Identifying 'permissive populism', the trickle down of permissiveness into mass consumption, as a key feature of the 1970s, Leon Hunt considers the values of an ostensibly 'bad' decade and analyses the implications of the 1970s for issues of taste and cultural capital. Hunt explores how the British cultural landscape of the 1970s coincided with moral panics, the troubled Heath government, the three day week and the fragmentation of British society by nationalism, class conflict, race, gender and sexuality.

Molecular models are as vital a tool for the study of chemistry as calculators are for the study of mathematics. Molecular Visions models may be assembled in infinite combinations enabling the user to construct not only familiar configurations but also undiscovered possibilities. Models are intended to inspire the imagination, stimulate thought, and assist the visualization process. They present the user with a solid form of an abstract object that can otherwise only be visualized by the chemist. While chemistry textbooks use letters and graphics to describe molecules, molecular models make them "real".

One of Daniel Berrigan's best works, *Minor Prophets, Major Themes*, offers poetic, insightful commentary on the books of Hosea, Joel, Amos, Obadiah, Jonah, Micah, Nahum, Habakkuk, Zephaniah, Haggai,

Zechariah, and Malachai. From his own experience in the prophetic struggle to end war and injustice, Berrigan brings these ancient texts to new life and uses them to shed light on the life and death struggles for justice and peace today. The author takes these often neglected prophetic works and shows how they speak to us with even greater urgency, pushing us to become a prophetic people, to take up the major themes of justice, disarmament, nonviolence, compassion, and peace. There is simply no other commentary like it.

Originally published by The Supreme Grand Lodge of the Ancient Mystical Order Rosae Crucis (AMORC) in 1918 and again in 1929, with several reissues, the Rosicrucian Manual is an official manual for new members of the AMORC and Rosicrucianism. The AMORC Emperor and author of the book, H. Spencer Lewis, describes the manual as a "Guide to the Work and Studies of the Order." It contains a greeting and preliminary instructions, as well as a description of the AMORC and its important officers, general and special instructions to Members and Lodges, Mystic Symbols and their meanings, magical and alchemical explanations, and a dictionary and FAQ. HARVEY SPENCER LEWIS (1883-1939), a well-known Rosicrucian author, mystic, occultist, alchemist, and inventor, was the founder of the Ancient Mystical Order Rosae Crucis (AMORC) in the USA, as well as its first Emperor from 1915 until his death. Born in Frenchtown, New Jersey, Lewis used his training as a commercial artist for an advertising company to promote the AMORC in its early days through print

ads and pamphlets. Lewis believed it was his mission to spread modern mysticism throughout the United States, which he did by promoting AMORC tours, appearing on radio shows, giving demonstrations, writing books, and inventing mystical devices. His inventions include the Luxatone, the Cosmic Ray Coincidence Counter, and the Sympathetic Vibration Harp.
