YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious

collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

This is a book about getting real. It tells the truth about busyness and peace in a way that can help us women change our lives. Until quite recently, it was

politically incorrect to mention that balancing work and family, while having any time left to nurture our spirit, was a tall order. Only now, when a second generation of women is entering the ranks of the family-work-spirituality jugglers, do we feel secure enough to stop for a minute and say, "Wow, this is a hard act to pull off." Sometimes we're tired, stressed out, and in danger of shutting down and losing our hearts. But if we share the truth of our lives, we can find a better way. Inner Peace for Busy Women will show you how to stop resisting your life and start living in the center of the cyclone, where it's always peaceful. Among other things, in this book you'll learn how to say no without feeling guilty, make peace with the past, be peaceful even in circumstances where happiness is not an option, follow your inner guidance, and be a beautiful mother, sister, aunt, daughter, lover, spouse, and friend—all by being your best, authentic self.

Running on my knees is about making decisions and choices and the affect those decisions and choices have on your life and the lives of other people. Decisions and choices are powerful and should not be made in haste or under duress. They should never be made without careful thinking or having a plan of action. Whatever the decision or choice you make, it's life-changing for better or for worse; maybe you will find out the moment the decision is made or perhaps you discover the effects later. Either way, decisions change lives and alter paths.

A saga of the US Navy from the Barbary War of 1803 through the War of 1812. In 1803, a young man joins the crew of what will become the most famous frigate

of the early US Navy - USS Constitution. From the sands of North Africa during the first Barbary War, across the aquamarine waters of the Caribbean, we follow the exploits of a young American seaman, Alain de Noux. At the outbreak of the War of 1812, Captain de Noux takes the ship he personally designed to sea to fight the mightiest navy in the world - Britain's Royal Navy. USS Relentless is the newest, largest, fastest frigate in the world, her hull coated in resin that allows her to fly across the waves, her radically-designed sails and special chute-sail that acts as a spinnaker pulls the big frigate along at nearly eighteen knots. Armed with weapons far in advance of its time - steel cannons with rifled barrels that propel shells farther than any cannon on any ship, along with special binoculars that aid lookouts to see at night, USS Relentless is a most lethal ship. The ship also carries high caliber shells that explode on contact and special carcass rounds filled with white phosphorous, consuming any ship it strikes in flames. USS Relentless challenges all ships, including the huge British ships-of-the-line, contemporary battleships. Terrorizing the Atlantic for months, Relentless is sent on a more important mission, a mission with no return ticket. She will fly the American flag into combat for the first time across the Indian Ocean, attacking the fat merchant ships of Britain's lucrative East India Company. America does not have the means to invade Britain, but USS Relentless can disrupt her most profitable trade routes. Alain finds success in war and finally meets the woman that will change his world, if only for a short time. In his heart, he knows he will die a young man. It is a race. How many ships can the great raider

destroy or capture before the Royal Navy's fleet can destroy her? Along the shoals of the Laccadive Islands, In what the world will call The Battle of the Arabian Sea, USS Relentless must fight an entire fleet in order for Alain to get back to the love of his life.

An Essay at Removing National Prejudices Against a Union with Scotland

This volume continues the stories of the Israelite patriarchs and prophets who figured in Volume II, as well as of the semi-mythical rulers of ancient Iran. In addition to biblical, Qur'anic, and legendary accounts about Moses, Aaron, and the exodus of the Children of Israel from Egypt; of the Judges, Samuel and Ezekiel; and of Saul, David, and Solomon, it includes a version of Iranian prehistory that emphasizes the role of

Manuchihr (Manushihr in Arabic) in creating the Iranian nation and state. Woven into these accounts are stories about figures belonging to the very earliest literatures of the Middle East: the mysterious al-Khidwith echoes from the epic of the Sumero-Akkadian hero Gilgamesh; the legendary exploits of Dhu l-Qarnayn, mirroring the ancient romance of Alexander; and incorporating elements about the encounter of King Solomon and Bilqis, the Queen of Sheba, of Jewish midrash and South Arabian lore. The Islamic empire was at its political and economic height during the tenth and eleventh centuries, and a new civilization was forged at the caliphal court and in society at large. One of the literary triumphs of that civilization was this rich and colorful tapestry belonging to the Islamic genre of "tales of the prophets." The tales in this volume show how threads from all the ancient civilizations of the Middle East were incorporated, absorbed, and Islamized in the brilliant fabric of that new civilization.

Those not learned in the economic arts believe that economics is either solely or essentially concerned with commercial relations. And, so it was, originally. Then, in the second half of the 20th century, economists began applying their minimalist but sturdy tools to other human activities such as marriage, child-bearing, crime, religion and social

groups. In this spirit, the Research Handbook on the Economics of Family Law gives us a series of original essays by distinguished scholars in economics, law or both. The essays represent a variety of approaches to the field. Many contain extensive surveys of the literature with respect to the particular question they address. Some employ empirical economics, others are more narrowly legal. They have in common one thing: each scholar employs a core economic tool or insight to shed light on some aspect of family law and social institutions broadly understood. Topics covered include: divorce, child support, infant feeding, abortion access, prostitution, the decline in marriage, birth control and incentives for partnering. This comprehensive and enlightening volume will be a valuable reference for those interested in law and economics generally and family law in particular.
