Burn-In

A racially fueled incident exposes the fissures that sit beneath the surface of friendships and families, causing even more damage than the massive earthquake that separates them, *The Earth Breaks in Colors* is a powerful story of race and redemption. Whisper and Odelia are eleven-year-old girls who find refuge in the quiet corner of innocent friendship. Their Southern California homes each play host to an undercurrent of secrets. For Whisper that means a fractured mother returning from rehab, for Odelia a brother whose absence is laced with mystery. Race had no real place in the playful friendship of the white Whisper and the black Odelia, until a terrifying encounter brings prejudice to the forefront of their lives, opening their young hearts to ill begotten emotion. A violent earthquake further tears the world as they know it apart. Can hope and innocence be restored? An heirloom timepiece, a curious old woman and an unlikely hero join the girls as they search for their families and understanding among the rubble.

A Companion to Contemporary Documentary Film presents a comprehensive collection of original essays that examine the current state of the documentary film in the United States and around the world. Featuring contributions from top documentary scholars and makers, readings are grouped around thematic strands central to contemporary documentary filmmakers and the study of documentary film— the planet, migration, work, sex, virus, religion, war, torture, and surveillance. A variety of issues relating to these topics are addressed as they are treated in a range of documentaries, including questions of form and formal traditions; the politics of documentaries and their real-world implications; the voice of the documentary filmmaker; regional, national, and international representations; and approaches to race, ethnicity, sexuality and gender in a fascinating array of films. *A Companion to Contemporary Documentary Film* offers thought-provoking insights into a film format that is rapidly achieving its powerful potential to inform, inspire, enlighten, and even change the world.

Where'd You Get Those?

Andrew Upton has unravelled the mystery of Ibsen's masterpiece and constructed a psychological thriller of cinematic intensity and power. His superb adaptation gives Australian readers a fresh and exciting insight into one of the great dramatic works of modern literature. (4 acts, 4 male, 3 female).

One Hundred Years of Solitude

A Life in Secrets

In his highly provocative first book, Scott Galloway pulls back the curtain on exactly how Amazon, Apple, Facebook, and Google built their massive empires. While the media spins tales about superior products and designs, and the power of technological innovation, Galloway exposes the truth: none of these four are first movers technologically - they've either copied, stolen, or acquired their ideas. Readers will come away with fresh, game-changing insights about what it takes to win in today's economy. Print run 125,000.

Ghost Fleet

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Hedda Gabler

Callous Disregard

Callous Disregard is the account of how a doctor confronted first a disease and then the medical system that sought and still seeks to deny that disease, leaving millions of children to suffer and a world at risk. In 1995, Dr. Andrew Wakefield came to a fork in the road. As an academic gastroenterologist at the Royal Free School of Medicine and the University of London, he was confronted by a professional challenge and a moral choice. Previously healthy children were, according to their parents, regressing into autism and developing intestinal problems. Many parents blamed the MMR vaccine. Trusting his medical training, the parental narrative, and, above all, the instinct of mothers for their children's well-being, he chose what would become a very difficult road. Dr. Wakefield provides the facts and an explanation of the problem that confronted him and his colleagues fifteen years ago. He does this in a detailed forensic analysis of the lies, obfuscation, cover-up, and dystopian science and medicine that panders to commercial interests at the expense of your children.

The Video Source Book

A journalist's obsession brings her to a remote island off the California coast, home to the world's most mysterious and fearsome predators--and the strange band of surfer-scientists who follow them Susan Casey was in her living room when she first saw the great white sharks of the Farallon Islands, their dark fins swirling around a small motorboat in a documentary. These sharks were the alphas among

alphas, some longer than twenty feet, and there were too many to count; even more incredible, this congregation was taking place just twenty-seven miles off the coast of San Francisco. In a matter of months, Casey was being hoisted out of the early-winter swells on a crane, up a cliff face to the barren surface of Southeast Farallon Island—dubbed by sailors in the 1850s the "devil's teeth." There she joined Scot Anderson and Peter Pyle, the two biologists who bunk down during shark season each fall in the island's one habitable building, a haunted, 135-year-old house spackled with lichen and gull guano. Two days later, she got her first glimpse of the famous, terrifying jaws up close and she was instantly hooked; her fascination soon yielded to obsession—and an invitation to return for a full season. But as Casey readied herself for the eight-week stint, she had no way of preparing for what she would find among the dangerous, forgotten islands that have banished every campaign for civilization in the past two hundred years. *The Devil's Teeth* is a vivid dispatch from an otherworldly outpost, a story of crossing the boundary between society and an untamed place where humans are neither wanted nor needed.

Cinema Wars

Bitten

What will the next global conflict look like? Find out in this ripping, near-futuristic thriller. The United States, China, and Russia eye each other across a twenty-first century version of the Cold War, which suddenly heats up at sea, on land, in the air, in outer space, and in cyberspace. The fighting involves everything from stealthy robotic-drone strikes to old warships from the navy's "ghost fleet." Fighter pilots unleash a Pearl Harbor-style attack; American veterans become low-tech insurgents; teenage hackers battle in digital playgrounds; Silicon Valley billionaires mobilize for cyber-war; and a serial killer carries out her own vendetta. Ultimately, victory will depend on blending the lessons of the past with the weapons of the future. The debut novel by two leading experts on the cutting edge of national security, it is unique in that every trend and technology featured in the novel is real, or could be soon. Praise for *Ghost Fleet*: 'A wild book, a real page-turner' *The Economist* 'Ghost Fleet is a thrilling trip through a terrifyingly plausible tomorrow. This is not just an excellent book, but an excellent book by those who know what they are talking about. Prepare to lose some sleep' D. B. Weiss, writer of HBO's *Game of Thrones* 'It's exciting, but it's terrifying at the same time' General Robert Neller, commandant of the U.S. Marine Corps

From the outrageously filthy and oddly innocent comedienne and star of the powerful 2015 film *I Smile Back* Sarah Silverman comes a memoir—her first book—that is at once shockingly personal, surprisingly poignant, and still pee-in-your-pants funny. If you like Sarah's television show *The Sarah Silverman Program*,

or memoirs such as Chelsea Handler's Are You There Vodka? It's Me Chelsea and Artie Lange's Too Fat to Fish, you'll love The Bedwetter.

The Agile Samurai

One of the 20th century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an accounting of the history of the human race.

Nat Tate

When William Boyd published his biography of New York modern artist Nat Tate, a huge reception of critics and artists arrived for the launch party, hosted by David Bowie, to toast the late artist's life. Little did they know that the painter Nat Tate, a depressive genius who burned almost all his output before his suicide, never existed. The book was a hoax, and the art world had fallen for it. *Nat Tate* is a work of art unto itself-an investigation of the blurry line between the invented and the authentic, and a thoughtful tour through the spirited and occasionally ludicrous American art scene of the 1950s. William Boyd is the author of nine novels, including *A Good Man in Africa*, winner of the Whitbread Award and the Somerset Maugham Award; *An Ice-Cream War*, winner of the John Llewellyn Rhys Memorial Prize and shortlisted for the Booker Prize; *Brazzaville Beach*, winner of the James Tait Black Memorial Prize; and *Restless*, winner of the Costa Novel of the Year Award. Praise for *Nat Tate*: "William Boyd's description of Tate's working procedure is so vivid that it convinces me that the small oil I picked up on Prince Street, New York, in the late '60s must indeed be one of the lost Third Panel Triptychs. The great sadness of this quiet and moving monograph is that the artist's most profound dread-that God will make you an artist but only a mediocre artist-did not in retrospect apply to Nat Tate."-David Bowie "A moving account of an artist too well understood by his time."-Gore Vidal

Love and Understanding

Cinema Wars explores the intersection of film, politics, and US culture and society through a bold critical analysis of the films, TV shows, and documentaries produced in the early 2000s. Offers a thought-provoking depiction of Hollywood film as a contested terrain between conservative and liberal forces. Films and documentaries discussed include: Black Hawk Down, The Dark Knight, Star Wars, Syriana, WALL-E, Fahrenheit 9/11 and other Michael Moore documentaries, amongst others. Explores how some films in this era supported the Bush-Cheney regime, while others criticized the administration, openly or otherwise. Investigates Hollywood's treatment of a range of hot topics, from terrorism and environmental crisis to the Iraq war and the culture wars of the 2000s. Shows how Hollywood film in the 2000s brought to life a vibrant array of social protest and helped create cultural conditions to elect Barack Obama.

The Hunting Ground

An FBI agent hunts a new kind of terrorist through a Washington, DC, of the future in this groundbreaking book - at once a gripping technothriller and a fact-based tour of tomorrow America is on the brink of a revolution, one both technological and political. The science fiction of AI and robotics has finally come true, but millions are angry and fearful that the future has left them behind. After narrowly stopping a bombing at Washington's Union Station, FBI Special Agent Lara Keegan receives a new assignment: to field-test an advanced police robot. As a series of shocking catastrophes unfolds, the two find themselves investigating a conspiracy whose mastermind is using cutting-edge tech to rip the nation apart. To stop this new breed of terrorist, their only hope is to forge a new type of partnership. Burn-In is especially chilling because it is something more than a pulse-pounding read: every tech, trend, and scene is drawn from real world research on the ways that our politics, our economy, and even our family lives will soon be transformed. Blending a techno-thriller's excitement with nonfiction's insight, Singer and Cole illuminate the darkest corners of the world soon to come.

100 Superlative Rolex Watches

Wickedly funny, this totally engaging, richly observed first novel by Hannah Rothschild is a tour de force. Its sweeping narrative and cast of wildly colorful characters takes you behind the scenes of a London auction house, into the secret operations of a powerful art dealer, to a flamboyant eighteenth-century-style dinner party, and into a modest living room in Berlin, among many other unexpected settings. In *The Improbability of Love* we meet Annie McDee, thirty-one, who is working as a chef for two rather sinister art dealers. Recovering from the end of a long-term relationship, she is searching in a neglected secondhand shop for a birthday present for her unsuitable new lover. Hidden behind a rubber plant on top of a file cabinet, a grimy painting catches her eye. After spending her meager savings on the picture, Annie prepares an elaborate birthday dinner for two, only to be stood up. The painting becomes hers, and as it turns out, Annie has stumbled across a lost masterpiece by one of the most important French painters of the eighteenth century. But who painted this masterpiece is not clear at first.

Soon Annie finds herself pursued by interested parties who would do anything to possess her picture. For a gloomy, exiled Russian oligarch, an avaricious sheikha, a desperate auctioneer, and an unscrupulous dealer, among others, the painting embodies their greatest hopes and fears. In her search for the painting's identity, Annie will unwittingly uncover some of the darkest secrets of European history—as well as the possibility of falling in love again. Irreverent, witty, bittersweet, *The Improbability of Love* draws an unforgettable portrait of the London art scene, but it is also an exuberant and unexpected journey through life's highs and lows and the complexities of love and loss.

New York

The debate over sexual violence on campus is reaching fever pitch, from headlines about out-of-control fraternities, to the "mattress protests" by female students at Columbia University and other colleges. *The Hunting Ground*, the new documentary by award-winning filmmakers Kirby Dick and Amy Ziering, has taken this debate to a new level, becoming a galvanizing catalyst for discussion at the hundreds of campuses where the documentary is being screened each month. The film has sparked calls for legislation by Governor Andrew M. Cuomo of New York and other prominent public figures and sparked a backlash from university administrators, fraternities, and conservative groups. Now, in a new companion volume to the film, all those concerned about the "rape culture" on campus will be offered an inside perspective on the controversy, as well as reactions to the film from a range of leading writers and guidance on how to learn more and get active. As in the film, it's the gripping personal stories told by female students—and the obstinate refusal of college administrators and law enforcement authorities to recognize the severity of the problem—that will rivet readers.

"Rolex was established in 1908, a century ago, so one hundred years have passed from that day to the publication of this volume in which the author, John Goldberger, illustrates what he considers to be the 100 most beautiful examples ever produced. One hundred years of life, and one hundred examples, traced back through time thanks to painstaking research, with the collaboration of some of the most renowned collectors in the world, and photographed to show the characteristics of the movement, case and dial of each example in the best possible way. The top one hundred, we could say, also to narrow down the field of research, which would otherwise have been incredibly vast, to grasp the essence of a brand that has probably contributed more than any other to the development of the wristwatch. Giampiero Negretti Over 700 colour illustrations and 400 descriptions provide the collector and watch enthusiast with invaluable information

on reference numbers, watchcases, faces, movements, related calibres and the year of production of each watch. The book is divided into seven chapters: Watches with a destiny; Oyster; Chronograph and moon phases; Oyster chronograph and moon phases; Datejust, Day-Date; Sport Models; Cosmograph."--BOOK JACKET.

Consumer Reports

Describing how a small and dedicated group of sneaker consumers in the 70s and early 80s proved instrumental in establishing current corporate giants like Nike and adidas, aficionado and legendary hip-hop icon Bobbito Garcia writes with the exactitude and affection that only a true believer could convey.

Andrew Jackson

National Bestseller In this, the first major single-volume biography of Andrew Jackson in decades, H.W. Brands reshapes our understanding of this fascinating man, and of the Age of Democracy that he ushered in. An orphan at a young age and without formal education or the family lineage of the Founding Fathers, Jackson showed that the presidency was not the exclusive province of the wealthy and the well-born but could truly be held by a man of the people. On a majestic, sweeping scale Brands re-creates Jackson's rise from his hardscrabble roots to his days as frontier lawyer, then on to his heroic victory in the Battle of New Orleans, and finally to the White House. Capturing Jackson's outsized life and deep impact on American history, Brands also explores his controversial actions, from his unapologetic expansionism to the disgraceful Trail of Tears. This is a thrilling portrait, in full, of the president who defined American democracy.

This is the definitive handbook filled with insider information available nowhere else.

The Bedwetter

A work of dangerous and haunting beauty by America's last real literary outlaw. Under Tiberius is a thrilling story of crime and deceit involving the man who came to be called Jesus Christ. Deep in the recesses of the Vatican, Nick Tosches unearths a first-century memoir by Gaius Fulvius Falconius, foremost speechwriter for Emperor Tiberius. The codex is profound, proof of the existence of a Messiah

who was anything but the one we've known -- a shabby and licentious thief. After encountering him in the streets of Judea, Gaius becomes spin doctor to Jesus, and the pair schemes to accrue untold riches by convincing the masses that Jesus is the Son of God. As their marriage of truth and lies is consummated, friendship and wary respect develop between these two grifters. Outrageous and disturbing, *Under Tiberius* is as black as the ravishing night, shot through with fierce and brilliant light.

The Improbability of Love

In this volume, the renowned linguist Nicoline van der Sijs glosses over some 300 Dutch loan words that travelled to the New World between the 17th and the 20th century.

Hitler

"An overwhelming, outstanding novel!"—Irish Times Captain Jack Aubrey, R. N., ashore after a successful cruise, is persuaded by a casual acquaintance to make certain investments in the City. This innocent decision ensnares him in the London criminal underground and in government espionage—the province of his friend Stephen Maturin. Is Aubrey's humiliation and the threatened ruin of his career a deliberate plot? This dark tale is a fitting backdrop to the brilliant characterization and sparkling dialogue which O'Brian's readers have come to expect.

The Short Victorious War

A riveting thriller reminiscent of *The Hot Zone*, this true story dives into the mystery surrounding one of the most controversial and misdiagnosed conditions of our time—Lyme disease—and of Willy Burgdorfer, the man who discovered the microbe behind it, revealing his secret role in developing bug-borne biological weapons, and raising terrifying questions about the genesis of the epidemic of tick-borne diseases affecting millions of Americans today. While on vacation on Martha's Vineyard, Kris Newby was bitten by an unseen tick. That one bite changed her life forever, pulling her into the abyss of a devastating illness that took ten doctors to diagnose and years to recover: Newby had become one of the 300,000 Americans who are afflicted with Lyme disease each year. As a science writer, she was driven to understand why this disease is so misunderstood, and its patients so mistreated. This quest led her to Willy Burgdorfer, the Lyme microbe's discoverer, who revealed that he had developed bug-borne bioweapons during the Cold War, and believed that the Lyme epidemic was started by a military experiment gone wrong. In a superb, meticulous work of narrative journalism, *Bitten* takes readers on a journey to investigate these claims, from biological weapons facilities to interviews with biosecurity experts and microbiologists doing cutting-edge research, all the while uncovering darker truths about Willy. It also leads her to uncomfortable questions about why Lyme can be so difficult to both diagnose and treat, and why the government is so reluctant to classify chronic Lyme as a disease. A gripping, infectious page-turner, *Bitten* will shed a terrifying new light on an epidemic that is exacting an incalculable toll on us, upending much of what we believe we know about it.

The Four

During the early seventeenth century, Kisama emerged in West Central Africa (present-day Angola) as communities and an identity for those fleeing expanding states and the violence of the trans-Atlantic slave trade. The fugitives mounted effective resistance to European colonialism despite—or because of—the absence of centralized authority or a common language. In *Fugitive Modernities* Jessica A. Krug offers a continent- and century-spanning narrative exploring Kisama's intellectual, political, and social histories. Those who became Kisama forged a transnational reputation for resistance, and by refusing to organize their society around warrior identities, they created viable social and political lives beyond the bounds of states and the ruthless market economy of slavery. Krug follows the idea of Kisama to the Americas, where fugitives in the New Kingdom of Grenada (present-day Colombia) and Brazil used it as a means of articulating politics in fugitive slave communities. By tracing the movement of African ideas, rather than African bodies, Krug models new methods for grappling with politics and the past, while showing how the history of Kisama and its legacy as a global symbol of resistance that has evaded state capture offers essential lessons for those working to build new and just societies.

Fugitive Modernities

Winner of the Los Angeles Times Book Prize for Biography A New York Times bestseller, this major new biography of Hitler puts an emphasis on the man himself: his personality, his temperament, and his beliefs. Volker Ullrich's *Hitler*, the first in a two-volume biography, has changed the way scholars and laypeople alike understand the man who has become the personification of evil. Drawing on previously unseen papers and new scholarly research, Ullrich charts Hitler's life from his childhood through his experiences in the First World War and his subsequent rise as a far-right leader. Focusing on the personality behind the policies, Ullrich creates a vivid portrait of a man and his megalomania, political skill, and horrifying worldview. *Hitler* is a landmark biography with unsettling resonance in these times.
