Taken for a Ride

Bicycle Repair Manual

Here is the book that exposed the Daimler-Chrysler "merger of equals" as a bold German takeover of an industrial icon. Taken for a Ride reveals the shock waves felt around the world when Daimler-Benz bought Chrysler for \$36 billion in 1998. In a gripping narrative, Bill Vlasic and Bradley A. Stertz go behind the scenes of the defining corporate drama of the decade -- and in a new epilogue chart its chaotic aftermath.

Although its brown vans are on every block and its delivery service reaches more than 200 countries, UPS is among the world's most underestimated and misunderstood companies. For the first time, a UPS "lifer" tells the behind-the-scenes story of how a small messenger service became a business giant. Big Brown reveals the remarkable 100-year history of UPS and the life of its founder Jim Casey—one of the greatest unknown capitalists of the twentieth century. Casey pursued a Spartan business philosophy that emphasized military discipline, drab uniforms, and reliability over flash—a model that is still reflected in UPS culture today. Big Brown examines all the seeming paradoxes about UPS: from its traditional management style and strict policies coupled with high employee loyalty and strong labor relations; from its historical "anti-marketing" bias (why brown?) to its sterling brand loyalty and reputation for quality.

This book is an in-depth examination of the much needed process of “self” study known as self observation. We live in an age where the “attention function” in the brain has been badly damaged by TV and computers-up to 90 percent of the public under age 35 suffers from attention-deficit disorder! This book offers the most direct, non-pharmaceutical means of healing attention dysfunction. The methods presented here are capable of restoring attention to a fully functional and powerful tool for success in life and relationships. This is also an age when humanity has lost its connection with conscience. When humanity has poisoned the Earth’s atmosphere, water, air and soil, when cancer is in epidemic proportions and is mainly an environmental illness, the author asks: What is the root cause? And he boldly answers: Failure to develop conscience! Selfobservation, he asserts, is the most ancient, scientific, and proven means to develop this crucial inner guide to awakening and a moral life. This book is for the lay-reader, both the beginner and the advanced student of self observation. No other book on the market examines this practice in such detail. There are hundreds of books on self-help and meditation, but almost none on self-study via self-observation, and none with the depth of analysis, wealth of explication, and richness of experience which this book offers. Red Hawk, author of 5 collections of poetry, was the Hodder Fellow at Princeton University (1992-93) and is currently a full professor at the University of Arkansas, Monticello. He has practiced self-observation for over 30 years, under the guidance of the Gurdjieff Society of Arkansas, meditation master Osho Rajneesh, and spiritual teacher, Lee Lozowick.

Fault Code Manual

Who knew? In the fall of 1914, Canadians had earned a reputation as hard-drinking and poorly disciplined troops. No one expected much from them. Certainly not the British! All they wanted was a sharp salute as the men did what they were told.

Prime Minister Sir Robert Borden and his Minister of Militia and Defence, Colonel Sam Hughes, had different ideas. Borden had no choice! When England declared war, Canada was automatically at war too. Hughes, however, was eager to get his boys bloodied before the war was over. He would do anything in his power to get the Canadians into the fight. As the guns sounded in August, the first contingent gathered at Valcartier. Corps of Guide Captain James Llewellyn had trained for this moment, and he was not about to miss out. Gunner Paul Ryan had volunteered to escape his family and to impress a girl. Nursing Sister Samantha Lonsdale had answered the call because she needed a job, and going to war was an adventure. As the months rolled by, it was at Valcartier and Salisbury Plain that they helped forge the Canadian Expeditionary Force into one of the most formidable weapons of the First World War.
