FRDA Report

The Next Whole Earth Catalog

Originally West Parish in Pembroke, the town of Hanson is a small community rich in history and character. It was incorporated as Hanson in 1820 with nine hundred seventeen town members and has continued to grow while remaining a small town at heart. Hanson, known for its many beautiful brooks and ponds, has been a popular place for recreation throughout the history of Massachusetts. Hanson will introduce you to Hanson's noteworthy sites, such as the Plymouth County Hospital and the summer resort "the Needles." It features some of Hanson's most famous citizens, including Albert Burrage, a Boston businessman who was responsible for Burrage Industries and the Needles; Ephraim Albert Gorham, who began the movement to convert wetlands to cranberry bogs; and Marcus Urann, who organized and ran what became the Ocean Spray Cranberry Company. This collection will help locals and visitors enjoy the history of Hanson for generations.

The story of the four-wheel-drive tractors built by Steiger, International Harvester, Case, and Case IH is told in dramatic fashion in this authoritative guide. Starting

with the development of early four-wheel-drive systems at International Harvester, the book traces the evolution and design some of the most powerful and capable tractors of the twentieth century. With fresh detail on the 4300, 4100, Steiger-built IH tractors, and the 2+2 tractors including the Super 70 series, the book offers prototype drawings of several models--including the complete story of the never-before-published Magnum 2+2-- as well as inside stories and backroom drama that is a must for any enthusiast for farm history or tractors. Learn the complete story of Steiger tractors, which were originally designed and built in the barn of John, Douglass, and Maurice Steiger located near Red Lake Falls, Minnesota. Containing interviews with more than 50 of the people who built Steiger from its humble origin to a world leader, the book traces the evolution of the lime green Steigers in engrossing detail. The book also covers the J.I. Case 4WD line in great detail. In addition, the book tells the story of how each of these significant players in the industry combined under one banner and--together--created one of the current industry-leading technologies, the Quadtrac. The modern evolution of the Steigers and the introduction of the STX Series (and more) also receive in-depth coverage. The same team that created the award-winning books Red Tractors 1958-2013 and Red Combines 1915-2015 created this book, and notable new contributors include Sherry Schaefer (editor of Heritage Iron magazine) and noted historian Jim Allen. Contributors include Sherry Schaefer, Oscar H. Will III, Jim Allen, Kenneth Updike, Todd Markle, Gregg Montgomery, Guy Fay, Martin Rickatson, Sarah Tomac, Matthias Buschmann, Jean Cointe, Michael Osweiler, and Johann Dittmer.

Annotated Manual for Complex Litigation

Invaluable listing of rare catalogs selling cars, beekeeper's equipment, clocks, firearms, livestock, clothes, toys, more. Cites catalog's location, size, more.

Sewing for Fashion Designers

Even though Ricky was just a small riding mower, he would sit in the Hardware Store and dream of doing something great like the larger Tractors in his family. But when a kind gentleman finally purchased him, Ricky was disappointed to learn what his new job would be. Ricky didn't think his work was very important at all, and he just knew that the Lord had bigger, more important things for him to do. But when the chance finally came to do something great, Ricky learned that the Lord had never designed him to do the things he had dreamed of doing. Read along and follow the adventures of Ricky as he discovers what makes him the happiest, and as he learns what his real purpose is!

Yuganta

WALNECK'S CLASSIC CYCLE TRADER, JULY 2005

This comprehensive guide explores all the fundamental sewing methods and introduces professional garment construction. Chapter One introduces sewing tools and machinery (including industrial machines). It discusses how to work with patterns and explains cutting-out methods. Chapter Two is devoted to different

fabrics and how they work, focusing on the construction of a garment, including fastenings and trimmings, and the use of materials to support structured pieces, such as corsets. Hand sewing techniques and basic seams are explored in Chapter Three. Techniques are demonstrated with step-by-step photographic guides combined with technical drawings. A guide to making garment details and decorations, such as pockets, waistlines, and necklines, is found in Chapter Four. Chapter Five addresses fabric-specific techniques, for everything from lace to neoprene. The best technical approaches to use for pattern cutting and construction are discussed for each fabric. Catwalk images demonstrate how these kinds of techniques are employed by designers.
