For freedom to have a meaning, it must come through the sacrifice of the people. It is on this notion that the book narrates the journey of Nigeria and its people from the colonial perspective; it highlights contemporary realities with critical thoughts and gives an in-depth understanding of power politics. The book is a thorough work on Nigeria's historical and political evolution since the inception of its self-rule, with special appraisal on its political leaders. It provides insight on how Nigeria can be re-shaped by a new definition of power. The author argues persuasively, the road that should be taken by the people of Nigeria, in restoring the meaning of citizenship.

Rethinking Diasporas

Central to the aim of both this book is to rethink the concept of diaspora as it is used both academically and popularly at the beginning of the twenty-first century. It seeks to interrogate the notion of "diaspora" in an interdisciplinary way, and to explore the contradictions inherent in contemporary notions

of place and identity. It presents explorations of both “traditional” diasporas, such as the Irish community in the United States and in Great Britain, as well as recently established diasporas being formed through new patterns of migration and resettlement. Traditional conceptions of diaspora focused on forced exile from the homeland and the adoption of conscious strategies of integration upon arrival in the new land. In the past, it was assumed that migrants would rapidly assimilate into their receiving societies. Alternatively, migrant workers were regarded by themselves and their host societies as “sojourners”: they were not expected to integrate precisely because their alien presence was perceived to be temporary. Two poles then framed the traditional interpretation of migration and settlement. On the one hand, migrants assimilated rapidly; on the other, migrants were temporarily in the host-land. Yet, the realisation both that the melting pot is a myth and that migrant workers do not, in the main, go home, has forced an increasing acceptance of ethnic diversity. This, combined with ongoing improvements in travel and communications technologies, facilitates today’s migrants in maintaining links with their home countries. The increased visibility of transnational ethnic communities and a resurgence in labour migration in the twenty-first century, have stimulated academic interest in both contemporary diasporas and in recovering the hidden narratives of earlier global migrations. The renewed interest in the formation and narrative of diasporas is evident across a range of disciplines. Moreover, the meaningful exploration of any aspect of the humanities and social sciences requires an inter-disciplinary approach. Thus

is the aim of this volume. Contributors approach the issue of diaspora from a variety of academic backgrounds: sociology, politics, history, literature and the visual arts. Concomitantly, data sources are diverse, with contributors drawing on official government publications, literary sources and personal memoirs, paintings and photographs, popular culture and personal interviews. This diversity of data sources indicates the multifarious approaches to the exploration diaspora. More importantly, it highlights the critical role played by unofficial, and often hidden, narratives in representing the experiences of those who find themselves, through a variety of political, social and economic factors, displaced. "This edited collection is a timely and precocious answer to a gap in the literature of identities and nationhood. It is a response to the new challenges and opportunities facing diasporic communities and, what is more, sets out key pointers for rethinking diaspora in the twenty-first century. At a time when western states are facing the need to re-evaluate traditional responses to ethnic difference arising from migration in the mid-twentieth century, this book posits an important perspective on the multiculturalism debate. Contrary to previous political and scholarly assumptions, this book shows that the children and grandchildren of immigrants can continue to have an ambiguous relationship to the state in which they were born in part because of the very nature of diaspora. The enduringly complex and sometimes volatile insider/outsider relationship is explored in these chapters through analysis of various narratives, in textual, spoken and visual forms. Analysis of such 'hidden narratives' reveals that the

meaning and pertinence of membership of a diasporic community is defined as much by the context of the host country as by the discourses of the homeland. Across their various sources and case studies, the authors demonstrate the power of the juncture between dominant national discourses of the host state and the identity of its immigrants. Each author notes how different the diasporic community in question would be – not to mention the impact on its relationship to the host state and the homeland – if some of narratives hidden over time were to be reclaimed. As one author puts it, flux in elements of identity-formation in postmodern society represents a chance to ‘engage in dialogue with our own diversity’. In constructing a coherent volume from such a diverse range of cases and disciplines, the editors successfully demonstrate the wide validity of their case for ‘rethinking diasporas’. Nonetheless, the specific origins of this book – a conference held in a border town in Ireland – are, it may be argued, uniquely significant. For the current process of change in Irish national identity is inseparable from central features of diaspora-formation that the authors highlight, including economic pressures. Moreover, just as the town of Dundalk has historically felt the effects of its proximity to Northern Ireland, so the ‘imagined borders’ of diaspora explored in this book are shown to be all the more powerful for the fact that their delineation is contested.” —Katy Hayward (Institute for British-Irish Studies, UCD

Hannah's list: Ghosts are cold to the touch. Being tied up isn't much fun. And danger is a sure-fire prescription for amazing sex! When Hannah Campbell attends a memorial service for the neurosurgeon who once saved her life, the last thing she expects is a lightning strike that knocks her out cold and blasts her lungs full of the departed's ashes. Things only get weirder when she wakes up to find the deceased standing over her hospital bed, insisting she help him track down the terrorists who blew up his plane. Professor Takeshi Shimodo doesn't know what to believe when smart-mouthed Hannah appears on his doorstep, claiming to be haunted by the ghost of his best friend. Yet she exhibits some extraordinary psychic abilities. And her determination to find justice for the crash victims, in spite of her fragile health, touches his heart. Takeshi's acupressure techniques are meant to calm Hannah's erratic heartbeat, but the longer they are together, the more his magic fingers have the opposite effect. Soon, their passion flares hotter than any lightning strike. But now the terrorist they seek is hunting them. And the FBI is suspicious Hannah knows just a little too much. Without some "spiritual" help, they haven't a ghost of a chance. Warning, this title contains the following: explicit sex, graphic language and violence.

294 pages, 130 black & white illustrations, size 5.5 x 8.5 inches. In 1963, Temple Press UK published a revised and expanded 4th UK edition of 'Tuning for Speed' and, in 1965, they published a reprint of that 1963 edition. Both the 1963 and the 1965 publications are identical in content and contain 294 pages, a significant increase from the previous 208 page 1960 printing. With a total of 294 pages, the revised and expanded 4th UK edition is the most comprehensive of all of the 'Tuning for Speed' editions ever published. Earlier editions only stretched to 208 pages and later editions shrunk to 260 pages (or less) as what was thought to be 'dated information' was deleted from the contents. This 'dated information' is considered valuable today by those enthusiasts interested in vintage motorcycle tuning and modification. Consequently, this makes the revised 4th UK publication the most complete and desirable edition. Therefore, it is our pleasure to offer this reprint of the Floyd Clymer 'Revised 4th UK Edition or Second American Edition of 'Tuning for Speed' to motorcycle enthusiasts worldwide. 'Tuning

for Speed' was originally published in 1948 and continuously reprinted and updated in order to keep pace with the constantly evolving range of British motorcycles and engines. While the primary focus of this publication is on 1965 and prior British motorcycles, the theory and engineering it contains is still applicable to the current crop of high revving imports. 'Tuning for Speed' is considered by many knowledgeable motorcycle enthusiasts to be one of the best books ever written on how to improve, modify and fine tune a motorcycle engine and it is often referred to as one of the 'top 10' classic motorcycle books. The Floyd Clymer association with this publication dates back to the early 1960's when he purchased the United States Publishing rights for 'Tuning for Speed' from Temple Press in the UK and, in 1967, Clymer published the 1st American edition of that title. However, by 1967, the Clymer publication had been preceded by 8 printings of the UK edition and was incorrectly identified by Clymer as a 9th edition. In fact, the 1967 Clymer publication is actually a reprint of the less desirable 208 page 1960 UK edition. However, in 1963, the 4th UK edition was revised and expanded to 294 pages (with a second identical re-print in 1965). Therefore, this 2nd American edition of the Floyd Clymer publication of 'Tuning for Speed' includes all of that valuable 'dated information' that was deleted from the later editions and is identical in all respects to the 294 page 1963/1965 revised and expanded 4th UK edition - with the exception that 7 pages of UK-based advertising to the rear of the book are not included in the Clymer publication.
