Attack on the Bible

Tempting the Best Man (A Gamble Brothers Novel) by J. Lynn Madison Daniels has worshipped her brother's best friend since they were kids. Everyone thinks she and Chase Gamble would make the perfect couple, but there are two major flaws in their logic. 1) Chase has sworn off relationships of any kind, and 2) after blurring the line between friends and lovers for one night four years ago, they can't stop bickering. Forced together for her brother's wedding getaway, Chase and Madison decide to call a truce for the happy couple. Except all bets are off when they're forced to shack up in a tacky 70's honeymoon suite and survive a multitude of "accidents" as the family tries to prove their "spark" can be used than for more than fighting. That is, if they don't strangle each other first

The Minor Prophets

We broke all the rules to be together. Now, we have to live with the consequences. For the first time, I finally feel like I belong. Tobias and I have a chance at a better life now. A new beginning. But the sins of my past have come back to haunt us. An old enemy stands in the way of the happy ending Tobias and I deserve. An unbreakable force, one more powerful than we ever expected. And he's coming for me. Unbroken is the second book of a trilogy. Untouched must be read first.

George Whitefield was the greatest evangelist of the 18th century in America and was a major contributor to the Great Awakening. Whitefield criss-crossed the countryside of Colonial America boldly preaching the message of salvation. Crowds packed the churches and outdoor venues whenever Whitefield appeared, bubbling over with eager anticipation to hear his great oration. His preaching was described as bold, purely gospel, and blazing with an intensity of evangelistic passion. His voice was so powerful that 30,000 people could hear him at once, and yet still so musical and sweetly toned that he could, by the grace of God, bring hardened men to tears of repentance. In, *The Method of Grace*, a classic of revival preaching, Whitefield shows the way God has provided for a person to receive true, lasting peace for his soul. See how this great preacher of the Great Awakening brought the Gospel into intimate connection with people's hearts and not just their heads. For those who preach the Gospel it will have a profound impact on how you preach the message of peace.

At five thousand years old, the vampire Alisa thought she was smart enough to stay out of trouble. But when her creator returns to hunt her, she must protect herself by befriending Ray, the boy who may be her only chance at finding her maker. When she begins to fall in love with Ray, all of a sudden there is more at stake than her own life. Originally published in 1994, this series netted more than 500,000 copies as individual titles and later as bind-ups. This hot new repackage will revive the series for today's teen.

The Church That Will Be Left Behind

The maintenance of the freedom of fishing in the face of the changing circumstances that were occurring at the time of this title's original publication in 1973 had produced several damaging consequences. It had led to considerable waste, in both biological and economic terms, and had been the source of increasing conflict. This waste can only be prevented by the adoption of management measures and by the removal of the condition of free and open access. This book explores various techniques for this, and will be of interest to students of environmental management.

Tempting the Best Man

In the wrong hands, math can be deadly. Even the simplest numbers can become powerful forces when manipulated by journalists, politicians or other public figures, but in the case of the law your liberty—and your life—can depend on the right calculation. *Math on Trial* tells the story of ten trials in which mathematical arguments were used—and disastrously misused—as evidence. Despite years of math classes, most people (and most jurors) fail to detect even simple mathematical sophistry, resulting in such horrors as a medical expert's faulty calculation of probabilities providing the key evidence for a British mother's conviction for the murder of her two babies. The conviction was later overturned, but three years in prison took its toll—Sally Clark died of acute alcohol intoxication in March of 2007. Mathematicians Leila Schneps and Coralie Colmez use a wide range of examples, from a mid-19th-century dispute over wills that became a signal case in the forensic use of mathematics, to the conviction and subsequent exoneration of Amanda Knox, to show how the improper application of mathematical concepts can mean the difference between walking free and life in prison. The cases discussed include: -The Case of Amanda Knox (How a judge's denial of a second DNA test may have destroyed a chance to reveal the truth about Meredith Kercher's murder) -The Case of Joe Sneed (How a fabricated probability framed a son for his parents' grisly killing) -The Case of Sally Clark (How multiplying non-independent probabilities landed an innocent mother in jail for the murder of her children) -The Case of Janet Collins (How unjustified estimates combined with a miscalculated probability convicted an innocent couple of violent robbery) A colorful narrative of mathematical abuse featuring such characters as Charles Ponzi, Alfred Dreyfus, Hetty Green, and Oliver Wendell Holmes, *Math on Trial* shows that legal expertise isn't everything when it comes to proving a man innocent.

The bestselling author of non-fiction and fiction books and film, leader of a congregation of 30,000 members and a business empire, Bishop T.D. Jakes continues to teach and demonstrate ways to lead a prosperous and balanced life based on faith. Reposition Yourself teaches spiritual principles of prosperity and success. Bishop T.D. Jakes explains from a Christian point of view how to re-evaluate and reconstruct your attitudes about giving, sharing, and reaping the rewards of life - financial and otherwise. He encourages readers to give themselves permission to succeed, give in a spirit of love, practice the discipline to observe the principle of divine portion, and so much more that will lead to prosperity and fulfilment. Grounded solidly in Biblical teachings, Reposition Yourself shows readers themselves - their character and their circumstances - a way to apply the lessons of scripture in everyday professional and personal life.

Musical Minorities is the first English-language monograph on the performing arts of an ethnic minority in Vietnam. Living primarily in the northern mountains, the Hmong have strategically maintained their cultural distance from foreign invaders and encroaching state agencies for almost two centuries. They use cultural heritage as a means of maintaining a resilient community identity, one which is malleable to their everyday needs and to negotiations among themselves and with others in the vicinity. Case studies of revolutionary songs, countercultural rock, traditional vocal and instrumental styles, tourist shows, animist and Christian rituals, and light pop from the diaspora illustrate the diversity of their creative outputs. This groundbreaking study reveals how performing arts shape understandings of ethnicity and nationality in contemporary Vietnam. Based on three years of fieldwork, Lonan O Briain traces the circulation of organized sounds that contribute to the adaptive capacities of this diverse social group. In an original investigation of the sonic materialization of social identity, the book outlines the full multiplicity of Hmong music-making through a fascinating account of music, minorities, and the state in a post-socialist context.

FutureHmong

A collection of epics from the Miao (Hmong) ethnic group of southwest China. The poetic narratives, traditionally performed by two groups of singers, relate the creation of the world and the peoples and creatures in it. One of the major figures in one series of the songs is Butterfly Mother (Mai Bang), a personified butterfly who lays the eggs that eventually lead to the creation of the local peoples. Rich in cultural lore, these mythic narratives are virtual encyclopedias of traditional myths, legends, and folk customs of the Miao people.

Final Signs

Much is being said about the end times today. Some is fact. Some is speculation. How can you tell the difference? Why is there so much uncertainty and disagreement over what will happen in the last days? When the facts of Bible prophecy are used to speculate about what might happen in the end times, it's easy to come up with opinions and guesses that aren't correct. In Final Signs, prophecy expert Ed Hindson introduces us to a set of guidelines that we can use to determine where fact ends and speculation begins. Using these guidelines, we can better understand what the bible says about the coming world government the rise of Antichrist and the False Prophet modern-day wars and Armageddon the signs of Christ's return disasters and judgment during the tribulation Final Signs is the perfect answer for anyone who wants a clear preview of what God has promised He will do in the last days.
