Biblical notes and queries

Karen Armstrong explains how to practise the religion of compassion that her last books have preached. In November 2009 Armstrong and TED launched The Charter of Compassion, which states that "We call upon all men and women to restore compassion to the centre of morality and religion to cultivate an informed empathy with the suffering of all human beings — even those regarded as enemies." To date, it's been signed by over 48,000 people on the Web, including such figures as The Dalai Lama and Queen Noor, Dave Eggers and Meg Ryan. (www.charterforcompassion.org) Out of the ideals of that Charter has come this humane, accessible, indispensable short book for our times. From the Hardcover edition.

Fragmented Intimacy

This book examines how Western behavioral science--which has generally focused on negative aspects of human nature--holds up to cross-cultural scrutiny, in particular the Tibetan Buddhist celebration of the human potential for altruism, empathy, and compassion. Resulting from a meeting between the Dalai Lama, leading Western scholars, and a group of Tibetan monks, this volume includes excerpts from these extraordinary dialogues as well as engaging essays exploring points of difference and overlap between the two perspectives.

Ethical Issues, second edition

This invaluable interpretive tool, first published in 1937, is now available for the first time in a paperback edition specially aimed at students of Chinese Buddhism. Those who have endeavoured to read Chinese texts apart from the apprehension of a Sanskrit background have generally made a fallacious interpretation, for the Buddhist canon is basically translation, or analogous to translation. In consequence, a large number of terms existing are employed approximately to connote imported ideas, as the various Chinese translators understood those ideas. Various translators invented different terms; and, even when the same term was finally adopted, its connotation varied, sometimes widely, from the Chinese term of phrase as normally used by the Chinese. For instance, klésa undoubtedly has a meaning in Sanskrit similar to that of, i.e. affliction, distress, trouble. In Buddhism affliction (or, as it may be understood from Chinese, the afflicters, distressers, troublers) means passions and illusions; and consequently fan-nao in Buddhist phraseology has acquired this technical connotation of the passions and illusions. Many terms of a similar character are noted in the body of this work. Consequent partly on this use of ordinary terms, even a well-educated Chinese without a knowledge of the technical equivalents finds himself unable to understand their implications.

A Dictionary of the English Language

Physical healing and delivery from mental and emotional torment are impossible through our own power but not improbable with God. God is in the healing business, and business is good. Believers have access today to the same power that Jesus used to heal all who were afflicted by the Devil. All physical sickness and mental or emotional torment are from the Devil. Jesus came to destroy the works of the Devil and finished the job. We can co-labor with God to do the things Jesus did. Now is the time to change your way of thinking and believe the good news. The experiences described in this book are available to all believers. You can participate with God in miracles, signs, and wonders through the renewing of your mind. Take Jesus at His word, and amazing things will happen in your church, your work and your home. Why? Because He Said So.

Because He Said so (Second Edition)

Compassionomics

Here is the first major work that examines the benefits of applying social understanding to addiction. The author demonstrates how a social perspective shifts the paradigm from viewing a person in terms of "particles" to viewing a person in terms of relationships. This reorientation creates promising new opportunities for intervention. The book discusses recent advances in theories on community capacity building, resilience, and social ecology alongside their practical applications. Written in an engaging style, the book features numerous vignettes, key points, and illustrations that help you apply the material in your own practice.

knitting book unlike any other. The 20 original-design projects included in this book range from small accessory items and gifts to wearable garments-all of which include personal ritual in their creation or use. Each project is inspired by an element of the world around us, based on a contemplative theme drawn from Shambhala Buddhism and Eastern arts or, in some cases, Western notions of the magical and mindful.

This book is designed to help religious leaders, professional counselors, concerned family members, and individuals offer viable, appropriate levels of care to someone with an addiction problem, one who refuses to accept assisted-living conditions or comply with medical advice. Using tools in this book can increase awareness of the issue and acceptance of recovery. Learn how to avoid compassion fatigue while using healthy personal boundaries. Because these tools are likely used in an emotional setting, the least emotionally involved helper or leader is the best person for attempting an organized intervention. Concerned others may be able to find serenity after going through this process. This book

teaches a mini-intervention or one-on-one short meeting as a setup for a full-blown maxi-intervention later, if necessary. If the maxi-intervention is not successful at first, next steps and consequences are taught. These steps are in keeping with Jesus instructions on how to approach someone with an issue. This book compiles thirty-nine years of studying and experience of achieving compliance with the best of care for someone refusing help with a serious issue. In using these steps and illustrations, 90 percent of the full maxi-interventions result in beginning the first stages of treatment or recovery.

For the second edition this popular collection on contemporary ethical issues has been expanded to nine sections. Abortion and euthanasia are now given expanded coverage, and there are new sections as well on assisted reproduction and commodification, and on ethics and the use of violence. The book is primarily composed of pieces by philosophers, chosen both for their intrinsic value and for their accessibility to students. But where relevant the collection also includes legal documents and non-philosophical writings that help to set issues in context for Canadian students. In all, Ethical Issues now includes sixty-six selections, thirty-nine of which are new to this edition. The editor has also provided extensive introductory material and questions for discussion.

Special Unconditional Grace in order to honourable union. Second edition

This revised edition of *The Family Metaphor in Jesus' Teaching* examines the family metaphors for God (Father) and for believers ("children," "brothers") that Jesus chose to use. Jesus not only held up a child as an example of receptivity, but he defended actual children, warning against despising "one of these little ones." Using current discussions of the "equal-regard family" and of the importance of "human fathering," Stephen Finlan explores how the gospel entails a changed model of parenting and of marriage and a new approach to spiritual growth.

Centering on five particular situations of suffering--loss, illness, violence, fear, and failure--this book suggests ways in which a pastor can preach to parishioners who are experiencing trauma. Three sample sermons illustrate how to preach on God's gracious activity, while avoiding "psychologizing the text" and reducing the gospel to cheap therapy for individual problems.

A Spirituality of Compassion

What would be the practical implications of caring more about others than about yourself? This is the radical theme of this extraordinary set of instructions, a

training manual composed in the fourteenth century by the Buddhist hermit Ngulchu Thogme, here explained in detail by one of the great Tibetan Buddhist masters of the twentieth century, Dilgo Khyentse. In the Mahayana tradition, those who have the courage to undertake the profound change of attitude required to develop true compassion are called bodhisattvas. Their great resolve—to consider others' needs as paramount, and thus to attain enlightenment for the sake of all living creatures—carries them beyond the limits imposed by the illusions of "I" and "mine," culminating in the direct realization of reality, transcending dualistic notions of self and other. This classic text presents ways that we can work with our own hearts and minds, starting wherever we find ourselves now, to unravel our small-minded preoccupations and discover our own potential for compassion, love, and wisdom. Many generations of Buddhist practitioners have been inspired by these teachings, and the great masters of all traditions have written numerous commentaries. Dilgo Khyentse's commentary is probably his most extensive recorded teaching on Mahayana practice. For more information about the author, Dilgo Khyentse, visit his website at www.shechen.org.
