## **Pension Plan Guide**

From the Pulitzer Prize-winning author of *The Return* comes a profoundly moving contemplation of the relationship between art and life. After finishing his powerful memoir *The Return*, Hisham Matar, seeking solace and pleasure, traveled to Siena, Italy. Always finding comfort and clarity in great art, Matar immersed himself in eight significant works from the Siennese School of painting, which flourished from the thirteenth to the fifteenth centuries. Artists whom he had admired throughout his life, such as Duccio and Ambrogio Lorenzetti, evoke earlier engagements he has had with works by Caravaggio and Poussin, and the personal experiences that surrounded those moments. Complete with gorgeous full-color reproductions of the artworks, *A Month in Siena* is about what occurred between Matar, those paintings, and the city. That month would be an extraordinary period in Matar's life: an exploration of how art can console and disturb in equal measure, as well as an intimate encounter with the city and its inhabitants. This is a gorgeous meditation on how centuries-old art can illuminate our own inner landscape--current relationships, long-lasting love, grief, intimacy, and solitude--and shed further light on the present world around us.

Many people dream of escaping modern life, but most will never act on it. This is the remarkable true story of a man who lived alone in the woods of Maine for 27 years, making this dream a reality—not out of anger at the world, but simply because he preferred to live on his own. A New York Times bestseller In 1986, a shy and intelligent twenty-year-old named Christopher Knight left his home in Massachusetts, drove to Maine, and disappeared into the forest. He would not have a conversation with another human being until nearly three decades later, when he was arrested for stealing food. Living in a tent even through brutal winters, he had survived by his wits and courage, developing ingenious ways to store edibles and water, and to avoid freezing to death. He broke into nearby cottages for food, clothing, reading material, and other provisions, taking only what he needed but terrifying a community never able to solve the mysterious burglaries. Based on extensive interviews with Knight himself, this is a vividly detailed account of his secluded life—why did he leave? what did he learn?—as well as the challenges he has faced since returning to the world. It is a gripping story of survival that asks fundamental questions about solitude, community, and what makes a good life, and a deeply moving portrait of a man who was determined to live his own way, and succeeded.

Written without a trace of sentimentality or apology, this is an unforgettable personal story—the truth as a remarkable young woman named Anne Moody lived it. To read her book is to know what it is to have grown up black in Mississippi in the forties and fifties—and to have survived with pride and courage intact. In this now classic autobiography, she details the sights, smells, and suffering of growing up in a racist society and candidly reveals the soul of a black girl who had the courage to challenge it. The result is a touchstone work: an accurate, authoritative portrait of black family life in the rural South and a moving account of a woman's indomitable heart.
