#1 NEW YORK TIMES BESTSELLER Featured by Oprah's Book Club on the Anti-Racist Books for Young Adults list curated by bestselling author Jacqueline Woodson A USA TODAY Bestseller Recommended by The Guardian, Time, Grazia, The Telegraph, Express, and The Sun 'This is one for you, your neighbour, the children in your lives and especially that 'only slightly' racist colleague... A guide to the history of racism and a blueprint for change' —The Guardian Who are you? What is racism? Where does it come from? Why does it exist? What can you do to disrupt it? Learn about social identities, the history of racism and resistance against it, and how you can use your anti-racist lens and voice to move the world toward equity and liberation. 'In a racist society, it's not enough to be non-racist—we must be ANTI-RACIST.' —Angela Davis Gain a deeper understanding of your anti-racist self as you progress through 20 chapters that spark introspection, reveal the origins of racism that we are still experiencing and give you the courage and power to undo it. Each chapter builds on the previous one as you learn more about yourself and racial oppression. 20 activities get you thinking and help you grow with the knowledge. All you need is a pen and paper. Author Tiffany Jewell, an anti-bias, anti-racist educator and activist, builds solidarity beginning with the language she chooses - using gender neutral words to honour everyone who reads the book. Aurélia Durand brings the stories and characters to life with kaleidoscopic vibrancy. After examining the concepts of social identity, race, ethnicity and racism, learn about some of the ways people of different races have been oppressed, from indigenous Americans and Australians being sent to boarding school to be 'civilized' to a generation of Caribbean immigrants once welcomed to the UK being threatened with deportation by strict immigration laws. Find hope in stories of strength, love, joy and revolution that are part of our history, too, with such figures as the former slave Toussaint Louverture, who led a rebellion against white planters that eventually led to Haiti's independence, and Yuri Kochiyama, who, after spending time in an internment camp for Japanese Americans during WWII, dedicated her life to supporting political prisoners and advocating reparations for those wrongfully interned. Learn language and phrases to interrupt and disrupt racism. So, when you hear a microaggression or racial slur, you'll know how to act next time. This book is written for EVERYONE who lives in this racialised society—including the young person who doesn't know how to speak up to the racist adults in their life, the kid who has lost themselves at times trying to fit into the dominant culture, the children who have been harmed (physically and emotionally) because no one stood up for them or they couldn't stand up for themselves and also for their families, teachers and administrators. With this book, be empowered to actively defy racism and xenophobia to create a community (large and small) that truly honours everyone.
