A Field Guide to Wildflowers of the Sandhills Region

“Impey combines the vision of a practicing scientist with the voice of a gifted storyteller.”—Dava Sobel In this vibrant, eye-opening tour of milestones in the history of our universe, Chris Impey guides us through space and time, leading us from the familiar sights of the night sky to the dazzlingly strange aftermath of the Big Bang. What if we could look into space and see not only our place in the universe but also how we came to be here? As it happens, we can. Because it takes time for light to travel, we see more and more distant regions of the universe as they were in the successively greater past. Impey uses this concept—“look-back time”—to take us on an intergalactic tour that is simultaneously out in space and back in time. Performing a type of cosmic archaeology, Impey brilliantly describes the astronomical clues that scientists have used to solve fascinating mysteries about the origins and development of our universe. The milestones on this journey range from the nearby to the remote: we travel from the Moon, Jupiter, and the black hole at the heart of our galaxy all the way to the first star, the first ray of light, and even the strange, roiling conditions of the infant universe, an intense and volatile environment in which matter was created from pure energy. Impey gives us breathtaking visual descriptions and also explains what each landmark can reveal about the universe and its history. His lucid, wonderfully engaging scientific discussions bring us to the brink of modern cosmology and physics, illuminating such mind-bending concepts as invisible dimensions, timelessness, and multiple universes. A dynamic and unforgettable portrait of the cosmos, *How It Began* will reward its readers with a deeper understanding of the universe we inhabit as well as a renewed sense of wonder at its beauty and mystery.

I put a fresh spin on budget travel, showing you how to see the best for less and how to see it in a more authentic way-the way the locals do. Instead of spending \$300 a night for a chain hotel, why not stay at the Wabi-Sabi House on Maui where you can sleep in an enclosed, tranquil treehouse for just \$70 a night, or bed down in an oceanfront condo on Kauai for \$105 a night? On Oahu, eat a Hawaiian plate lunch at the Rainbow Drive-In for under \$4, so you can splurge on dinner. Try Iron Chef champion Seiya Masahara's specialty-Japanese comfort food known as oden, a hotpot of dashi (broth) with long-simmered vegetables-at Hakkei. Let me show you the "other" Hawaii-the one only insiders know about. Listen to slack-key guitar jam sessions on Oahu or volunteer to work with the Hawaii Wildlife Fund on Maui to help endangered sea turtles get a healthy start on life. These are only a few of the great ways to get closer to the culture of Hawaii. Read on for more!
