The idea that Christianity started as a clandestine movement among the poor is a widely accepted notion. Yet it is one of many myths that must be discarded if we are to understand just how a tiny messianic movement on the edge of the Roman Empire became the dominant faith of Western civilization. In a fast-paced, highly readable book that addresses beliefs as well as historical facts, Rodney Stark brings a sociologist's perspective to bear on the puzzle behind the success of early Christianity. He comes equipped not only with the logic and methods of social science but also with insights gathered firsthand into why people convert and how new religious groups recruit members. He digs deep into the historical evidence on many issues--such as the social background of converts, the mission to the Jews, the status of women in the church, the role of martyrdom--to provide a vivid and unconventional account of early Christianity. The author plots the most plausible curve of Christian growth from the year 40 to 300. By the time of Constantine, Christianity had become a considerable force, with growth patterns very similar to those of modern-day successful religious movements. An unusual number of Christian converts, for example, came from the educated, cosmopolitan classes. Because it offered a new perspective on familiar concepts and was not linked to ethnicity, Christianity had a large following among persons seeking to assimilate into the dominant culture, mainly Hellenized Jews. The oversupply of women in Christian communities--due partly to the respect and protection they received--led

to intermarriages with pagans, hence more conversions, and to a high fertility rate. Stark points out, too, the role played by selflessness and faith. Amidst the epidemics, fires, and other disasters that beleaguered Greco-Roman cities, Christian communities were a stronghold of mutual aid, which resulted in a survival rate far greater than that of the pagans. In the meantime, voluntary martyrdom, especially a generation after the death of Christ, reinforced the commitment of the Christian rank and file. What Stark ultimately offers is a multifaceted portrait of early Christianity, one that appeals to practical reasoning, historical curiosity, and personal reflection.

Romulus and Remus, the rape of Lucretia, Horatius at the bridge, the saga of Coriolanus, Cincinnatus called from his farm to save the state -- these and many more are stories which, immortalized by Livy in his history of early Rome, have become part of our cultural heritage. This new annotated translation includes maps

## Download Ebook Mcgraw Roman Civilization Vocabulary Answers

and an index and is based on R. M Ogilvie's Oxford Classical text, the best to date. - ;` the fates ordained the founding of this great city and the beginning of the world's mightiest empire, second only to the power of the gods' Romulus and Remus, the rape of Lucretia, Horatius at the bridge, the saga of Coriolanus, Cincinnatus called from his farm to save the state - these and many more are stories which, immortalised by Livy in his history of early Rome, have become part of our cultural heritage. The historian's huge work, written between 20 BC and AD 17, ran to 12 books, beginning with Rome's founding in 753 BC and coming down to Livy's own lifetime (9 BC). Books 1-5 cover the period from Rome's beginnings to her first great foreign conquest, the capture of the Etruscan city of Veii and, a few years later, to her first major defeat, the sack of the city by the Gauls in 390 BC. -

E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-

## Download Ebook Mcgraw Roman Civilization Vocabulary Answers

known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.
