What's My Name, Fool?

A collection of more than two hundred treasured family recipes and the stories behind them, Cocina de la Familia is a

celebration of Mexican-American home cooking, culture, and family values. For three years, Marilyn Tausend traveled across the United States and Mexico, talking to hundreds of Mexican and Mexican-American cooks. With the help of chef Miguel Ravago, Tausend tells the tale of these cooks, all of whom have adapted the family dishes and traditions they remember to accommodate a life considerably different from the lives of their parents and grandparents. In these pages you will find the real food eaten every day by Mexican-American families, whether they live in cities such as Los Angeles, the border towns of Texas, the farming communities of the Pacific Northwest, or the isolated villages of New Mexico. An Oregonian from Morelos, Mexico, balances sweet, earthy chiles with tart tomatillos for a tangy green salsa that is a perfect topping for Chipotle Crab Enchiladas or Huevos Rancheros. A Chicago woman from Guanajuato pairs light, spicy Chicken and Garbanzo Soup with quesadillas for a simple supper. A Los Angeles cook serves a dish of Chicken with Spicy Prune Sauce, the fire of the chiles tamed by Coca-Cola, and in Illinois a woman adds chocolate to the classic Mexican rice pudding. Now you can re-create the vibrant flavors and rustic textures of this remarkable cuisine in your own kitchen. Most of the recipes are quite simple, and the more complex dishes, like moles and tamales, can be made in stages. So take a savory expedition across borders and generations, and celebrate the spirit and flavor of the Mexican-American table with your own family.

When the apprentices of a Paris printing shop in the 1730s held a series of mock trials and then hanged all the cats they could lay their hands on, why did they find it so hilariously funny that they choked with laughter when they reenacted it in pantomime some twenty times? Why in the eighteenth-century version of Little Red Riding Hood did the wolf eat the child at the end? What did the anonymous townsman of Montpelier have in mind when he kept an exhaustive dossier on all the activities of his native city? These are some of the provocative questions Robert Darnton answers in this classic work of European history in what we like to call "The Age of Enlightenment."

Elliott Erwit: Home Around the World offers a timely and critical reconsideration of Erwit's unparalleled life as a photographer. Produced alongside a major retrospective exhibition, the book features examples of Erwit's early experiments in California, his intimate family portraits in New York, his major magazine assignments and long-term documentary interests, and his ongoing personal investigations of public spaces and their transitory inhabitants. Essays by photography experts based on extensive new interviews with the photographer consider less-studied aspects of Erwit's work: his engagement with social and political issues through photojournalism, the humanist qualities of his very early photographs, and his work as a filmmaker. Home Around the World traces the development and refinement of Erwit's

unique visual approach over time. With over two hundred photographs, and ephemera including magazine reproductions, advertisements, and contact sheets, this volume is the first to offer a comprehensive historical treatment of Er Witt's body of work and position in the field.

In *Whats My Name, Fool?* sports writer Dave Zirin shows how sports express the worst - and at times the most creative,

exciting, and political - features of our society. Zirins sharp and insightful commentary on the personalities, politics, and history of American sports is unlike any sports writing being done today. Zirin explores how NBA brawls highlight tensions beyond the arena, how the bold stances taken by sports unions can chart a path for the entire labor movement, and the unexplored political stirrings of a new generation of athletes who are no longer content to just "play one game at a time." *Whats My Name, Fool?* draws on original interviews with former heavyweight champ George Foreman, Olympic athlete John Carlos, NBA player and anti-death penalty activist Etan Thomas, antiwar womens college hoopster Toni Smith, Olympic Project for Human Rights leader Lee Evans and many others. It also unearths a history of athletes ranging from Jackie Robinson to Muhammad Ali to Billie Jean King, who charted a new course through their athletic ability and their outspoken views.

The famously false memoirs of James Frey may be yesterday's news, but as this funny riff reminds us, literary fakes are as old as literature itself. Ian Minot is an aspiring writer who labors over short stories that seem destined to remain unread. His beautiful Romanian girlfriend, Anya Petrescu, finds success more easily—and leaves Ian for Blade Markham, a bloviating ex-gangbanger whose "so-called memoir" is a best-seller. When Ian is approached by ex-editor Jed Roth, who wants Ian to publish Jed's pulpy tale of book theft and murder as a memoir, then renounce it, it's a chance for both of them to get revenge: Jed on his former employer, and Ian on the world. Although Langer may be too cute for some (he employs made-up slang in which a penis is a portnoy), he does an engaging job with the hall-of-mirrors plot. And if readers can predict that the book they're reading is the one that Ian ends up writing, they'll never guess the ending. Just when you want a surprising twist, Langer delivers several.

The Truth about Sascha Knisch

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively

forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Insiders' Guide to Austin

This handbook provides an up-to-date survey of the field of corpus linguistics, a field whose methodology has revolutionized much of the empirical work done in most fields of linguistic study over the past decade. Corpus linguistics investigates human language by starting out from large collections of texts - spoken, written, or recorded. These language corpora, which are now regularly available in electronic form, are the basis for quantitative and qualitative research on almost any question of linguistic interest. Many techniques that are in use in corpus linguistics today are rooted in the tradition of the late 18th and 19th century, when linguistics began to make use of mathematical and empirical methods. Modern corpus

linguistics has used and developed these methods in close connection with computer science and computational linguistics. The handbook sketches the history of corpus linguistics, shows its potential, discusses its problems, and describes various methods of collecting, annotating, and searching corpora as well as processing corpus data. It also reports case studies that illustrate the wide range of linguistic research questions addressed in corpus linguistics. The over 60 articles included in the handbook are divided into five sections: (1) the origins and history of corpus linguistics and surveys of its relationship to central fields of linguistics (2) corpus compilation (3) corpus types (4) preprocessing of corpora (5) the use and exploitation of corpora. The final section gives an overview of the results of corpus studies obtained in phonetics, phonology, morphology, syntax, semantics, sociolinguistics, historical linguistics, stylometry, dialectology, and discourse analysis. It also reports on recent advances made in human and machine translation, contrastive studies, computer-assisted language learning, and automatic summarization. The contributors to the volume are internationally known experts in their respective fields. The handbook is intended for a wide audience ranging from teachers, university students, and scholars to anyone interested in the use of computers in linguistic analyses and applications.

Cinema of Obsession traces the history of obsessive love and erotic fixation. Seminal works of obsession, *The Blue Angel*, *Peter Ibbetson*, and *Phantom of the Opera* are seen as setting the groundwork for films that follow. The book defines and surveys examples of the explosive nature of amour fou, issues of male control (no matter how tenuous), and the fugitive couple - love on the run - in such films as *Romeo and Juliet*, *Last Tango in Paris*, *Vertigo*, *Basic Instinct*, and *Wild at Heart*. Male masochism is explored through film noirs, including *Criss Cross*, *The Killers*, *Gilda*, and *The Postman Always Rings Twice*. The book shifts gears in its finale and concentrates on the female gaze, films of female obsession: *Jane Eyre*, *The Piano*, *The Lover*, *Fatal Attraction*, and *Vanilla Sky*.

A Wall Street Journal Bestseller! Alan Dershowitz, one of America's most respected legal scholars and a New York Times bestselling author proves—with incontrovertible evidence—that he is entirely innocent of the sexual misconduct accusations against him, while suggesting a roadmap for how such allegations should be handled in a just society. “Maybe the question isn’t what happened to Alan Dershowitz. Maybe it’s what happened to everyone else.”—Politico Alan Dershowitz has been called “one of the most prominent and consistent defenders of civil liberties in America” by Politico and “the nation’s most peripatetic civil liberties lawyer and one of its most distinguished defenders of individual rights” by Newsweek. Yet he has come under intense criticism for applying those same principles, and his famed “shoe-on-the-other-foot test,” to those accused of sexual misconduct. In *Guilt by Accusation*, Dershowitz provides an in-depth analysis of the false accusations against him, alongside a full presentation of the exculpatory evidence that proves his account, including emails from his accuser and an admission of his innocence from her lawyer, David Boies. Additionally, he examines current attitudes toward accusations of sexual misconduct, which are today, in the age of #MeToo, accepted as implicit truth without giving the accused a fair chance to defend themselves and their innocence, and suggests possible pathways back to a society and legal system in which due process is respected above public opinion and the whims of social media mobs. This book is Alan Dershowitz’s plea for fairness for both accuser and accused, his principled stand for due process no matter the allegation, and his compelling assertion of his own innocence. It is essential reading for anyone who wants to know the inside story behind the accusations against him or who cares about the current societal debate over how we should handle accusations of sexual misconduct. The #MeToo movement has generally been a force for good, but as with many good movements, it is being exploited by some bad people for personal profit. Supporters of the #MeToo movement must not allow false accusers to hurt real victims by hiding behind its virtuous shield, turning it into an exploitive sword against innocent people.

Melissa Bank's runaway bestseller, *The Girls' Guide to Hunting and Fishing*, charmed readers and critics alike with its wickedly insightful, tender look at a young woman's forays into love, work, and friendship. Now, with *The Wonder Spot*, Bank is back with her signature combination of devilishly self-deprecating humor, seriousness and wisdom. Nothing comes easily to Sophie Applebaum, the black sheep of her family trying to blend in with the herd. Uneasily situated between two brothers, Sophie first appears as the fulcrum and observer of her clan in "Boss of the World." Then, at college, in "The Toy Bar," she faces a gauntlet of challenges as Best Friend to the dramatic and beautiful Venice Lambourne, curator of "perfect things." In her early twenties, Sophie is dazzled by the possibilities of New York City during the Selectric typewriter era—only to land solidly back in Surrey, PA after her father's death. *The Wonder Spot* follows Sophie's quest for her own identity—who she is, what she loves, whom she loves, and occasionally whom she feels others should love—over the course of 25 years. In an often-disappointing world, Sophie listens closely to her own heart. And when she experiences her 'Aha!' moments—her own personal wonder spots—it's the real thing. In this tremendous follow-up to *The Girls' Guide To Hunting And Fishing*, Bank again shares her vast talent for capturing a moment, taking it to heart, and giving it back to her readers.

Over the course of the past two decades, Tony Abou-Ganim has earned his reputation as one of the leaders of the craft cocktail movement. Through his work with food and hospitality legends like Mario Batali, Steve Wynn, and Harry Denton, Abou-Ganim has earned his reputation as "the Modern Mixologist," someone bringing the traditional art of mixology into the 21st century for the benefit of new generations. On the heels of the success of *The Modern Mixologist: Contemporary Classic Cocktails*, Tony Abou-Ganim has written *Vodka Distilled* as a companion piece focusing entirely on this clear spirit. It is a comprehensive look at the vodka marketplace, geared toward those working in the profession as well as the giant audience of vodka drinkers. This one-of-a-kind resource establishes a new standard in defining and understanding the world's most consumed spirit. *Vodka Distilled* appeal to both enthusiasts and aficionados by explaining how traditional-style vodkas—those produced in Eastern Europe—differ in character from those made in the West, and how different raw materials and distillation and filtration methods contribute to these variations in character. By breaking down the characteristics of each highlighted vodka, Abou-Ganim helps readers better understand, appreciate, and enjoy this noble spirit.

An infamous nineteenth-century photograph is the key to a modern murder mystery in this “clever psychological thriller” from the Edgar Award-winner (Library Journal, starred review). In 1882, the young Lou Andreas-Salome—writer, psychoanalyst and femme fatale—appears with Friedrich Nietzsche and another man in a bizarre photograph taken in Luzern, Switzerland. Over thirty years later, an art student in Freud’s Vienna presents Lou Salome with his own drawing based on the infamous photograph. In present-day California, performance artist Tess Berenson learns that the previous occupant of her downtown Oakland loft was a professional dominatrix named Chantal—who apparently left in a hurry. Instantly fascinated, Tess’s curiosity only intensifies when Chantal’s body is discovered in the trunk of a stolen car at Oakland airport. Embarking on an obsessive investigation, Tess discovers a link between Chantal and the original Luzern photograph. But as she gets closer to the shocking truth, Tess finds that she too is in jeopardy . . . “Edgar winner Bayer

continues his romance with psychoanalysis with a riff on Lou Andreas-Salomé's persona as analyst and femme fatale . . . Nazis, sadomasochism, and psychoanalysis always provide a heady mix, and a little murder thrown in pushes Bayer's latest into the radioactive zone." —Kirkus Reviews "Bayer chillingly and skillfully depicts the divide between good and evil. Suggest to Thomas Harris and Michael Connelly devotees."—Library Journal (starred review) "[A] crafty whodunit . . . Bayer keeps the suspense high as he artfully toggles among story lines and thoughtfully develops his characters" —Publishers Weekly

The Luzern Photograph

"A beautiful, intelligent book that renders pain both ordinary and extraordinary into art."—Susanna Sonnenberg, San Francisco Chronicle In 2007, during the months before Nick Flynn's daughter's birth, his growing outrage and obsession with torture, exacerbated by the Abu Ghraib photographs, led him to Istanbul to meet some of the Iraqi men depicted in those photos. Haunted by a history of addiction, a relationship with his unsteady father, and a longing to connect with his mother who committed suicide, Flynn artfully interweaves in this memoir passages from his childhood, his relationships with women, and his growing obsession—a questioning of terror, torture, and the political crimes we can neither see nor understand in post-9/11 American life. The time bomb of the title becomes an unlikely metaphor and vehicle for exploring the fears and joys of becoming a father. Here is a memoir of profound self-discovery—of being lost and found, of painful family memories and losses, of the need to run from love, and of the ability to embrace it again.
