These men, ranging from teenage boys to men in their eighties from over forty different countries, were detained for years without charges, trial, and a fair hearing.

Without any legal status or protection, they were truly outside the law: imprisoned in secret, denied communication with their families, and subjected to extreme isolation, physical and mental abuse, and, in some instances, torture. These are the detainees' stories, told by their lawyers because the prisoners themselves were silenced. It took habeas counsel more than two years—and a ruling from the United States Supreme Court—to finally gain the right to visit and talk to their clients at Guantánamo. Even then, lawyers were forced to operate under severe restrictions designed to inhibit communication and envelop the prison in secrecy. In time, however, lawyers were able to meet with their clients and bring the truth about Guantánamo to the world. The *Guantánamo Lawyers* contains over one hundred personal narratives from attorneys who have represented detainees held at “GTMO” as well as at other overseas prisons, from Bagram Air Base in Afghanistan to secret CIA jails or “black sites.” Mark Denbeaux and Jonathan Hafetz—themselves lawyers for detainees—collected stories that cover virtually every facet of Guantánamo, and the litigation it sparked. Together, these moving, powerful voices create a historical record of Guantánamo's legal, human, and moral failings, and provide a window into America's catastrophic effort to create a prison beyond the law. An online archive, hosted by New York University Libraries, will be available at the time of publication and will contain the complete texts as well as other accounts contributed by Guantánamo lawyers. The documents will be freely available on the Internet for research, teaching, and non-commercial uses, and will be preserved indefinitely as a historical collection.

The liability insurance crisis

Providing analysis and interpretation on the construction of the Bermuda Form, this second edition also addresses the dispute resolution process and covers the legal and practical issues which arise in the international arbitration of large and complex disputes under it. The work has been thoroughly revised to take into account the major changes in the governing New York law since the first edition, as well as significant English case law such as *AstraZeneca v ACE & XL*. This case has had major implications for the interpretation of issues such as the recoverability of defence costs, assertion and proof of legal liability. The resulting trend towards brokers and insurers drafting endorsements intended to clarify intent, and the nature and efficacy of these endorsements, are also analysed in this edition. The implications for policyholders and insurers of the ACE Insurance Form 007 are also discussed at length. Providing valuable analysis of disputes involving the Bermuda Form, particularly concerning arbitrations, this work gives access to an otherwise closed arena and is an indispensable guide even for experienced practitioners in this field.
