NEW YORK TIMES BESTSELLER • From the stars of the Netflix series Get Organized with The Home Edit (with a serious fan club that includes Reese Witherspoon, Gwyneth Paltrow, and Mindy Kaling), here is an accessible, room-by-room guide to

establishing new order in your home. Believe this: every single space in your house has the potential to function efficiently and look great. The mishmash of summer and winter clothes in the closet? Yep. Even the dreaded junk drawer? Consider it done. And the best news: it's not hard to do—in fact, it's a lot of fun. From the home organizers who made their orderly eye candy the method that everyone swears by comes Joanna and Clea's signature approach to decluttering. The Home Edit walks you through paring down your belongings in every room, arranging them in a stunning and easy-to-find way (hello, labels!), and maintaining the system so you don't need another do-over in six months. When you're done, you'll not only know exactly where to find things, but you'll also love the way it looks. A masterclass and look book in one, The Home Edit is filled with bright photographs and detailed tips, from placing plastic dishware in a drawer where little hands can reach to categorizing pantry items by color (there's nothing like a little ROYGBIV to soothe the soul). Above all, it's like having your best friends at your side to help you turn the chaos into calm. PLEASE NOTE: The paperback includes a starter set of labels for your refrigerator; the ebook and audiobook include a link to download and print the labels from a computer (you will need 8-1/2 x 11-inch clear repositionable sticker project paper, such as Avery 4397). Welcome Spring Kids Address Book

Military families face stressful times that are unique to the military lifestyle. One of the most challenging situations, both for children and parents, is when a father, mother, or sibling is deployed for military service and must be away from the home. Children often experience sadness, anger, fear, anxiety, and loneliness, and they do not understand their own feelings or know how to express them. This book is designed to help children especially, but also their parents, during such difficult times. Based on many years of experience as a social worker, who has assisted military families experiencing stress, author Beth Andrews has created an excellent tool for allowing children and their loved ones to deal with the many emotions caused by deployment. The text and illustrations encourage children to discuss their feelings and to draw their own pictures to express themselves. The accompanying parents' guide is designed to validate parents' feelings and give them ways to help their children cope. Guided by this approach, a parent or caregiver can help their children understand why one of their parents or a sibling had to leave home, identify their reactions, cope with their feelings in a positive way, be assured that they are not alone, and try new activities to help themselves adjust. At a time when military families are asked to make many sacrifices in the service of their country, this reassuring book will be a welcome resource. Beth Andrews, LCSW (Grand Junction, CO), is a social worker and currently a clinical supervisor at Colorado West Mental Health Center.

In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. Welcome Home, Forever Child

Using one of the most famous works in classical music—Beethoven's Fifth Symphony—here is the perfect way to introduce a young child to the world of classical music. This charming and interactive picture book with its panel of 19 sound buttons is like a ticket to a concert hall, taking readers on a journey from the exciting first moment when the musicians begin tuning up to the end of the first movement (attention newcomers: don't clap yet!). At each step of the way, readers learn the basics of classical music and the orchestra: What is a conductor? What is a symphony? Who was Beethoven? The different aspects of music: melody, harmony, tempo, theme. And the families of instruments—strings, woodwinds, brass, and percussion. But the best part is that every critical idea is illustrated in gorgeous sound. The sound panel allows readers to

hear the different parts of the symphony and voices of the music—the famous beginning of the Fifth, what a clarinet sounds like, the difference between a violin and a viola, what a melody is, and what harmony is. Kids will want to match their voices to the A note that tunes the orchestra, dance to the rhythmic passages—and, of course, sing along to da-da-da-daah!

A guide to children's ministry that serves families with special needs Jesus set a high standard when He said "Let the little children come to me and do not hinder them, for to such belongs the kingdom of heaven."
