Baby: Tractor!

A history of America's most important farm
implement manufacturing company traces the
development of Deere from the early 1800s, through
the Industrial Revolution, to the present

150 Years of JI Case

An American Workhorse Inventor Jerome Increase
Case founded Case in Racine in 1842 to build
threshing machines. It was a humble beginning for a
company that would eventually become the first
builder of steam engines for agricultural use, and
eventually emerge as the world's largest maker of
steam engines. In 150 years of J.I. Case, farm
equipment expert and historian C.H. Wendel
chronicles all the developments, innovations, and
history that have made the Case name a giant in the
world of farming. With more than 2,000 story-telling
photos and exhaustive research, Wendel covers every
model ever produced by J.I. Case, over a 150-year
period, from the earliest steam-powered vehicles to

the new generation of multi-purpose wonders.

Automotive Control Systems

Perfect for reading aloud and encouraging early word recognition, these chunky board books are just right for babies who love to explore shape and color. Fun flaps, bright colors, and simple, bold designs will grab baby's attention. Simple, playful text makes it easy for reading aloud.

The Allis-Chalmers Story

Course book introducing advanced control systems for vehicles, including advanced automotive concepts and the next generation of vehicles for ITS.

than 1,500 photos and illustrations, accomplished author C.H. Wendel tells the tale of this great company in *The Allis-Chalmers Story*. This pictorial tour through history begins with the founding of the Gate Iron Works in 1842, and ends with the Deutz-Allis merger in 1985. Included are information and photos for all the equipment the company produced during that period, including equipment from Advance-Rumely, Monarch, and LaCrosse.
