Waking up in a Pullman car one morning, a man finds that he can't remember who he is or where he is going. Before long he learns his name is Rodney Hazzard, and his destination is the small Appalachian community of South Tredegar, where he's apparently a businessman of some importance. Embarrassed by his predicament Hazzard - who apparently lost his memory upon being stricken with typhoid fever - attempts to bluff his way forward until such time as his memory returns, which his local doctor has predicted. But he may not have as much time as he thinks: the amnesiac is implicated in murder and a big business deal hangs in the balance! A classic of suspense that presages the type of yarn in which Cornell Woolrich later excelled.

FRANCIS LYNDE (1856-1930) specialized in a type of story very much coveted by Charles Agnew MacLean, editor of Street & Smith's *The Popular Magazine*, one of the best-selling pulp magazines of the early 20th century. Lynde frequently wrote of ambitious, clean-living young American men surmounting difficult obstacles to succeed in difficult business ventures. He also created a well-liked sleuth, Scientific Sprague, and sold yarns to pulps and slicks alike while remaining one of the mainstays of *The Popular* until his death in 1930. This is the seventh volume in the ten-book "Forgotten Classics of Pulp Fiction" series.

The station-agent shoved his hairy hands into the pockets of his overalls, jingled an unseen bunch of keys, and chewed a dry grass stem, ruminating the while in an undertone: "This poet come here five years ago with all them kids, an' the fust thing he done was to dress up his girls in boys' pants. Then he went an' built a humpy sort o' house out of stones and boulders. Then he went to work an' wrote pieces for the papers about jay-birds an' woodchucks an' goddesses. He claimed the woods was full of goddesses. That was his way, sir." The agent contemplated the railroad track, running his eye along the perspective of polished rails: "Yes, sir; his name was—and is—Clarence Guilford, an' I fust seen it signed to a piece in the Uticy Star. An' next I knowed, folks began to stop off here inquirin' for Mr. Guilford. 'Is this here where Guilford, the poet, lives?' sez they; an' they come thicker an' thicker in warm weather. There wasn't no wagon to take 'em up to

Guilford's, but they didn't care, an' they called it a lit'r'y shrine, an' they hit the pike, women, children, men—'speshil the women, an' I heard 'em tellin' how Guilford dressed his kids in pants an' how Guilford was a famous new lit'r'y poet, an' they said he was fixin' to lecture in Uticy." The agent gnawed off the chewed portion of the grass stem, readjusted it, and fixed his eyes on vacancy. "Three year this went on. Mr. Guilford was makin' his pile, I guess. He set up a shop an' hired art bookbinders from York. Then he set up another shop an' hired some of us 'round here to go an' make them big, slabby art-chairs. All his shops was called "At the sign of" somethin' 'r other. Bales of vellum arrived for to bind little dinky books; art rocking-chairs was shipped out o' here by the carload. Meanwhile Guilford he done poetry on the side an' run a magazine; an' hearin' the boys was makin' big money up in that crank community, an' that the town was boomin', I was plum fool enough to drop my job here an' be a art-worker up to Rose-Cross—that's where the shops was; 'bout three mile back of his house into the woods."

In this #1 New York Times bestseller in Sue Grafton's Alphabet series, private investigator Kinsey Millhone has her hands full when a job that should be easy money takes a turn for the worse. Reba Lafferty was a daughter of privilege, the only child of an adoring father. Nord Lafferty was already in his fifties when Reba was born, and he could deny her nothing. Over the years, he quietly settled her many scrapes with the law, but wasn't there for her when she was convicted of embezzlement and sent to the California Institution for Women. Now, at thirty-two, she's about to be paroled, having served twenty-two months of a four-year sentence. Her father wants to be sure Reba stays straight, stays home and away from the drugs, the booze, and the gamblers. It seems a straightforward assignment for Kinsey: babysit Reba until she settles in, make sure she follows all the niceties of her parole. Maybe a week's work. Nothing untoward—the woman seems remorseful and friendly.

And the money is good. But life is never that simple, and Reba is out of prison less than twenty-four hours when one of her old crowd comes circling round

The Handbook of Jamaica : Comprising Historical, Statistical and General Information Concerning the Island

Growing Up Empty is a study of the hidden hunger epidemic that still remains largely unacknowledged at the highest political levels and "an unforgettable exploration of public policy, its failures and its victims" (William Raspberry, Washington Post). Twenty years after Ronald Reagan declared that hunger was no longer an American problem, Schwartz-Nobel shows that hunger has reached epic

proportions, running rampant through urban, rural, and suburban communities, affecting blacks, whites, Asians, Christians and Jews, and nonbelievers alike. Among the people we come to know are the new homeless. Born of the "Welfare to Work" program, these working poor have jobs but do not make enough to support their families, such as the formerly middle-class housewife reduced to stealing in order to feed her children, or the soldier fighting on our front lines while his young wife stands in bread lines and is denied benefits and baby formula at a military health clinic. With skillful investigative reporting and a novelist's humanitarian eye for detail, Schwartz-Nobel portrays a haunting reality of human suffering that need not exist. A call to action, *Growing Up Empty* is advocacy journalism at its best.

Twin brothers Ethan and Jack Stone have built the ultimate transparency app--Stalker--and it's going to make them rich. But when Ethan's girlfriend dumps him and his brother bails for their biggest competitor, Ethan is convinced they ran off together. He uses Stalker to find out, tracking them from Silicon Beach to Silicon Valley, and the secret he reveals is even more twisted than he imagined. Between his faith in people and the technology he designed to expose the truth, Ethan is forced to rethink everything he had believed regarding privacy, freedom, and trust.
