As founder of the Peace Corps, Head Start, the Special Olympics (with wife Eunice Kennedy Shriver), and other organizations, Sargent Shriver was a key social and political figure whose influence continues to the present day. Sarge gives us a complete account of Shriver’s life, as well as a thoughtful commentary on the Kennedy family, the Peace Corps, and United States and world history. It is a riveting and comprehensive reconstruction of a life that exemplifies what it means to be a true American.

Noted Belgian psychoanalyst Paul Verhaeghe shows us what it is about sex that both keeps us moving and inhibits us at the same time. The first essay, *The Impossible Couple*, is both a humorous and razor-sharp analysis of the contemporary relationship between man and woman. In the second essay, *Fleeing Fathers*, the author demonstrates that today the Freudian Oedipus complex has disappeared, with

a resulting shattering of classic gender roles. Post-modern morals are strange compared to previous morality, because they convey an obligation to enjoy. Things become even stranger when one finds that the expected enjoyment fails to come and, instead of that, we are faced with boredom, anxiety, and anger. The reasons for this are discussed in the third essay, *The Drive*. Today, sexual abuse is omnipresent, with the male in the role of offender, women and children reduced to his victims. Paul Verhaeghe reconsiders the opposition between Eros and Thanatos as an opposition between two forms of sexual pleasure. The fact that this opposition is ever present in heterosexual love demonstrates that gender differentiation goes beyond temporal cultural forms.

comprehensive work to place archetypal psychology within a major tradition of modern thought, that of mythical thinking, and to recognize imagination as the primal force and basic reality of human existence. By drawing upon the writings of four twentieth-century thinkers (Jung, Hillman, Barfield, and Cassirer), Roberts Avens clarifies the post-Jungian direction of psychology as it moves toward poetic and polytheistic imagination. He then compares the radical achievements of this direction in resolving the "ego-question" with the methods and ideas of the East: Buddhism, Tantrism, Zen, and Vedanta. The author's grasp of understanding, easy familiarity with this subject, and startling insights together make this book both an introductory text and an advance into new territory.
