Why did I write this book? To get you to buy it of course, look at the subject! In all seriousness this little guide, if you use it properly, will get you selling your own books - that you have all the rights to - to thousands of people a month without you need to write a single word or spend much more than fifty dollars. In this book I try to show the process of hiring ghostwriters and marketing their work from a more balanced perspective than most. It covers how to get the best out of your freelancers, how to get the best out of the various online book stores and what mistakes a lot of people make when they're advertising their projects that can result in them getting below-par writers. I'll show you how to choose effective topics that will maximise your profits, we'll discuss what you can do to separate your book from the competition in the marketplace and we'll talk about what you can expect back from ghostwriter and how to make sure you get the absolute best value for money from freelancers you engage on sites like oDesk. What qualifies me to write this book? I've done it, from both sides of the coin - the ghostwriter and the book marketer. I hope you enjoy it as much as I enjoyed writing it.

Penguin Specials are designed to fill a gap. Written to be read over a long commute or a short journey, they are original and exclusively in digital form. This is Toby Young's guide to setting up a Free school. In September 2011, one of the most radical and controversial education reforms in the UK became a reality when twenty-four Free Schools - funded by the tax-payer but shaped and run by parents, teachers and charities, independently of Local Authority control - opened their gates to children across the country. They are the centrepiece of the Coalition government's argument for a 'Big Society' and have provided a key battleground between political combatants on all sides. The crusade on their behalf in the face of fierce opposition has been led by the outspoken journalist Toby Young, whose West London Free School was one of the first. In this witty, pithy essay, Young explains step-by-step how he gathered support and saw his vision through, from securing premises, teachers and students to fighting off opponents at every turn. At once an argument and a how-to guide, this timely Penguin Special is the essential manifesto for the Free Schools movement and a must-read for supporters and detractors alike.
