A New York Times Notable Book of 2017 Louise Erdrich, the New York Times bestselling, National Book Award-winning author of *LaRose* and *The Round House*, paints a startling portrait of a young woman fighting for her life and her unborn child against oppressive forces that manifest in the wake of a cataclysmic event. The world as we know it is ending. Evolution has reversed itself, affecting every living creature on earth. Science cannot stop the world from running backwards, as woman after woman gives birth to infants that appear to be primitive species of humans. Twenty-six-year-old Cedar Hawk Songmaker, adopted daughter of a pair of big-hearted, open-minded Minneapolis liberals, is as disturbed and uncertain as the rest of America around her. But for Cedar, this change is profound and deeply personal. She is four months pregnant. Though she wants to tell the adoptive parents who raised her from infancy, Cedar first feels compelled to find her birth mother, Mary Potts, an Ojibwe living on the reservation, to understand both her and her baby's origins. As Cedar goes back to her own biological beginnings, society around her begins to disintegrate, fueled by a swelling panic about the end of humanity. There are rumors of martial law, of Congress confining pregnant women. Of a registry, and rewards for those who turn these wanted women in. Flickering through the chaos are signs of increasing repression: a shaken Cedar witnesses a family wrenched apart when police violently drag a mother from her husband and child in a parking lot. The streets of her neighborhood have been renamed with Bible verses. A stranger answers the phone when she calls her adoptive parents, who have vanished without a trace. It will take all Cedar

has to avoid the prying eyes of potential informants and keep her baby safe. A chilling dystopian novel both provocative and prescient, *Future Home of the Living God* is a startlingly original work from one of our most acclaimed writers: a moving meditation on female agency, self-determination, biology, and natural rights that speaks to the troubling changes of our time.

God and Caesar, a Christian Approach to Social Ethics

Jesus said, Render therefore to Caesar the things that are Caesar's, and to God the things that are God's, thereby approving (at least for this age) the idea of human government. The hard part is deciding what actually belongs to Caesar and what should be reserved exclusively for God. How Christians are to understand and apply Jesus' words has been a point of controversy since the days of the apostles. Many difficult issues that continue to trouble Christians are dealt with in this book: -Is there a biblical pattern for human government? -What should we as Christians expect from government? -Should Christians participate in government? -What does the Bible have to say about issues related to government such as wealth and poverty, left and right, crime and punishment, the family, education, censorship and pornography, civil disobedience, liberation theology, military service? -Do some systems of government follow biblical teaching more closely than others? What about American democracy - how does it measure up? Would a socialist or redistributive

John Eidsmoe brings a wealth of biblical insight, theological reflection, and practical experience to bear on the crucial issue of how biblical Christianity and politics relate. Here at last is a book that simply and clearly shows how we really can give both God and Caesar their due.

In the late 1970s when Mao's Cultural Revolution ushered in China's reform era, religion played a small role in the changes the country was undergoing. There were few symbols of religious observance, and the practice of religion seemed a forgotten art. Yet by the new millennium, China's government reported that more than 200 million religious believers worshiped in 85,000 authorized venues, and estimates by outside observers continue to rise. The numbers tell the story: Buddhists, as in the past, are most numerous, with more than 100 million adherents. Muslims number 18 million with the majority concentrated in the northwest region of Xinjiang. By 2000 China's Catholic population had swelled from 3 million in 1949 to more than 12 million, surpassing the number of Catholics in Ireland. Protestantism in China has grown at an even faster pace during the same period, multiplying from 1 million to at least 30 million followers. population—behind only the United States. In addition, a host of religious and quasi-spiritual groups and sects has also sprouted up in virtually every corner of Chinese society. Religion's dramatic revival in post-Mao China has generated tensions between the ruling Communist Party state and China's increasingly diverse population of religious adherents. Such tensions are rooted in centuries-old governing practices and reflect the pressures of rapid modernization. The state's response has been a mixture of accommodation and repression, with the aim of preserving monopoly control over religious organization. Its inability to do so effectively has led to cycles of persecution of religious groups that resist the party's efforts. American concern over official acts of religious persecution has become a leading issue in U.S. policy toward China. The passage of the 1998 International Religious Freedom Act, which institutionalized concern over religious freedom abroad in U.S. foreign policy, cemented this issue as an item on the agenda of U.S.-China relations. *God and Caesar in China* examines China's religion policy, the history and growth of Catholic and Protestant churches in China, and the implications of church-state friction for relations between the United States and China, concluding with recommendations for U.S. policy. Summary of God, Caesar and the Freedom of Religion by Elizabeth Warren November 17, 2004 This book is a distillation of the current practices of 191 national governments concerning their respect for the Human Right of freedom of religion. Its focus on the relationships between governments and religions reveals the relative political power of both. Religions are vital to societies. They give people a way to express their responses to the divine impulse. They form the basis for social order and morality. Since 1948 when the Universal Declaration of Human Rights was approved by the United Nations, a majority of the nations of the world have approved it. The question presented by this book is, how well do the nations respect the right in practice? While a majority of the governments do respect the freedom of religion, some restrict the right of people to practice their religion through laws and administrative practices. Moreover, there are times when inter-religious rivalries get in the way of free expression of religion and lead to conflicts. Sometimes a benign religion

comes to be used by militants who badly distort its message. Some religions become seekers after power, either with respect to each other or with respect to their governments. In at least one case, religion and government are one. The book is different from others that discuss freedom of religion in that it classifies 191 countries according to their governments' respect for freedom of religion in practice, using U. S. State Department reports and other sources. The focus of the book is political, not theological.

An eminent religious leader and political activist considers the future of religious freedom throughout the world Father Robert F. Drinan--priest, scholar, lawyer, politician, activist, and ethicist--has spent his life working to strengthen human rights. In this important book, Father Drinan explores the state of religious freedom worldwide, arguing that international law and legal institutions have not gone far enough to protect religious freedom. The international community, says Father Drinan, has

been slow to recognize the urgent need of balancing the requirements of a pluralistic society with the demands of religious freedom. Despite numerous proclamations from the United Nations and from individual nations about the importance of religious freedom, says Father Drinan, there is still no covenant, legally binding instrument, or world tribunal to monitor freedom of religion. Drinan explores the status of religious freedom in certain Christian, Muslim, Jewish, and Communist societies whose doctrines may promote intolerance. And he asserts that the silence of international law allows nations to continue to punish persons who practice a faith viewed unfavorably by the government.

Through the available patristic writings Caesar and the Lamb focuses on the attitudes of the earliest Christians on war and military service. Kalantzis not only provides the reader with many new translations of pre-Constantinian texts, he also tells the story of the struggle of the earliest Church, the communities of Christ at the margins of power and society, to bear witness to the nations that enveloped them as they transformed the dominant narratives of citizenship, loyalty, freedom, power, and control. Although Kalantzis examines writings on war and military service in the first three centuries of the Christian Church in an organized manner, the ways earliest Christians thought of themselves and the state are not presented here through the lens of antiquarian curiosity. With theological sensitivity and historical

The Abingdon New Testament Commentaries series offers compact, critical commentaries on the writings of the New Testament. These commentaries are written with special attention to the needs and interests of theology students, but they will also be useful for students in upper-level college or university settings, as well as for pastors and other church leaders. In addition to providing basic information about the New Testament texts and insights into their meanings, these commentaries exemplify the tasks and procedures of careful, critical exegesis. In this volume, Robert C. Tannehill focuses on the significance of the Gospel of Luke in its final form for its original audience. The evangelist's literary genius, frequently displayed in multivalent diction and imagery, finds in Robert Tannehill a faithful and sensitive interpreter. Social-scientific criticism, use of cultural anthropology, and frequent correction of renderings in the New Revised Standard Version appear without undue intrusiveness. Why did Christianity begin, and why did it take the shape it did? To answer this question -- which any historian must face -- renowned New Testament scholar N. T. Wright focuses on the key points: what precisely happened at Easter? What did the early Christians mean when they said that Jesus of Nazareth had been raised from the dead? What can be said today about this belief? This book, third in Wright's series *Christian Origins and the Question of God*, sketches a map of ancient beliefs about life after death, in both the Greco-Roman and Jewish worlds. It then highlights the fact that the early Christians' belief about the afterlife belonged firmly on the Jewish spectrum, while introducing several new mutations and sharper definitions. This, together with other features of early Christianity, forces the historian to read the Easter narratives in the gospels, not simply as late rationalizations of early Christian spirituality, but as accounts of two actual events: the empty tomb of Jesus and his "appearances." How do we explain these phenomena? The early Christians' answer was that Jesus had indeed been bodily raised from the dead; that was why they hailed him as the messianic "son of God." No modern historian has come up with a more convincing explanation. Facing this question, we are confronted to this day with the most central issues of the Christian worldview and theology.

military and economic power in the world, the leader in the arts and sciences of civilization. Christian Europe, a remote land beyond its northwestern frontier, was seen as an outer darkness of barbarism and unbelief from which there was nothing to learn or to fear. And then everything changed, as the previously despised West won victory after victory, first in the battlefield and the marketplace, then in almost every aspect of public and even private life. In this intriguing volume, Bernard Lewis examines the anguished reaction of the Islamic world as it tried to understand why things had changed--how they had been overtaken, overshadowed, and to an increasing extent dominated by the West. Lewis provides a fascinating portrait of a culture in turmoil. He shows how the Middle East turned its attention to understanding European weaponry and military tactics, commerce and industry, government and diplomacy, education and culture. Lewis highlights the striking differences between the Western and Middle Eastern cultures from the 18th to the 20th centuries through thought-provoking comparisons of such things as Christianity and Islam, music and the arts, the position of women, secularism and the civil society, the clock and the calendar. Hailed in The New York Times Book Review as "the doyen of Middle Eastern studies," Bernard Lewis is one of the West's foremost authorities on Islamic history and culture. In this striking volume, he offers an incisive look at the historical relationship between the Middle East and Europe.

Abingdon New Testament Commentaries: Luke

God and Caesar

When we observe a tension between Jesus and Caesar, we acknowledge that a fundamental tension remains at the heart of Christianity. When this tension is poorly understood, Christians face disastrous consequences. The tension is not between religion and atheism or secularism. Nor is it between organized religion and personal spirituality. The tension is located within the heart of Christianity itself because it is a radical conflict between true and false forms of Christian faith. Jesus embodies and exposes this tension in ways that illuminate both how God is with us and what must change for a world that participates in God's life. This book serves as an indictment of the pieties of empire, whether government, corporate or any other forms of the faith that dominate and exclude. One form of Christian faith (Jesus) versus another form of Christian faith (Caesar). Whom and what will we trust and serve? What did Jesus disclose to the religious, economic, and political worlds of Israel and Rome? This tension between true and false forms of religion is also deeply rooted in the Jewish traditions. The Hebrew prophets were gravely concerned about established forms of Jewish religion that appear to be respectable but result in oppression. The prophet Isaiah hears the voice of God pronouncing judgment: "You serve your own interest on your fast day, and oppress all your

workers" (Isaiah 58:3). True religion loosens "the bonds of injustice" (Isa 58:6) while self-serving religion is false religion. This tension between true religion and false religion is a critical opportunity for those who would follow Jesus instead of "Caesar."

The freedom to pursue happiness is one of the fundamental human rights. Negative impacts of this freedom in our society are terrorism and crimes. Life is very good shows the solutions to daily life's problem as a way to reducing this problem in addition to police crime fighting efforts. Proper tapping of revelation and scientific knowledge is the key. New life's goal in a spiritual rebirth is the foundation of this objective. Discover spectacular truth to solve life's problem. Disaster in life is avoidable, be wise. Dreams are given to us by God as source of wisdom towards meeting life's challenges. Dreams occur more while asleep than awake, in the form of trances. There are basic principles needed for correct interpretation of dream information like, objectivity, contrast, symbolism, and timing. Action on dream leads to a solution. Prayer comes in handy as a means of dealing with opposition to one's dream and as a flow of thanks to God for his wisdom. God planned life that way. Three years after this book's publication, three different experts for American Universities, confirmed that dream occurs sometimes as an integral process of sleep. New York Times bestselling author and Bible expert Bart Ehrman reveals how Jesus's divinity became dogma in the first few centuries of the early church. The claim at the heart of the Christian faith is that Jesus of Nazareth was, and is, God. But this is not what the original disciples believed during Jesus's lifetime—and it is not what Jesus claimed about himself. *How Jesus Became God* tells the story of an idea that shaped Christianity, and of the evolution of a belief that looked very different in the fourth century than it did in the first. A master explainer of Christian history, texts, and traditions, Ehrman reveals how an apocalyptic prophet from the

backwaters of rural Galilee crucified for crimes against the state came to be thought of as equal with the one God Almighty, Creator of all things. But how did he move from being a Jewish prophet to being God? In a book that took eight years to research and write, Ehrman sketches Jesus's transformation from a human prophet to the Son of God exalted to divine status at his resurrection. Only when some of Jesus's followers had visions of him after his death—alive again—did anyone come to think that he, the prophet from Galilee, had become God. And what they meant by that was not at all what people mean today. Written for secular historians of religion and believers alike, *How Jesus Became God* will engage anyone interested in the historical developments that led to the affirmation at the heart of Christianity: Jesus was, and is, God.

Furthermore, this read sends an eye-opening message to its readers. Mr. Asamoah-Yaw explains that faith in anything outside the self is demonstrably not dependable, not predictable and in fact very counter-productive. Religious faith may temporally increase one's comfort levels, but it freezes the knowledge of the self and therefore prevents humans to face head-on challenges of the practical world. For the author, faith outside the self encourages total self-submission and hinders one from discovering one's innate powers.

Publisher description: Should the Australian Constitution be given a religious clause or should it not? The question gave scope for almost endless wrangles to the founding fathers of Australian federation. Whether their interests were chiefly political or religious, they argued vociferously whether God should be recognized in the Preamble and whether He should appear in Section 116; and if so in what form He should be acknowledged. The issue, confused, complex and partisan enough already, was further complicated by the wider questions, first raised by Tasmanian Andrew Inglis Clark, concerning relations in general between the churches and the coming Commonwealth. This book is about the clashes between church and state groups and personalities, often mainly interested in making personal gains, what decisions they made, and how the decisions came about.
