The Arian Christian Bible reflects the beliefs of Arian Christians. (The word 'Arian' should not be confused with the with the word 'Aryan' or racist 'Aryan' beliefs) Arian Christians believe that Jesus' highest teachings are contained in the New Testament in Jesus' own words as reported by the Gospels of Matthew, Mark and Luke (The Arian Christian Bible). The

namesake of these beliefs, St Arius of Alexandria, rejected the politically generated divinity of Jesus that was imposed by the Council of Nicaea, which was convened at the behest of Roman Emperor Constantine I in 325 AD. The purpose of this Council was to bring the structure of the Christian Church into conformity with the structure of the Roman Empire as the State Religion, that is; one religion, the Catholic (universal) Church; one theology, the Holy Trinity; and one religious leader, the Pope, and to form a basis for the suppression of other brands of Christianity. Arius opposed these measures. The Arian Christian Bible is a 'must have' for all true Christians.

Throughout the Middle Ages, sacred Christian art had two objectives: to express veneration for God and to provide illustrative lessons on the Christian faith to a largely illiterate population. Continuing in the spirit of the other books in this series, Old Testament Figures in Art compiles entries on key figures and events in the Old Testament, beginning with the Pentateuch, then drawing from the historical books, the books of wisdom and poetry, and, finally, the prophetic books. The vivid illustrations depict Old Testament scenes that occur most frequently as iconographic prototypes in Western art.

Kingdom of God by living a life of miracles. This book is not only a companion for the "journey", but also provides a meeting place for children to encounter God's presence that will transform their hearts and lives.

### **The Gospel in the Monuments of Iconography, Mostly Byzantine and Russian**

In viewing the great works of sacred Western art, many people find difficulty in understanding the stories and identifying the figures portrayed in them. This informative guide decodes these often-mysterious scenes and reveals a vibrant world of images from the Christian tradition for museum visitors, students, and art enthusiasts alike. Gospel Figures in Art examines depictions of stories and figures from both the New Testament's canonical gospels (the books of Matthew, Mark, Luke, and John) and the apocryphal gospels (early Christian writings excluded from the New Testament because of their unsubstantiated authorship), which served as rich sources of inspiration for medieval and Renaissance artists. Illustrated with masterpieces from many of the world's premier museums, the art works provided as visual references are carefully analyzed. Sections are devoted to the principal figures in the life of Jesus Christ-his family and the evangelists-and to the major biographical turning points: his birth and baptism, his public life, the miracles and good deeds he performed, his crucifixion, resurrection, and the events that followed. This indispensable resource makes the icons and narratives of sacred art come to life.

The position of this book is in broad sympathy with the school of thought that sees "faith seeking understanding." It is the biblical gospel that saves, and biblical and theological truths need to be understood in order for the gospel to be saved from distortion. Apologetic arguments are secondary, and should be derived from the gospel itself. In other words, apologetic

arguments must not be detached and isolated from the faith that is being defended. Defending the faith assumes there is a faith that is being defended. The objective faith is logically prior to its own defense. The first four chapters of this book trace out the flow and logic of the gospel. The remaining chapters examine some of the arguments that are currently used by apologists in the defense of the faith. This book only 'saves' the gospel to the extent that it accurately articulates the saving gospel of Jesus Christ.

This volume examines the ways that sovereign rulers have employed well-defined symbols, attributes, and stereotypes to convey their power to their subjects and rivals, as well as to leave a legacy for subsequent generations to admire. Legendary rulers from antiquity such as Alexander the Great, Julius Caesar, and Constantine have been looked to as models

for their display of imperial power by the rulers of later eras. From medieval sovereigns such as Charlemagne and France's Louis IX to the tsars of Russia and the great European royal dynasties of the Hapsburgs, the Bourbons, and the Tudors, the rulers of each period have appropriated and often embellished the emblems of power employed by their predecessors. Even the second-tier lords who ruled parts of France and Italy during the Renaissance, such as the dukes of Burgundy, the Gonzaga of Mantua, and the Medici of Florence became adept at manipulating this imagery. The final chapter is reserved for Napoleon I, perhaps the ultimate master of symbolic display, who assumed the attributes of Roman emperors to project an image of eternal and immutable authority. The author examines not only regal paraphernalia such as crowns, scepters, thrones, and orbs, but also the painted portraits, sculptures, tapestries, carved ivories, jewelry, coins, armor, and, eventually, photographs created to display their owner's sovereign power, a vast collection of works that now forms a significant portion of the cultural heritage of Western civilization.

Formerly known by its subtitle "Internationale Zeitschriftenschau für Bibelwissenschaft und Grenzgebiete," the "International Review of Biblical Studies" has served the scholarly community ever since its inception in the early 1950's. Each annual volume includes approximately 2,000 abstracts and summaries of articles and books that deal with the Bible and related literature, including the Dead Sea Scrolls, Pseudepigrapha, Non-canonical gospels, and ancient Near Eastern writings. The abstracts - which may be in English, German, or French - are arranged thematically under headings such as e.g. "Genesis," "Matthew," "Greek language," "text and textual criticism," "exegetical methods and approaches," "biblical theology," "social and religious institutions," "biblical personalities," "history of Israel and early Judaism," and so on. The articles and books that are abstracted and reviewed are collected annually by an international team of collaborators from over 300 of the most important periodicals and book series in the fields covered.
