This new text presents calculus with solid mathematical precision but with an everyday sensibility that puts the main concepts in clear terms. It is rigorous without being inaccessible and clear without being too informal--it has the perfect balance for instructors and their students.

Ending Domestic Violence

Manual of accounting - IFRS 2017

Domestic violence still remains the most prevalent form of violence against women in the United States, in spite of media campaign attempts to educate the public about the issue. Moreover, there have been surprisingly few scientific surveys conducted to compile the knowledge base and attitude data needed if more effective primary prevention media education programs are to be developed. This volume, based on public opinion surveys carried out between 1992 and 1996, fills the gap in the literature. Following an overview of the battered women's movement, the authors examine both current public perception of the problem and intervention issues.

Calculus (Paper)

The Cook and Housewife's Manual, by Margaret Dods

Prior to the development of a simple test called the Apgar score, many newborn babies missed receiving the urgent care they needed at birth. Dr. Virginia Apgar came up with the Apgar score to help these newborns by rating them in a number of different health areas. The savior of countless young lives, Virginia Apgar is hailed as a legend, a trailblazer, and an inventor. Readers delve into the riveting story of a medical legend who inspired women doctors to succeed at a time when society did not value the contributions of women in the work force.
