### **Mazda Miata MX-5 Performance Projects**

A powerful, blazingly honest, inspiring memoir: the story of a 1,100 mile solo hike that broke down a young woman reeling from catastrophe--and built her back up again.

### **Road Trip USA Pacific Coast Highway**

In 1982, at the age of just twenty-three and halfway through her architecture studies, Elspeth Beard left her family and friends in London and set off on a 35,000-mile solo adventure around the world on her 1974 BMW R60/6. Reeling from a recent breakup and with only limited savings from her pub job, a tent, a few clothes and some tools, all packed on the back of her bike, she was determined to prove herself. She had ridden bikes since her teens and was well travelled. But nothing could prepare her for what lay ahead. When she returned to London nearly two and a half years later she was stones lighter and decades wiser. She'd ridden through unforgiving landscapes and countries ravaged by war, witnessed civil uprisings that forced her to fake documents, and fended off sexual attacks, biker gangs and corrupt police convinced she was trafficking drugs. She'd survived life-threatening illnesses, personal loss and brutal accidents that had left permanent scars and a

black hole in her memory. And she'd fallen in love with two very different men. In an age before email, the internet, mobile phones, satnavs and, in some parts of the world, readily available and reliable maps, Elspeth achieved something that would still seem remarkable today. Told with honesty and wit, this is the extraordinary and moving story of a unique and life-changing adventure.

#### **To Shake the Sleeping Self**

reaking the Limit is one woman's account of riding her motorcycle from New Jersey to Alaska and back. Realizing that years of work and travel in other people's countries made her a stranger in her own, and with an invitation to meet her biological father for the first time, Karen Larsen set out on a fifteen-thousand-mile trip with nothing but her motorcycle and the barest of essentials. Larsen's journey tests the limits of her own endurance, challenges her long-held beliefs and values, and asks what it means to belong to a family. Through the the fields of Iowa and the deserts of the Southwest, over the Rockies and across Alaska's Kenai Peninsula, Larsen confronts questions of femininity, family, independence, and personal identity. Her journey speaks to the immense space and over-whelming beauty of North America, as well as to the diversity and vitality of the people she meets along the way. Breaking the Limit invites you to join her as she braces against the wind, trades security for freedom, sacrifices stability for motion, and opens herself up to the vast canopy of a continent.

The long-departed Steve McQueen is still the coolest man on two wheels. Get an intimate look at his coolest bikes right here, right now, in McQueen's Motorcycles. Even thirty years after his death, Steve McQueen remains a cultural icon. His image continues to appear in advertising and pop culture and his fan base spans from car lovers to racing enthusiasts to motorcycle obsessives. In his movies, McQueen's character always had an envy-inducing motorcycle or car, but in his personal life, motorcycles were always McQueen's first true love. McQueen's Motorcycles focuses on the bikes that the King of Cool raced and collected. From the first Harley McQueen bought when he was an acting student in New York to the Triumph "desert sleds" and Huskys he desert raced all over California, Mexico, and Nevada, McQueen was never without a stable of two wheelers. His need for speed propelled him from Hollywood into a number of top off-road motorcycle races, including the Baja 1000, Mint 400, Elsinore Grand Prix, and even as a member of the 1964 ISDT team in Europe. Determined to be ahead of the pack, McQueen maintained his body like it was a machine itself. He trained vigorously, weight lifting, running, and studying martial arts. Later in his life, as he backed away from Hollywood, his interests turned to antique bikes and he accumulated an extensive collection,

including Harley-Davidson, Indian, Triumph, Brough Superior, Cyclone, BSA, and Ace motorcycles. Today, McQueen still has the Midas touch; anything that was in the man's possession is a hot commodity.

McQueen's classic motorcycles sell for top dollar at auctions, always at a multiple of what the same bike is worth without the McQueen pedigree. McQueen's Motorcycles reveals these highly sought-after machines in gorgeous photography and full historical context.

He chronicled the trip on Instagram, where his photos and reflections on life soon attracted hundreds of thousands of followers and got him featured by National Geographic and The Paris Review. Jed now narrates the adventure that started it all: the people and places he encountered on his way to the bottom of the world, and the internal journey that prompted it -- the question of what it means to be an adult; his struggle to reconcile his sexual identity with his conservative Christian upbringing; and his belief in travel as a way to "wake us up" to our lives back home. As he writes in this account of his search for wonder and a life he could believe in, 'It's not about the bike. It's about getting out of your routine -- and that could look like anything.'"

Four short weeks later, Linda joins two men and a woman for a white-knuckled, exhilarating road trip along the west coast from Vancouver, Canada, to the wine country of Mendocino, California. Along the way she encounters washed-out mountain roads, small town hospitality, humming redwoods, and acceptance from gentle souls who happen to have tattoos and piercings. Riding a bicycle across the US is one of those bucket-list goals that many dream about but few achieve. Bestselling author and New York Times reporter Bruce Weber made the trip, solo, over the summer and fall of 2011--at the age of fifty-seven. Expanding upon his popular series published in The New York Times, *Life Is a Wheel* is the witty and inspiring account of his journey, where he extols the pleasures of cycling and reflects on what happened on his adventure, in the world, in the country, and in his life. The story begins on the Oregon coast with a middle-aged man wondering what he's gotten himself into and ends in triumph on the George Washington Bridge, wondering how soon he might try it again. Part travelogue, part memoir, part paean to the bicycle as a simple and elegant mode of both mobility and self-expression--and part wry and panicky account of a fifty-seven-year-old man's attempt to stave off mortality--*Life Is a Wheel* is an elegant and entertaining escape for any armchair traveler"--
