Oriental Rug Primer

A Manual of Historic Ornament

Catalogue Mrs. Phoebe A. Hearst Loan Collection

This monumental reference work—long awaited by collectors and scholars—fills an important gap in the available literature on oriental rugs. Lavishly illustrated with over 1000 photographs and drawings, it offers clear and precise definitions for the rug and textile terms in use across a broad swath of the globe—from Morocco to Turkey, Persia, the Caucasus region, Central Asia, Afghanistan, Pakistan, India and China. Covering priceless museum-quality rug traditions as well as modern centers of production, *Oriental Rugs: An Illustrated Lexicon of Motifs, Materials, and Origins* draws on classical scholarship as well as current terminology in use among producers and traders in these areas today. It focuses primarily on the rich hand-knotting and hand-weaving traditions of the Near East and Central Asia, but also includes some examples of Scandinavian and Native American weavings. Oriental rugs are receiving ever-increasing attention and recognition in the field of art history. Tribal weavings especially have become a focus for new research, and *Oriental Rugs* provides a new understanding of many distinctive traditions that were previously understudied, such as the weavings of southwest Persia, Baluchistan and Kurdistan. This concise oriental rug reference book is a must-have for scholars and anyone serious about collecting rugs, selling rugs or the rug trade

in general. Additional reference information also includes: Foreign terms Place names The Oriental Rug lexicon Museums with notable rug collections Oriental rug internet sites

Facts about Oriental Rugs

An essential reference work for all oriental rug scholars, collectors, dealers, and Islamic art historians, this is the first comprehensive bibliography written in English on the oriental rug and carpet literature, beginning with the first publication on

oriental rugs in 1877 and including all known publications in any language published through 1992. O'Bannon has attempted to identify all single publications, including reprints of articles from journals and periodicals on this topic-2,875 separate entries in all. The bibliography is divided into three major categories: Carpets; Islamic Arts and Textiles; and Maintenance, Care, and Related Books, with general and geographic subdivisions. Related topics include wool, dyeing, looms, technical aspects of weaving, and the history of oriental carpets. Numbered for easy reference, entries are listed alphabetically by author and include standard bibliographic information and brief annotations. Titles of non-English language publications are transliterated into English. There are several cross references to geographic areas, tribal weavings, exhibitions, basic reference works, and private and public collections of oriental rugs.

The Practical Book of Oriental Rugs

Learn how to identify handmade rugs using techniques employed by experts without having years of experience! If you want a more in depth understanding of how experts identify rugs, then this eBook is what you've been searching for. But first a warning, this eBook is not for everyone. There are many fine books which address history, geography and designs; but they omit an important factor which experts rely on for identification – the specific weave pattern found on the back of the rug. If you wish to go beyond a cursory understanding of rugs, this is the eBook for you. The Art of Oriental Rugs – A Weaver's Perspective presents an insider-look which examines what is a weave, what causes it, and how to recognize it. This work is the result of examining hundreds of pieces through three years of intensive research. This is the first extended toolkit of its kind to demonstrate different Persian (rugs woven in the country of Iran) weaves based on their region and explore why they look the way they do. The goal is to establish generally accepted weave patterns attributed to each rug-weaving region in Iran. It is more than just samples from Iran however, it also includes pieces from Caucasus, Turkey, China, Turkmen and others. • With 1800+ pages it provides ample opportunity for an in-depth examination of weaves and many samples to aid in identification. • Depending on your level of interest, you can go as deep as you wish in understanding why weaves look the way they do on the back of each rug. • Although this work can be viewed on smaller screens, to be able to properly examine pictures including characteristics unique to each piece, it is intended for larger screens (8 inch or larger). It includes 500+ pictures of rugs woven in Iran

(Persian) which are available in the market today. It includes 750+ closeup pictures of weaves from the backs of rugs from 170+ weaving regions around the world, including Iran (Persian), Caucasus, Turkey, China, Turkmen and others. This will aid in identifying rug origins. It also includes maps of each region with the different weaving types to help better understand how the regions use similar/different weaving techniques.
