African Books in Print

This volume presents a catalogue of over 2000 doctoral theses by Africans in all fields of mathematics, including applied mathematics, mathematics education and history of mathematics. The introduction contains information about distribution by country, institutions, period, and by gender, about mathematical density, and mobility of mathematicians. Several appendices are included (female doctorate holders, doctorates in mathematics education, doctorates awarded by African universities to non-Africans, doctoral theses by non-Africans about mathematics in Africa, activities of African mathematicians at the service of their communities). Paulus Gerdes compiled the information in his capacity of Chairman of the African Mathematical Union Commission for the History of Mathematics in Africa (AMUCHMA). The book contains a preface by Mohamed Hassan, President of the African Academy of Sciences (AAS) and Executive Director of the Academy of Sciences for the Developing World (TWAS). (383 pp.)

Papers

Promoting Social Cohesion Through Education

This selection of papers presented at the 20th Comparative Germanic Syntax Workshop brings together contributions that address issues in syntactic predication and studies in the nominal system, as well as papers on data from the history of English and German. Showing a strong comparative commitment, the contributions include studies on previously neglected data on case and predicative structures in Icelandic and other Germanic languages, on the (non-)syntactic distinction of predicative vs. argument NP/DPs, on quirky V2 in Afrikaans, the pronominal system, resumptive pronouns with relative clauses in Zurich German, as well as historical papers on word-formation processes, on auxiliary selection in relation to counter factuality, and on the development of VO-OV orders in the history of English. This volume presents a wide range of studies that enrich both the theoretical understanding and the empirical foundation of comparative research on the Germanic languages.

Occasional Paper

This delightful little story tells of a young girl's time with her grandmother as she relates a legend of how a mischievous little white fox, with all his grand adventures, became the red fox we all know today. How the Fox got His Color may well become an all-time children's classic and a perfect book for the young reader. English as a second language students will enjoy it as a valuable study tool, as well as those learning a foreign language. Spanish and Portuguese have an estimated 85% to 90% vocabulary overlap. Most people who can read one can read the other. Try it today! <http://www.creationsbycrouch.com> Afrikaans is a West Germanic language spoken in South Africa, Namibia, and to a lesser extent, Botswana and Zimbabwe. It is a daughter language of Dutch, and was previously referred to as "Cape Dutch." With about 7 million native speakers in South Africa, or 13.5% of the population, it is the third-most-spoken language in the country. Estimates of the total number of Afrikaans speakers range between 15 and 23 million.

Elitism and Meritocracy in Developing Countries

This volume has three foci - the rationale for considering how aspects of education can affect social cohesion; case studies that review particular country experiences with curricula and textbooks; and practical guidelines and applications to help

countries improve areas of education.

This report is part of the Languages in Contact and Conflict in Africa Research and Development Programme ("LiCCA"). which, in the words of Dirven and Webb (1993) was initiated to address one of the central language related problems of modern Africa, viz. the conflict between the interests of the general citizenry of each state and the educationally, culturally, politically and economically empowered languages of these states, generally the ex-colonial languages.

Fiel's Child

An African Thunderstorm & Other Poems

The gripping third book in the internationally bestselling Thomas Prescott series. Intimate in scale, but grandly outfitted, the luxury cruise liner The Afrikaans hosts no more than 208 pampered guests, among them; former FBI contract agent Thomas Prescott. When the ship is overtaken by African pirates who are demanding the U.S. send medical relief to a small Zulu village in South Africa, it's up to Prescott to keep the hostages alive. As the U.S. tries to figure out how to combat the terrorists' plot from the outside, World Health Organization doctor,

Gina Brady, undertakes the impossible task of rescuing three children from the secluded Zulu village. With the deadline drawing near, Prescott and Brady must race against the clock to discover the truth; is it medical relief the pirates seek or a two billion dollar ransom from one of the richest men in the world? Or could the implications be so profound, and the stakes so high, a war hangs in the balance... Comparative Studies in Germanic Syntax

A child wanders too far into the Knysna Forest he never returns. Nine years later government officials working on a census find a white child living with a Coloured family in the mountains beyond the forest. They take him away from the stricken Fiela, who has brought him up as her son, and give him back to his 'original' family. Stunned and helpless, Benjamin waits for Fiela to reclaim him. But, powerless against authority, Fiela never comes. Benjamin has to grow up before he can go in search of the truth
