The distal convoluted tubule is the nephron segment that lies immediately downstream of the macula densa. Although short in length, the distal convoluted tubule plays a critical role in sodium, potassium, and divalent cation homeostasis. Recent genetic and physiologic studies have greatly expanded our understanding of how the distal convoluted tubule regulates these processes at the molecular

Global value chain - Wikipedia

The concepts of a global value chain (GVC) and global supply chain refer to the people, roles and activities involved in the production of goods and services and their supply, distribution, and post-sales activities when those activities must be coordinated across geographies. GVC is similar to Industry Level Value Chain but encompasses operations at the global level.

Artificial intelligence (AI) is intelligence demonstrated by machines, unlike the natural intelligence displayed by humans and animals, which involves consciousness and emotionality. The distinction between the former and the latter categories is often revealed by the acronym chosen. 'Strong' AI is usually labelled as AGI (Artificial General Intelligence) while attempts to emulate 'natural

As I write, the presidential election is still not resolved, with dramatic events potentially unfolding in the first days of the New Year. I'm not convinced that Mr. Trump is in as weak a position as the news media has made him out to be in these post-election months of political fog and noise. The January 6 meet-up of the
