### **Intermediate Algebra Mathxl Tutorials**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for College Algebra**

This supplement provides algorithmically generated practice exercises that correlate at the objective level to the content of the text. Every exercise is accompanied by an example and a guided solution, and selected exercises also include a video

clip. The software provides helpful feedback and can generate printed summaries of students, progress.

### **MathXL Tutorials on CD for Beginning and Intermediate Algebra**

This supplement provides algorithmically generated practice exercises that correlate at the objective level to the content of the text. Every exercise is accompanied by an example and a guided solution, and selected exercises also include a video clip. The software provides helpful feedback and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Introductory Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **Beginning Algebra With Applications & Visualization Mathxl Tutorials**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Developmental Mathematics**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **Beginning and Intermediate Algebra With Applications & Visualization Mathxl Tutorials**

This supplement provides algorithmically generated practice exercises that correlate at the objective level to the content of the text. Every exercise is accompanied by an example and a guided solution, and selected exercises also include a video clip. The software provides helpful feedback and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Mathematics in Action**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Precalculus**

This supplement provides algorithmically generated practice exercises that correlate at the objective level to the content of the text. Every exercise is accompanied by an example and a guided solution, and selected exercises also include a video clip. The software provides helpful feedback and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Introductory Algebra Through Applications**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Elementary Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

## **MathXL Tutorials on CD for Integrated Arithmetic and Basic Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress."

## **MathXL Tutorials on CD for Intermediate Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress."

## **Beginning Algebra Mathxl Tutorials**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress."

## **Mathematics in Action Mathxl Tutorials**

This CD allows students the opportunity to practice exercises that correlate to the exercises at the end of the sections in the textbook. They are algorithmically generated so students can retry an exercise as many times as they would like with new values each time. Every exercise is accompanied by an example and an interactive guided solution that gives students helpful feedback if they enter an incorrect answer. Selected exercises also include a video clip so students can have help visualizing concepts.

## **MathXL Tutorials on CD**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Elementary Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Basic College Mathematics**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Intermediate Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Prealgebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective

level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Intermediate Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Prealgebra**

This supplement provides algorithmically generated practice exercises that correlate at the objective level to the content of the text. Every exercise is accompanied by an example and a guided solution, and selected exercises also include a video clip. The software provides helpful feedback and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Prealgebra**

This supplement provides algorithmically generated practice exercises that correlate at the objective level to the content of the text. Every exercise is accompanied by an example and a guided solution, and selected exercises also include a video clip. The software provides helpful feedback and can generate printed summaries of students' progress.

### **Algebra MathXL Tutorials on CD**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

## **Mathxl Tutorials on CD**

Summary: The MathXL(R) Tutorials on CD delivers all of MathXL's algorithmically generated practice exercises in an off-line format. Exercises are correlated at the objective level to the exercises in the textbook, and each exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress. Not available for courses in Calculus and Statistics. Visit [www.mathxl.com](http://www.mathxl.com) for more information or contact your sales representative for more information.

## **Intermediate Algebra With Applications & Visualization Mathxl Tutorials**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

## **MathXL Tutorials on CD for Intermediate Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

## **MathXL Tutorials on CD for College Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

## **MathXL Tutorials on CD for Introductory and Intermediate Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

## **MathXL Tutorials on CD for Elementary Algebra**

## **MathXL Tutorials on CD for Beginning Algebra**

## **MathXL Tutorials on CD for Algebra and Trigonometry**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

## **MathXL Tutorials on CD for Elementary and Intermediate Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

## **MathXL Tutorials on CD for Prealgebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective

level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Intermediate Algebra**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.

### **MathXL Tutorials on CD for Prealgebra**

This supplement provides algorithmically generated practice exercises that correlate at the objective level to the content of the text. Every exercise is accompanied by an example and a guided solution, and selected exercises also include a video clip. The software provides helpful feedback and can generate printed summaries of students' progress."

### **Math XL**

This supplement provides algorithmically generated practice exercises that correlate at the objective level to the content of the text. Every exercise is accompanied by an example and a guided solution, and selected exercises also include a video clip. The software provides helpful feedback and can generate printed summaries of students' progress.

### **Intermediate Algebra for College Students Mathxl Tutorials**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated with the exercises in the textbook at the objective level. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress

## **Elementary Algebra Mathxl Tutorials**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress."

## **MathXL Tutorials on CD**

This interactive tutorial CD-ROM provides algorithmically generated practice exercises that are correlated at the objective level to the exercises in the textbook. Every practice exercise is accompanied by an example and a guided solution designed to involve students in the solution process. Selected exercises may also include a video clip to help students visualize concepts. The software provides helpful feedback for incorrect answers and can generate printed summaries of students' progress.
