While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. "In recent years the debate on multiculturalism in the UK and other Western societies has focused principally on Islam, and the specific 'problems' said to be posed by Muslims have been invoked to justify the claim that multiculturalism has failed. That claim is opened to scrutiny and challenged in this unique collection through a series of explorations of specific issues and controversies - including the question of the veil, crime, political Islam, the role of Muslim women, sexuality and the Danish cartoons affair - and through more general reflections on the nature of multiculturalism. By exploring the nature of cultural differences and sensitivities

and examining the way conflicts have played out, this challenging book makes a wide-ranging contribution to debate and a more constructive inter-cultural engagement. The contributors draw upon the disciplines of social science, ethics, theology, philosophy and education to examine the nature of the issues and flashpoints and to draw out implications for theory, policy and practice." --from back cover.
