The battle of Wabash, or St. Clair's Massacre, was the greatest defeat of the American Army by Native American forces. The campaign opened in 1791, when an newly formed American Army, under the command of Revolutionary War hero, Arthur St. Clair, set off into the wilderness of Ohio in an effort to wrest control of the Northwest Territory from the various native tribes. Plagued by logistical problems, bad weather, and native ambushes, the expedition dragged on for months as the American army slowly eroded due to injury, sickness, and desertion. Then, on a cold November day, an allied Native army descended on the Americans. In the ensuing chaos, the Americans were slaughtered, taking over 90% casualties. In this book, author John F. Winkler, re-examines this one-sided victory, analyzing what the American's did wrong and how the Natives achieved a victory that they could never repeat.

Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

FRANK WOOD'S A-level Accounting: GCE Year 2 Alan Sangster This third edition of Frank Wood's A-level Accounting has been completely restructured to take account of the recent changes to the A-level syllabus and of developments in the field. The book builds on a first course in accounting, covering the second level of the A-level syllabus, and includes coverage of the more advanced aspects of company accounting, and the basics of management accounting. As well as providing instruction and practice in the preparation of accounting information, the text stresses the need for students to understand the business reasons behind accounting techniques. A continuing strength of the book is the large amount of

question material. Recent past questions from the main examining bodies are included as well as a useful guide to examination techniques at A-level. Key features

- *Comprehensive, detailed and thorough coverage of accounting.
- *Numerous worked examples, review questions and answers.
- *Contains past questions from the GCE boards.
- *Answers to approximately half of the review questions are provided at the end of the book.
- *Answers to the remaining questions are provided in the free Solutions Ma

Are you looking for an engaging, decision-focussed approach to financial reporting that encourages students to develop their interpretative skills? Building on the success of the first edition, this textbook takes a 'how, why, what' approach to financial accounting, interwoven in each chapter. From chapter one, students understand how financial information is prepared and presented, why it is prepared and presented in this way, and what the resulting financial information means for users. Designed for students taking a step beyond their introductory financial accounting training, the textbook equips them with all the key tools they will require when they enter professional practice. Reflective of the latest International Financial Reporting Standards (IFRS) and International Accounting Standards (IAS), this textbook delivers concise, clear explanations of all the key issues in accounting standards that students need to know. Content maps to professional accounting body syllabi, making this the perfect choice for accounting courses which offer exemptions. Chapters are rich with 3 types of examples to enhance understanding:

- Illustrative examples of real-world situations;
- Worked examples demonstrating the calculation of figures required for financial statements;
- Extracts from company annual reports demonstrate how the theory relates to financial reporting in practice.

More engaging, more balanced, and more applied than other offerings, this is exactly the textbook your financial reporting students need! An extensive Online Resource Centre accompanies the textbook and includes:

- For students: DT Solutions to all the end-of-chapter questions in the book including walkthroughs of solutions to key questions; DT Additional graded questions including professional body questions; DT Additional interpretative case studies based on real-life companies; DT A guided tour through a company report DT Specific study skills tips for accounting students
- For lecturers: DT Customisable PowerPoint slides DT Solutions to all the additional online questions DT Outline solutions to the interpretative case studies DT Group discussion questions

Frank Wood's Business Accounting Volume 1 13th edn

This book has been devised to enable students to attain knowledge and understanding in carrying out cash and credit transactions in accounting. It has been structured into a number of parts to enable students to undertake a particular topic to meet their specific needs. Whilst the book centres on the two main topics of Recording and Accounting for Cash and Credit Transactions, other topics, such as Introduction to double entry have been included, since competence is needed in the double entry system of book-keeping when undertaking accounting transactions. Each chapter in the book includes 'Student Activities' to enable students to assess their progress. Practice assessments have been devised to simulate the AAT Central Assessments and the ACCA Multi-choice assessments. These are designed for the student to gain a valuable indication as to their competence and readiness for undertaking either the AAT or ACCA assessments. Transaction Accounting for NVQ Level 2 is suitable for students studying the following courses: the Lead Body for Accounting NVQ Level 2, AAT Foundation NVQ Level 2, AAT Diploma in Accounting (for non-UK students), ACCA Accounting Technician Certificate and Edexcel Accounting at NVQ Level 2. It is also ideal for other accounting courses where a basic book-keeping knowledge and understanding is required.

Current evidence points to management accountants using traditional software (such as spreadsheets) for budgeting, ABC, balanced scorecards and other performance management techniques independent of, rather than integrated with Enterprise Resource Planning (ERP) Systems. While there has been some limited research on the effects of ERP systems on management accountants, this report provides a comprehensive analysis of the consequences of implementation of ERP systems for management accountants. • This report provides a theoretical basis for studying the impact of Enterprise Resource Planning (ERP) systems on management accounting and provides critical insights into the opportunities provided by ERP systems for the most efficient use of management accounting techniques. • The seven UK case studies of ERP implementations reveal the correlation between the success of the system implementation and the development of the role of management accountants in business partners thereby identifying the changes and skills required of management accountants. • The book provides guidance to management accountants on the changes they need to make in order to achieve the most from an ERP system implementation.
