance, a golden retriever owned by their famous neighbor, a detective named Solo, living in the same compound where they are housed in Kensington. Things start to get interesting when Monk tries to help their neighbor Polo whose mistress a formerly well-known opera singer pining for lost husband has her valuable diamond necklace stolen. Can Inca and her family assist Monk and Terrance to recover the diamond necklace and resolve Polo's problems?
