Federal Criminal Restitution

In this electrifying bestseller, the shrewd and voluble trial lawyer Louis Nizer, who made a long career of representing famous people in famous cases, recounts some of his significant civil and criminal cases. Nizer rose to national fame with his real-life accounts of tension-filled courtrooms and the fervor of the advocate, and "My Life in Court" proved to be no exception: it rose to the top of the Times's best-seller list on its publication in 1961 and logged 72 weeks as a sales leader. The book is an in-depth collection of some of Mr. Nizer's court case success stories, including his client Quentin Reynolds' famous libel action against the columnist Westbrook Pegler, which would also become the basis of the 1963 Broadway play "A Case of Libel." Praised by critics as "entertaining and philosophically instructive, an unusual combination," Nizer's movie-like plots of real-life courtroom drama will keep you captivated until the very last page.

The adoption of the Convention on the Rights of
People with Disabilities (CPRD) by the United Nations
in 2006 is the first comprehensive and binding treaty
on the rights of people with disabilities. It establishes
the right of people with disabilities to equality,
dignity, autonomy, full participation, as well as the
right to live in the community, and the right to
supported decision-making and inclusive education.
Prior to the CRPD, international law had provided only
limited protections to people with disabilities. This
book analyses the development of disability rights as

an international human rights movement. Focusing on the United States and countries in Asia, Africa, the Middle East the book examines the status of people with disabilities under international law prior to the adoption of the CRPD, and follows the development of human rights protections through the convention's drafting process. Arlene Kanter argues that by including both new applications and entirely new approaches to human rights treaty enforcement, the CRPD is significant not only to people with disabilities but also to the general development of international human rights, by offering new human rights protections for all people. Taking a comparative perspective, the book explores how the success of the CRPD in achieving protections depends on the extent to which individual countries enforce domestic laws and policies, and the changing public attitudes towards people with disabilities. This book will be of excellent use and interest to researchers and students of human rights law, discrimination, and disability studies.

The attention devoted to the unprecedented levels of imprisonment in the United States obscure an obvious

but understudied aspect of criminal justice: there is no consistent punishment policy across the U.S. It is up to individual states to administer their criminal justice systems, and the differences among them are vast. For example, while some states enforce mandatory minimum sentencing, some even implementing harsh and degrading practices, others rely on community sanctions. What accounts for these differences? *The Politics of Imprisonment* seeks to document and explain variation in American penal sanctioning, drawing out the larger lessons for America's overreliance on imprisonment. Grounding her study in a comparison of how California, Washington, and New York each developed distinctive penal regimes in the late 1960s and early 1970s--a critical period in the history of crime control policy and a time of unsettling social change--Vanessa Barker concretely demonstrates that subtle but crucial differences in political institutions, democratic traditions, and social trust shape the way American states punish offenders. Barker argues that the apparent link between public participation, punitiveness, and harsh justice is not universal but dependent upon the varying institutional contexts and patterns of civic engagement within the U.S. and across liberal democracies. A bracing examination of the relationship between punishment and democracy, *The Politics of Imprisonment* not only suggests that increased public participation in the political process can support and sustain less coercive penal regimes, but also warns that it is precisely a lack of civic engagement that may underpin mass incarceration in the United States.
